### Profile

Hi there! Thank you for taking the time to read my resume. My name is Thomas and I'm a UI & UX Designer that moved to Amsterdam after finishing his bachelor in Communication and Multimedia Design in The Hague.

For me user experience design does not limited itself to websites. In fact I see it everywhere around me in all kinds of shapes and forms. That's why I like to come up with creative and user centered designs for all kinds of applications and products.

### Experience

#### Woodwing

UI & UX Designer, 2017 - present

At Woodwing I work as an UX/UI Designer on multiple digital asset management systems.

My job involves analyzing business requirements and needs from our customers and translating them into new features. In order to do this I work closely together with multiple development teams, product owners and partners in order to build user centered solutions.

#### Linx IT Solutions

Projectmanager, UI & UX Designer, 2016 - 2017

Linx IT is a company that develops eCommerce platforms for major companies which include: Tommy Hilfiger, Calvin Klein, Escada and more.

It was my job as the lead UX/UI designer to come up with solutions to user needs and (re)design content management systems. As a projectmanager I worked together with multiple teams of programmers to create, test and improve the systems.

#### Wentzelmedia

Freelance, all-round designer, 2015 - present

As an all-round freelance designer I help small, medium and startup businesses with their website, corporate identity, video and artwork.

#### MediaBridges

Intern Interaction Design, 2014 - 2015

My graduation project was to design an interactive tv channel that helped seniors with their physiotherapy exercises. These exercises had to be selected by physiotherapists that in their turn also needed a system tailored to their needs.

#### Music Entertainment bookings

Intern allround designer, 2012 - 2013

During my internship at MEB I worked on multiple projects such as designing, testing and improving websites. During this period I got my first experience of working together with internal and remote development teams.

I also worked on graphic design assignments such as developing house styles, artist profiles and online/offline promotion materials.

### Education

#### The Hague University

Den Haag, 2010- 2015  
Communication & Multimedia Design (Bachelor)

#### The Hague University

Den Haag, 2009 - 2010  
Pedagogical Academy of Primary Education

#### Dutch Royal Navy

Rotterdam, 2008 - 2009  
Marine Corps

#### Stanislas College

Delft, 2002 - 2007  
HAVO, profile: Economics and Society

### UX/UI Skills

Conducting user research  
Create user stories and persona's  
Benchmarking  
Building an information architecture  
Wireframing  
Visual Design  
High fidelity prototyping  
User testing  
Building/working with design systems

### Software

Adobe Photoshop, Illustrator, Premiere Pro, After Effects  
Sketch  
Figma  
Principle  
Axure  
InVision  
Balsamique  
Wordpress  
Webflow

### Hobbies

#### Hang gliding

It started hanggliding back in 2009. Every summer I like to go to Austria, France or Italy for a couple weeks with my flying club to find a nice mountain to run of from.

#### Music

I've always had an above average passion when it comes to electronic music and over the last 8 years I have had a lot of fun playing and producing techno in my free time.

#### Gaming & Gadgets

Ever since I was a kid I've been obsessed by videogames, gadgets, hardware and computers.
