LIFETIME TOOL® & BUILDING PRODUCTS LLC

PREMIUM ROOF SYSTEM COMPONENTS

News and Tips

Welcome to our first official Lifetime Tool Newsletter! We hope to highlight some great distributors and roofers as well as inform and educate.

Since January of this year, Lifetime Tool has watched as more and more roofers realize the value of our premium roofing components. The Ultimate Pipe Flashing and popular Ultimate Bath/Dryer Vent continue to grow in popularity thanks to their 50+ year warranty. Both roofers and homeowners are demanding a better roof flashing for their vent pipes and we have them. No more leaks for the homeowner and NO MORE CALL BACKS for the roofer.

Lifetime Tool continues to innovate and grow as we explore a new line of flashing products for the metal roof industry as well as expand our sales force. With two new outside sales persons and a new inside sales team member, we expect 2021 to be another banner year for Lifetime Tool.

Lifetime Tool Hits Milestone!

This year marks the **10th Anniversary** of Lifetime Tool & Building Products....it is also the 10th Anniversary of the Ultimate Pipe Flashing!

Mr. Roger Cline, the Managing Partner and Principle has been, and still is, on the cutting edge of roofing innovation. In 2019, he launched the Ultimate Bath/Dryer Vent...the **ONLY** bath vent rated for over 110MPH for wind driven rain. Today, he continues to

develop new components to further assist both the homeowner and the roofer with quality products that last the life of the roof and beyond.

To top that, we continue to offer the only 50+ year warranty that matches today's longer life roofing single.

Roofer Spotlight - *BluDog Roofing*

Kim Sammons of BluDog Roofing is one of our newest users of the Ultimate Pipe Flashing (UPF). Located in Delaware, Kim's market is no stranger to cast iron vents and she welcomes the opportunity to use both the UPF in combination with the EASYSleeve.

"Having learned about the Lifetime Tool's UPF from my representative Adam Hepner, I couldn't help but be impressed." Kim understands that with the Ultimate Pipe Flashing, she won't have any call backs. To learn more, visit her great website!

Picture of the Month!

Dryer Vent 101

This clogged vent is no laughing matter. The blockage causes a chain reaction that could lead to death!

With the dryer attempting to run longer and hotter to dry clothes, the vent collects moisture, compounding the problem. This may lead to overheating and eventually a possible fire inside the dryer.

The Ultimate Bath/Dryer Vent allows for "Easy Access Cleaning" by removing two simple Phillips head screws, allowing full access for cleaning. Ideal for those multi-family housing units that require annual inspection.
