Centare Outsourced Onshore Development Teams

"We partnered with Centare with the expectation that they'd not only deliver a great product, we wanted to **enhance our team's experience by exposing them to Centare's excellent approach to building software products**. Centare came through with flying colors on both fronts."

- John Heinen, CTO at Advicent

Centare's Outsourced Development Engagement (CODE) Teams help you scale your custom software development capabilities quickly, while lowering Total Cost of Ownership (TCO).

Centare's CODE Teams are made up of 100% salaried U.S.-based Centare employees - no subcontractors or makeshift teams here. With over 20 years of experience, Centare's CODE Teams bring a high amount of productivity to bear very quickly, while scaling your software development capabilities by collaborating with you to work, learn, and teach together. The result is high-quality software delivered sooner, reducing TCO and increasing ROI.

Advantages

- **Flexibility:** Our team roles and sizes are customizable to meet your needs. Whether it's a client-led or Centare-led project, we have you covered.

- **Speed to Value:** Our teams have experience working together and will hit the ground running on Day 1. Centare's CODE Teams are 100% salaried U.S.-based employees.

- **Player & Coach:** Our team members endeavor to not just deliver working software at the highest level of quality, but also help our clients "know what we know" and thrive in the future.

- **Adaptability:** As your project evolves, our teams adapt, bringing in the skills necessary to the task from our experienced team of designers, engineers, and product managers.

- **Investment:** On average, our clients see at large reduction in TCO and improved ROI.

Our Approach

- **Consult with your team** to understand your business context, technical challenges, and desired outcomes. Understanding the 'why' will better equip our team to deliver results that align with your business goals.

- **Assemble a team** that best meets your needs, based on discovery conversations with your team. We have the flexibility to provide teams of individual software engineers, all the way up to full cross-functional teams.

- **Integrate with partner team members** to internalize your processes and culture. One of our core values is to 'leave them better than you found them.' In addition to completing software development tasks, we always look for opportunities to train and grow your team.
