FriendlyTransfer is a platform where you connect with people abroad to make international transfers.

*Without banks as intermediaries, you **avoid the fees** you would **normally pay**.*

Benefit from your connections around the world

Connect with an exchange partner living abroad to transfer money where you need to. It could be your friend or someone you have friends in common with.

It's simple, you *find an exchange partner where you want to send money to*, who also needs to *send money to where you are*.

Let's dive right in:

Ana is an exchange student living in the U.S., she needs to send \$200 USD to her mother who lives in Costa Rica.

Santi lives in Costa Rica and needs to send \$200 USD to his best friend living in the U.S.

*Instead of using banks to transfer the money, Ana & Santi **connect on FriendlyTransfer**, and agree to make a transaction:*

1. Ana sends \$200 USD to Santi's best friend in the U.S. using *Cash App*.
2. Santi sends \$200 USD to Ana's mother in Costa Rica through a local bank electronic transfer that has no fees.

This way, Ana & Santi exchange money locally and both of their recipients get it.

*Neither of them pays a transfer fee, and they both **save money**.*

How does FriendlyTransfer work

1. Sign in

Sign in with Facebook or LinkedIn to connect with friends or colleagues.

2. Propose a transaction

Set the transaction amount, the country where you need to send the money to, and the country where you're sending the money from.

Hit go, and review the results provided.

3. Match

Message the user who best matches your interest.

Start a chat and reach a written agreement on the platform on how and when to deliver each other's money.

4. Make the transfer

Your method of payment depends on the countries you need to send money to or from.

Some accept apps such as Venmo, PayPal, Cash App, Google Pay, Apple Pay, etc.

Other countries where these apps are not running yet may only be able to make an electronic domestic bank transfer. These are normally free of charge.

Send the payment to each other's recipient.

5. Rate your experience

Close the transaction and rate your experience.

Rating each other's experience is how we build and maintain trust within our community. Please remember to rate your experience.
