

Small business survey

Hi, we're looking at the possibility of installing storm-and-flood-resistant WiFi in your neighborhood.

We have a few questions to help us understand whether small businesses would be interested in a service like this.

1. Did you have impact/damage from Sandy?

Yes No

2. Are you concerned about the impact of another storm or weather event on your Business?

Yes No

3. Do you offer free WiFi for your customers?

Yes No

If not, is cost a primary factor?

Yes No

What other barriers might prevent you from installing WiFi?

4. Would you have any concerns about providing a service like this?

5. If you would be interested in a public-facing WiFi service designed for continuity and resilience, would you be willing to contribute a small amount of power to support wifi equipment?

Yes No

6. Would it make a difference if the free WiFi service was designed to survive storms and floods, and could keep your business connected in an emergency?

Yes No

7. Do you think having free public wifi would help your business?

Yes No

Why or why not?

8. How connected do you feel to the community?

3

I am actively involved with my neighbors and local organizations/businesses and enjoy living in this community

2

I am moderately involved with my neighbors and local organizations/business and enjoy living in this community

1

I haven't lived here long and/or don't know too many people

Why or why not? Please describe.

9. How long have you been in this neighborhood?

10. Would you be willing to share your contact information so we can get in touch if and when a plan moves forward?

Owner name

Phone/email

Roof access?

Power?
