

15 Cylinder Pallet 6085

For trailers and trucks with a tomb style receiver

ProRack manufactures cylinder pallets for a wide variety of delivery trucks and trailers compatible with many tomb, picket and nesting systems found in the industry. ProRack's cradle and manifold expertise combined with steel product manufacturing volume result in high quality and competitive solutions for your cylinder distribution requirements.

Outstanding Cylinder Pallet Features

- Designed to handle up to 15 large high pressure cylinders.
- Built in locations for strap hooks
- Heavy duty construction with hot dipped galvanized finish for years of service life. Powder coating available.
- This pallet is commonly used with major gas producers fleet trucks. Custom pallets are available to fit your exact dimensions.
