WATER QUALITY PROGRAM MANAGER

Pierce Conservation District (PCD) is seeking a full-time Water Quality Program Manager. This position will support the Water Quality program by working within the Thea Foss and Flett Creek basins to implement green infrastructure projects on private and public properties. By working deeply in target areas within these basins, building relationships, and integrating water quality topics into community conversations this position will be responsible for increasing the diversity and engagement level of community members participating in our work. This position works independently as well as in teams, both inside the organization and with community partners. This position requires excellent oral and written communication skills, client service and project management abilities, the ability to develop relationships with diverse groups of people, and some physical fieldwork.

The ideal candidate will have a proven track record of managing projects and engaging with diverse communities. They will be a strategic thinker committed to getting results in a complex environment and able to handle a heavy workload without dropping the ball and willing to work non-traditional hours.

Position open until filled. First review of applicants is: January 29, 2021
Earliest Projected Start Date: March 1, 2021
