Two Kinds of WAC Changes

1. Original package of changes, as proposed in December 2019 & March 2020

2. Changes as a result of the public comment & public hearing process
1. Retaining the word “must” in all instances, rather than changing to “shall”

2. The proposed definition of candidate required information was clarified to read "Candidate required information" means the factual information a candidate must provide on the candidate information form to be eligible for election”

3. Repealing WAC 135-110-370, which would result in all CDs holding elections without the possibility of cancellation

4. The phrase “as per the provisions in WAC 135-110-970” was added to WAC 135-110-740 to make clear that a vacancy created when no eligible candidate is elected is governed by the procedure in WAC 135-110-970
**REPEALING WAC 135-110-370**

- Eliminates the cancelling of an election
- All CDs will have an election every year
- Since the inception of WAC Chapter 135-110 in November 2010, on average 67% of conservation districts cancel their election

**Results:**
- Higher burden on CDs, CD staff, and increased work load for Commission staff
- Increased voter and candidate participation
WAC Change Package Included

1) Removing the distinction between absentee, mail-in, or in-person ballots

2) Consolidating candidate types into just two – those who will appear on the ballot and those who will not

3) Eliminating the automatic disqualification of write-in candidates when a ballot contains a candidate whose name is pre-printed on the ballot

4) Eliminating nominators and the nominating petition
Highlights Include

5) Creating a distinction between candidate required and optional information

6) Aligning the CD election retention schedule with the Secretary of State’s schedule

7) Setting all CD elections during a full calendar week in March, excluding Sunday

Note: The Commission, at their March 2020 meeting, removed this change from the change package.

8) Setting deadlines for certain notices, reporting, and form submittal
Highlights include

9) Requiring CD staff to be trained in conducting elections, as per the adopted EQAP

10) Explicitly allowing election supervisor duties to be delegated to others

11) Requiring poll sites to be open for a minimum of 4 consecutive hours

12) Cancelling an election when just one single candidate files by the filing deadline

Special Note: In March 2020, the Commission decided to leave this change in the proposed change package, but wanted Commission staff to note that it was disfavored by the Commission due to legislator concerns, and likely wouldn’t survive the final adoption process.
Highlights include

13) Setting out the procedure and effect of candidate withdraw

14) Clarifying who can serve as polling officers

15) Clarifying when electronic signatures and filing can be used

16) Setting out the procedure for complaining about or challenging an election

17) Setting out the procedure for filling vacancies in elected positions
Some Changes in Depth

- **WAC 135-110-360.**
  - If no one files by the candidate filing deadline, or
  - If all who file by the candidate filing deadline are found to be ineligible by the election supervisor, then
  - Only write-in candidates can be elected
    - Provided they are eligible
    - Must submit the candidate required information within 28 days of the election and be found eligible by the election supervisor
5) Creating a distinction between candidate required and optional information

- WAC 135-110-110 Definitions.
- The proposed definition of candidate required information was clarified to read "Candidate required information" means the factual information a candidate must provide on the candidate information form to be eligible for election."
  - Distinct from “candidate optional information”
  - Candidate optional information is any other information, which may also include candidate required information, and is usually found in a candidate statement.
8) Setting deadlines for certain notices, reporting, and form submittal

- WAC 135-110-220 (1).

- The notice of the intent to adopt an election resolution was eliminated. A CD must publish the notice of the adopted election resolution (the time, place and manner of the election) **within 7 days of the board meeting**
  - Just one notice
  - Must be published in the newspaper (at a minimum – may be published by the CD in other media as well (website, social media, newsletters, etc.))

  - **Within 14 days of the election** (changed from 28 days)
  - Unless, after consultation with the Commission, the election supervisor determines more time is needed
9) Requiring CD staff to be trained in conducting elections, as per the adopted EQAP

- WAC 135-110-230 (e).
- Requires that the election supervisor “be trained in election policy and procedure as per conservation commission requirements.”

  - Training, for now, means attending a web-based training
  - Training is recorded so can be viewed / taken anytime

    - When complete, a written report will be provided to the executive director
  - The executive director reviews the report and determines:
    - The complaint does not rise to the level of significant noncompliance with election procedure sufficient to warrant the noncertification of the election or
    - The complaint does rise to the level of significant noncompliance with election procedure sufficient to warrant the noncertification of the election.
    - If the complaint does not rise to the level of significant noncompliance, the executive director may recommend that the election be certified and announced by the Commission.
    - If the complaint does rise to the level of significant noncompliance, the executive director may recommend that the election not be certified and announced, and request that the CD hold another election as per the procedure in WAC 135-110-780.
17) Setting out the procedure for filling vacancies in elected positions

- **WAC 135-110-970.**
