Overview

This Privacy Policy describes how your personal information is handled in Skipping Skills and Skipping Skills Unlocked for iOS and the web version of Skipping Skills (hosted through Thinkific).

Skipping Skills and Skipping Skills Unlocked for iOS

The iOS app versions of Skipping Skills do not collect, use, save, or have access to any of your personal data. When you make in-app-purchases or purchase Skipping Skills Unlocked, the App Store handles all personal and payment information required to make the transaction. Please refer to the App Store Privacy Policy for more information. Skipping Skills never has access to any of your personal or payment information.

If you choose to utilize the “video yourself” feature (video camera icon in the top right corner of the app), the app will ask your permission to access your camera and microphone. If you accept and record a video, the video will not be saved anywhere, including your own device. Skipping Skills will never have access to any of your photos or videos. This feature is designed to help you learn jump rope skills by allowing you to see yourself performing the skills, without having to leave the app or clutter your camera roll with videos.
