

# Sue Reon Kim

UX/Product Designer

Seeking **UX Design** Internship for Summer 2021

suereonkim.com

suereon.kim@gatech.edu

## Projects

### Atlanta Pride Scavenger Hunt | **UX Designer + UX Researcher**

Fall 2020 | Atlanta, GA

- + Conducted end-to-end UX research for the first virtual Atlanta Pride Scavenger hunt game to help transfer the physical Pride spirit into virtual space.
- + Re-designed the scavenger hunt game platforms with the goal of higher participation and engagement within the LGBTQ+ community.
- + Evaluated and iterated the human-centered design process throughout the project and prototyped high-fidelity UI mockups.
- + Communicated closely with the Atlanta Pride Committee and local community organizations including sponsors to align the stakeholders' needs.

## Experience

### Georgia Institute of Technology | **Graduate Research Assistant**

December 2020 - Current | Atlanta, GA

- + Communicating effectively with High Museum's Education department to help transfer their art educations virtual with the goal of higher engagement.
- + Prototyping 3D virtual reality museum based on the High's exhibitions.
- + Conducting UX research in order to create educational 3D virtual tours for underserved K-12 students.

### High Museum of Art | **Member Services Assistant**

October 2019 - September 2020 | Atlanta, GA

- + Processed, managed and reported membership database for over 80,000 household accounts.
- + Created and implemented successful annual fund, acquisition and renewal campaigns by analyzing renewal and visiting patterns, generating \$1 million annual revenue.
- + Acquired monthly feedback from members by facilitating public and member programmings and events.

### Museum of Contemporary Art | **Visitor Experiences Associate**

May 2018 - September 2019 | Chicago, IL

- + Brainstormed 2 special exhibition designs by walk throughs of the planned layouts to decrease potential bottle necks for over 100,000 visitors.
- + Reviewed exhibition labels to minimize jargons for clarity and readability.
- + Developed targeted outreach emails to cultural institutions for theater and public art programs to increase the attendance and engagement within Chicago's Art communities.

### Opian Music | **Software Engineer**

January 2017 - August 2017 | Chicago, IL

- + Front-end development with Unity for an educational piano app with Midi input.
- + Created and implemented algorithm for finger numbers method in order lower the beginner's roadblocks on reading music notes.
- + Facilitated weekly field user testings with beginner piano learners to assess speed of learning piano and their progress on the levels.
