You'd love it here.

When people join 9xb they stay for years. We look after them really well and together we form a winning partnership. You may be ready for a new challenge, want to increase your earning potential, crave a more positive environment where your work is appreciated, or work somewhere that offers career progression. Whatever your reason for considering a change, why not give us a call?

Here are some of the key reasons why our people love working at 9xb:

Positive culture

We'll set you up for success. You'll have modern, up to date equipment (your choice of Windows or Linux); a team of experts to support you and we'll give you the autonomy to innovate. Regular appraisals ensure your voice is heard and if for any reason you're not happy we want to know about it.

Personal development

9xb take your career development seriously. Training and development opportunities are always available, and we do whatever we can to advance the skills of individuals and the team. At 9xb not only will you learn, but you'll also have the opportunity to teach, train and mentor others, proving your capabilities. We love it when people use their passion to take ownership of problems and come up with their own solutions. Regular departmental meetings give us the platform to share insight and knowledge, and let everyone be heard. Certain roles will have progression plans, and we always promote from within.

Work life balance

Our hours are 8:30am to 5:00pm and yes, sometimes we have to work late but it's the exception and not the rule. If you need to vary your hours or work remotely we'll be flexible in accommodating wherever possible - we understand the need for work/life balance.

Two great locations

We have offices in Leeds city centre and in leafy Harrogate, so you can choose the location that suits you best. Either way, you'll be surrounded by an awesome team.
