

digital DA Marketplace

- Onboarding** Streamline onboarding so that it takes days rather than 6-12 months
- Product Collaboration** Use data and digital tools to automate checks across markets, reinsurances, faculties and manage by contract
- Binding & Placing** Use digital tools connect & collaborate on bringing new propositions to market
- Lead capacity placement** Streamline markets of releasing capacity for a proposition, enabling both lead brokers and reinsurers
- Lead capacity pricing** Use algorithms for each DA party to price individual risks, but aggregate capacity and compliance checks
- Ongoing capacity** Connect Proprietors, Sellers and Clients with an ecosystem, buy letter and gether access to the information
- Rating** Provide reports on an ongoing basis and determine how capacity is released or retained
- Claims Handling** Manage the payment and reimbursement of funds based on capacity, product features and claims experience

"If we're moving to a world where we're not working from London or Zurich, this needs to be a good means of ensuring flexibility and efficiency"

"DOM PPL Contract Builder - all add value but they need to be joined up to get the data into one place to really get us where we need to get to"

"User Experience is a massive part of how successful something like this will become"

"It should have an API catalogue and web hooks that supports external connectivity and data exchanging"

"If we're bringing a new system into play, has to be a single one that removes the need to use multiple others. Cannot be just another system to add into the mix"

"APIs to data stores drives the experience in a single layer"
