- Directories
- Payment boards
- Bus stop

User Experience Features

We offer a variety of interactive Kiosks with multiple uses that facilitate commercial and business processes, and allow for a more effective delivery of information.

High Speed Touch Response

Willboard's touch screen eliminates accidental touches based on size and speed of touch. High touch accuracy and fast response times of 6-8 milliseconds.

Multi-Touch

Simultaneous touching response in up to 20 separate points, allowing multiple users to do collaborative work in any environment.

High Definition

Full HD crystal touch screen delivers the highest image quality, providing a fantastic visual and interactive experience.

Available Sizes

Our Kiosks come in three basic sizes specifically designed for excellent performance in a variety of set-ups. Other sizes are also available through custom requests.

Screen Special Features

Antishock Screen

Willboard units come with a tempered glass screen cover that resists high impacts, and an aluminum frame built for prolonged use and better performance. Almost indestructible.

Anti-glare Screen

Anti-reflective coating (also called "AR coating" or "anti-glare coating") that improves visibility, reduces eye strain, and makes your WillBoard look more attractive.

Technical Specifications

We ensure that our equipments support all around connectivity to other devices, and multiple A/V ports, customizable according to the users' needs.

Dual OS

Willboard can be used with both Windows and Android operative systems with an easy switch. All Our Willboard units use a primary OS (Windows) and a backup OS (Android).

Multi-Input Source

Willboard is a multi-source unit, which means that you can connect multiple types of devices (Bluray, DVD, Cable, etc.) at the same time.

Remote Access

Willboard allows Remote support tools and software that enable an IT technician or a support representative to connect to the unit from their consoles via the Internet and work remotely on the system.

Works Without Accessories

Willboard Users never need to buy another input peripheral devices. Everything is included in our AIO.

Wireless

Willboard is equipped with a dual-band WiFi antenna that is capable of transmitting at either of two different standard frequency ranges, 2.4 GHz AND 5.0 GHz channels.

Specs List
