

Alec Beckley

UX Designer | Webflow Developer

Profile

I am a self-taught designer who is constantly pushing myself to the best that I can be, whether it be working on projects with clients or learning more about design and programming. With a passion for design I desire to continue innovating and creating great experiences that affect people's lives in a positive way whilst meeting business goals.

Design Projects

UX/UI Designer & Webflow Developer (Contractor) / Gabriel Lazaro

Oct - Nov 2020 (Remote)

Designed and developed a responsive website for a musician the website with Webflow. Conducted research, user testing and created mockups along with a user-friendly platform for users to complete various goals concerning the artist and centralising the client's work / digital presence.

UX/UI Designer & Webflow Developer (Contractor) / Element Windows & Doors

March - April 2020 (Remote)

Designed and developed a professional Webflow site for a small business in Devon to improve growth and success. Conducted user research and market analysis as well as creating mockups and an interactive prototype for further testing. Later developing the website with Webflow.

UX/UI Designer (Contractor) / PopUp Shop Shop

July - August 2019 (Remote)

Re-designed a responsive website for a startup in South Africa. I conducted research and created mockups for a final design ready to be handed off to the developer.

Work Experience

UX/UI Designer & Webflow Developer / Freelancer

July 2019 - Present

Using my coding and UI/UX design skills to provide a service to clients. Helping to bring concepts to life and deliver products that solves business problems whilst giving great experiences to users.
