

JOB DESCRIPTION & COMPETENCIES

EMPLOYEE NAME	TBC
POSITION DESCRIPTION	Electrician / Electrical Trainer – Electric Vehicle Charging
OPERATIONAL AREA	

KEY RESPONSIBILITIES

Founded in 2013, Indra Renewable Technologies is a fast-growing electric vehicle and smart energy technology company developing innovative charging and energy storage solutions. Indra operates across two highly innovative and fast-moving industries; electric vehicles ('on vehicle' technology) and smart energy ('off vehicle technology'); developing and manufacturing smart energy products, including an electric vehicle Smart Charger, a Vehicle to Grid (V2G) charger and vehicle battery systems. We see an opportunity for Indra to play a significant role in supporting EV OEMs, energy retailers and electricity grids in the transition to decarbonising transport and homes in the UK and beyond.

Indra is unique in the UK EV charging industry in that we do not sell via wholesalers and we train each and every one of our installation partners to ensure good quality of install. Coupled with quality of the product we have not serviced a warranty return in over 12 months. This role is to ensure we maintain this industry leading quality standard

We are recruiting for a qualified electrician to assist the business across multiple operational areas including installer partner training, installer support, quality assessment of installation partners, VIP installations, troubleshooting and product development. This role would especially suit candidates who have led teams, have a background in training / quality supervision or are looking to progress further in their career. This will be a mixed role providing time in office and at customer sites.

- The applicant will be able to design and deliver training to installer partners
- The applicant will be able to work independently or as part of a team on domestic and commercial properties to install EV charging and other similar technologies. – note this would be occasional (e.g. VIP customers and new products) and this is not seen as a full time installation role.

Worcestershire, WR14 1GL

JOB DESCRIPTION & COMPETENCIES

- The applicant will be able to provide an oversight to installer partner quality of installation.
- The applicant will offer support to installation partners via the Indra customer service team.
- The applicant will be able to work with the product development teams to improve existing products and help develop new ones.
- The applicant will have an in depth and up to date understanding of BS7671 and other appropriate standards.
- The applicant will (alongside the product development teams) be able to help drive standards forward, assist in consultations etc.
- The applicant will give support to the sales team, e.g. in scoping size of projects.
- The applicant will help to identify new ways of working, installation methods, products and services to assist install partners.
- The applicant may, in the future, lead a small team as the role and requirement grows.
