

Grammarian: Come up with alternative regions

In groups, come up with alternative descriptions of the regions on Grammarian. For instance, how could Adverbia or Adjectivia have been described differently, yet still representing adverbs and adjectives?

Example: An extraterrestrial attack on Adverbia has left its inhabitants speaking like robots because they have been robbed of every nuance of language.

Present your ideas to the rest of the class, and discuss whether your descriptions are good representations of the grammatical functions.
