Bonn City Tours is a local tourism start up from Bonn and was founded in 2017 by the history student Daniel Friesen. Bonn City Tours offers national and international visitors high quality guided tours in many languages. The guides with academic degrees do not only get their knowledge from their studies, but portray authentic information, stories and anecdotes which are remembered by the guests with pleasure. With the “free walking tour” the 29 year old historian has become an omnipresent figure of daily life in town. Additionally, Bonn City Tours offers you special tours like the VW-bus tour, pub crawls, Beethoven tours, team building events or customised group and company tours.
