

# Job Description & Competencies

<b>Employee Name</b>	
<b>Position Description</b>	IoT Architect
<b>Operational Area</b>	Engineering

## Key Responsibilities

Founded in 2013, Indra Renewable Technologies is a fast-growing electric vehicle and smart energy technology company developing innovative charging and energy storage solutions. Indra operates across two highly innovative and fast-moving industries; electric vehicles ('on vehicle' technology) and smart energy ('off vehicle technology'); developing and manufacturing smart energy products, including an electric vehicle Smart Charger, a Vehicle to Grid (V2G) charger and vehicle battery systems. We see an opportunity for Indra to play a significant role in supporting EV OEMs, energy retailers and electricity grids in the transition to decarbonising transport and homes in the UK and beyond.

Indra wishes to develop its own IOT solutions to support existing products and enable new opportunities. This role is our first hire into IOT and will be pivotal to developing this exciting new business area.

- Own the full IoT solution within Indra.
- Become the system Architect for IoT solutions, responsible for designing and implementing scalable, fit-for-purpose solutions that meet the business' needs as they grow and evolve
- Act as the main point of contact for all relevant technology questions
- Import an existing App and Platform tools into Indra
- Feature development through full lifecycle
- Assess existing solution and create and own Indra's IoT roadmap
