

Procurement

Our commitment

Trans4m Rail is committed to efficient, effective, ethical and sustainable procurement.

Our approach

Trans4m Rail will strive to maximise value for the company, its shareholders, clients and the communities we operate in through best in class ethical and sustainable procurement practices.

Procurement Policy in practice

Without suppliers, Trans4m Rail cannot meet shareholder, client or community expectations. The way we procure and manage the supply chain has a significant influence on profitability, reputation, stakeholders, communities and our success in meeting our sustainability objective and expectations.

Trans4m Rail will, and expects all our employees, contractors and business partners to:

- Uphold ethical business practices, comply with legislation, regulations, standards, codes, licences and comply with applicable codes of business conduct, policies and procedures including those of Trans4m Rail
- Understand the risks and complexities of the services and products we procure so that we can recognise and respond to issues appropriately to minimise risks
- Develop, promote and maintain systematic, integrated and competitive selection, approval, and review processes to manage all critical and strategic suppliers
- Continuously improve supplier relationships and develop a resilient supply chain
- Ensure procurement decisions are aligned with the business strategy and plans and take into consideration total lifecycle cost and the triple bottom line being the economic, environmental and social impacts.

A MORE PROSPEROUS AUSTRALIA
WITH A WORLD-CLASS SUPPLY CHAIN
BASED ON A FAST, SAFE, RELIABLE,
CONNECTED INLAND RAIL
