CONTENTS

A green and white FlowZone sprayer is mounted on a trailer. The sprayer has a white tank and green accents. It is positioned in a park-like setting with trees and a grassy area in the background. The word "FLOWZONE" is written in a stylized, green, italicized font with a white outline, positioned above the sprayer.

FLOWZONE

We empower our users to complete their work efficiently and professionally.

Our proprietary line of sprayers is the result of constant improvement and acknowledging feedback from our customers. Each element of a FlowZone is mindful and deliberate; inside and out.

Favored by pest control, turf & ornamental, and lawncare professionals, these sprayers are built to withstand daily use and choice chemical solutions.

FLOWZONE®

LOOKING CLOSER

What makes a FlowZone sprayer?

The newest generation of FlowZone sprayers are delightfully versatile and more effective than ever before. We took your feedback and tweaked our design so you can forget those daily frustrations and focus on getting the job done.

FlowZone sprayers are capable and dynamic; meticulously sourced materials ensure lasting performance. The sprayers are equipped with the following features:

COMFORTSTRAPS™

Vest-style straps covered with a layer of breathable mesh to promote airflow even on the hottest days. The weight of a full tank is evenly distributed to fight against fatigue and body aches.

LITHIUM-ION BATTERY

Each sprayer runs on an 18V Li-Ion battery capable of powering the sprayer for up to three hours of continuous spraying on one charge. LED indicator lights alert you to current charge levels so you'll never be surprised by a dead battery. With proper maintenance, the batteries are built to last 1,000 charge cycles.

FIVE-POSITION DIAL

Putting the control at your fingertips, the variable pressure dial locks into five different pressure settings. Easily adapt to the needs of your spraying project. Easily calibrate your sprayer with your selected nozzle!

ERGONOMIC DESIGN

Thoughtful details are found throughout the sprayer in order to make operation intuitive. Starting from the tank lid down to the strap loops.

TYPHOON 2.5

Model #: FZVAAK-2.5

For the first time, the popular 4-gallon TYPHOON unit is equipped with an industry-leading five-setting variable pressure control dial. A crowd favorite, the Typhoon is a powerful tool capable of pressures up to 115 psi with a battery life of three hours.

A premier choice in the pest control and lawncare industries, the TYPHOON 2.5 will make it easier and quicker to spray.

Tank Capacity	4-gallon	Pressure	Up to 115 psi
Battery	18V/5.2Ah Lithium-Ion	Tank Output	>76-gallons
Charger	21V/2.5A	Spray Distance	Over 30-feet
Charge Time	~1.5 hours	Flow Rate	0.25 - 0.64 gpm
Spray Time	Up to 3 hours	Nozzles	25° fan, 0° jet, adjustable cone

CYCLONE 2.5

Model #: FZVA AJ-2.5

Another favorite of the pros, the CYCLONE 4-gallon sprayer has been updated with the 5-setting variable pressure controls. Spray for over two hours on one charge and over 25-feet!

The CYCLONE 2.5 provides all-day comfort and can withstand demanding projects. Crafted from select materials that will last through several spraying seasons, this sprayer is a great choice for lawn care or pest control.

Tank Capacity	4-gallon	Pressure	Up to 60 psi
Battery	18V/2.6Ah Lithium-Ion	Tank Output	>57-gallons
Charger	21V/1A	Spray Distance	Over 25-feet
Charge Time	~2 hours	Flow Rate	0.25 - 0.48 gpm
Spray Time	Up to 2.5 hours	Nozzles	25° fan, 0° jet, adjustable cone

STORM 2.5

Model #: FZVAAG-2.5

Featuring the new click-in-place knob, the STORM 2.5 includes all the best updates to the Pro-Series line. Notable for its compact 2.5-gallon size, this sprayer allows you to easily maneuver in smaller spaces while retaining spraying power.

Tank Capacity	2.5-gallon	Pressure	Up to 60 psi
Battery	18V/2.6Ah Lithium-Ion	Tank Output	>57-gallons
Charger	21V/1A	Spray Distance	Over 25-feet
Charge Time	~2 hours	Flow Rate	0.25 - 0.48 gpm
Spray Time	Up to 2.5 hours	Nozzles	25° fan, 0° jet, adjustable cone

MONSOON 2.5

Model #: FZSABN-2.5

The FlowZone® MONSOON 2.5 is a powerful sprayer combining select features of the Pro-Series lineup with unrivaled portability. Multi-terrain wheels transport this large capacity sprayer with ease. A 20-foot hose provides the freedom to navigate and spray while away from your sprayer.

Work up to 3 hours on one charge of the battery and spray over 30-feet away. The MONSOON 2.5 is the premier option for navigating between horticultural rows.

Tank Capacity	9-gallon	Pressure	Up to 115 psi
Battery	18V/5.2Ah Lithium-Ion	Tank Output	>76-gallons
Charger	21V/2.5A	Spray Distance	Over 30-feet
Charge Time	~1.5 hours	Flow Rate	0.25 - 0.64 gpm
Spray Time	Up to 3 hours	Nozzles	25° fan, 0° jet, adjustable cone

The ultimate tools to help you clean with confidence.

X-Stream Clean[®] products are specifically designed to make sanitation and decontamination jobs faster and easier. With sub-100 micron level droplet size capability, X-Stream Clean[®] is versatile enough for spraying indoors and out.

This lineup features compact sprayers that make navigating enclosed spaces a breeze. Meanwhile, with hours of battery life, you can work continuously without ever having to stop and pump.

X-STREAM CLEAN®

LOOKING CLOSER

Next-level disinfecting at the squeeze of a trigger.

Designed to make disinfecting intuitive and accessible, X-Stream Clean® is built to remain comfortable throughout a project. Non-corrosive materials are used in key parts and connections so you can spray harsh cleaning solutions without worry.

Each X-Stream Clean® sprayer features the following benefits:

COMFORTSTRAPS™

Vest-style straps covered with a layer of breathable mesh to promote airflow even on the hottest days. The weight of a full tank is evenly distributed to fight against fatigue and body aches.

LITHIUM-ION BATTERY

Each sprayer runs on an 18V Li-Ion battery capable of powering the sprayer for up to three hours of continuous spraying on one charge. LED indicator lights alert you to current charge levels so you'll never be surprised by a dead battery. With proper maintenance, the batteries are built to last 1,000 charge cycles.

STAINLESS-STEEL COMPONENTS

The spray wand and connections on the spray gun are made entirely of stainless-steel to fight corrosion as a result of any harsh chemical used in sanitization.

HEAVY-DUTY DIAPHRAGM PUMP

This recirculating pump is designed to prevent back-draft in the sprayer. A continuous flow is promoted through the sprayer even when using restrictive nozzles.

VOLT 2.5G ELECTROSTATIC

Model #: XCEAHX

The VOLT 2.5G backpack sprayer is designed to make sanitation and decontamination projects faster and easier. The lightweight design takes the stress off your back and wrists.

An incorporated Turbo-Boost™ electrostatic fan gives droplets the extra push to disperse the solution even further. Sanitizing those hard to reach places is no longer a chore.

Tank Capacity	2.5-gallon/10-liters	Fittings	304 stainless-steel
Battery	18V/5.2Ah Lithium-Ion	Tank Coverage	Up to 15,000 sqft per tank
Charge Output	Positive 2,000 - 3,000V	Spray Distance	Up to 8-feet with Turbo-Boost™
Spray Gun	12V grounded electrostatic	Hose	300 psi nylon PVC
Spray Time	Up to 6 hrs (4 with Turbo-Boost™)	Nozzles	40-, 80-, 120-micron cone nozzles

VOLT 1L ELECTROSTATIC

Model #: XCEAHX

The VOLT 1L electrostatic sprayer features the same benefits as its larger 2.5-gallon counterpart condensed into a compact, portable 1-liter package. With a waist-belt style design, this sprayer is easy to maneuver; keeping everything important within reach.

An incorporated Turbo-Boost™ electrostatic fan gives droplets the extra push to disperse the solution even further. Sanitizing those hard to reach places is no longer a chore.

Tank Capacity	1-liter	Pressure	85 psi with included nozzles
Battery	18V/5.2Ah Lithium-Ion	Tank Output	>76-gallons
Charger	21V/2.5A	Spray Distance	Up to 8-feet
Charge Time	~1.5 hours	Flow Rate	0.028 - 0.077 gpm
Spray Time	Up to 6 hrs (4 with Turbo-Boost™)	Nozzles	40-, 80-, 120-micron misting nozzles

MICROBURST

Model #: XCVAAG-2.5

Although compact, this sprayer packs enough power to keep up with you all day long. Sitting snugly against your back, the MICROBURST Sprayer is light and compact when being transported.

A 5-setting variable pressure dial puts the control at your fingertips. Adjust to the amount of output simply by turning the knob.

Included are all the nozzles you need to tackle a variety of sanitation projects, including 80-, 100-, and 120-micron misting nozzles.

Tank Capacity	2.5-gallon/10-liters	Pressure	65 - 80 psi
Battery	18V/5.2Ah Lithium-Ion	Tank Output	>76-gallons
Charger	21V/2.5A	Spray Distance	Up to 8-feet
Charge Time	~1.5 hours	Flow Rate	0.028 - 0.077 gpm
Spray Time	Up to 3 hours	Nozzles	40-, 80-, 120-micron misting nozzles

SPOTLESS MOP

Model #: XCMADD

With the SPOTLESS Cleaning & Sanitation Sprayer Mop say goodbye to dirty buckets! Keep your cleaning solution sanitary by eliminating the need for reused contaminated mop buckets. The patented Silver-Infused Microfiber Pads kills up to 99.99% of bacteria & germs.

Take your SPOTLESS on the go with the light-weight portability, perfect for spot treatments and isolated spills. Reduce slip and fall risk by preventing excessive puddles. Specifically designed to make tough cleaning & sanitation jobs faster and easier! Make your tasks effective and effortless with the pull of a trigger.

Tank Capacity	1.5-gallon/6-liters	Pressure	Up to 30 psi
Battery	7.2V/4Ah	Tank Output	>76-gallons
Charger	21V/2.5A	Spray Distance	Up to 5-feet
Charge Time	~2.5 hours	Flow Rate	0.13 gpm
Spray Time	Up to 2 hours	Nozzles	18" microfiber mop, 65-degree nozzle

A construction worker wearing a yellow shirt, blue pants, a hard hat, and safety glasses is using a Silica Slayer sprayer. The worker is in a trench, and the sprayer is being used to spray a concrete wall. The sprayer is orange and white, and it is attached to a tool. The background shows a dirt trench with some construction materials.

SILICA™ SLAYER

The number 1 OSHA Table 1 compliant solution in the industry.

Easily comply with OSHA silica regulations and protect your workers with the help of Silica Slayer™! Each sprayer has the ability to attach to your tools, transforming them into wet-cutting saws and wet core drills in minutes.

When no tools are attached, this sprayer is able to apply various solutions, including curing compound, with no manual pumping required!

SILICASLAYER™

LOOKING CLOSER

One of World of Concrete 2018's Most Innovative Products

Serving as a 100% OSHA Table 1 compliant solution for wet-cutting and core-drilling, Silica Slayer can also be used for a large variety of chemical applications including high viscosity form oil, curing compounds, sealants, stains, retardants, pesticides, diluted bleach, and water.

Each Silica Slayer™ is equipped with the power to complete projects quickly and comfortably thanks to the following features:

COMFORTSTRAPS™

Vest-style straps covered with a layer of breathable mesh to promote airflow even on the hottest days. The weight of a full tank is evenly distributed to fight against fatigue and body aches.

LITHIUM-ION BATTERY

Each sprayer runs on an 18V Li-Ion battery capable of powering the sprayer for up to three hours of continuous spraying on one charge. LED indicator lights alert you to current charge levels so you'll never be surprised by a dead battery. With proper maintenance, the batteries are built to last 1,000 charge cycles.

RUGGED MATERIALS

This sprayer is built to last with sturdy components, including Viton™ seals, brass connectors, a threaded 300 psi UV-resistant hose, and stainless-steel spray wand.

UNIVERSAL GHT CONNECTION

The sprayer hose is attached with a dual garden hose connection that is removable, replaceable, reversible, and resizable. Easily switch between your tools and the spray gun.

HEAVY DUTY 4-GALLON

Model #: FZVACE-2.5

Featuring a variable-pressure dial, the 4-Gallon SILICA SLAYER puts the control at your finger tips. Adjust the amount of liquid output you need with a turn of the knob.

Assembled with choice components, the durable materials are able to withstand harsh chemical solutions and extended use.

Tank Capacity	4-gallon	Pressure	Up to 115 psi
Battery	18V/5.2Ah Lithium-Ion	Tank Output	>76-gallons
Charger	21V/2.5A	Spray Distance	Over 30-feet
Charge Time	~1.5 hours	Flow Rate	0.25 - 0.64 gpm
Spray Time	Up to 3 hours	Nozzles	25° fan, 0° jet, adjustable cone

HEAVY DUTY 9-GALLON

Model #: FZVACF-2.5

With features that parallel the 4-Gallon model, the 9-Gallon SILICA SLAYER stands out due to its portable design. Rugged wheels can transport this sprayer over various types of terrain.

An extra-long 20-foot hose encourages a large spray radius while the sprayer is in place.

Tank Capacity	9-gallon	Pressure	Up to 115 psi
Battery	18V/5.2Ah Lithium-Ion	Tank Output	>76-gallons
Charger	21V/2.5A	Spray Distance	Over 30-feet
Charge Time	~1.5 hours	Flow Rate	0.25 - 0.64 gpm
Spray Time	Up to 3 hours	Nozzles	25° fan, 0° jet, adjustable cone

**Making home projects more
efficient and enjoyable.**

SprayMate™ was created with the intention to give everyday users access to the tools that professionals have been using for years to efficiently complete their work. Every homeowner or do-it-yourselfer now has the ability to complete spraying projects swiftly and smoothly.

From watering your garden, fertilizing your lawn, sanitizing your home, treating for pests, to sealing your deck, SprayMate™ is here to help.

SPRAYMATE™

LOOKING CLOSER

Changing the way you spray.

In an effort to make spraying more enjoyable and efficient for homeowners, SprayMate is an introduction to battery powered sprayers. Offering benefits that parallel our professional-series sprayers, SprayMate™ is accessible and affordable.

By switching to a SprayMate™ from a traditional hand pump sprayer, users will be able to experience the following perks:

PORTABLE

Whether you need a lightweight tank or a sprayer with wheels, SprayMate has a solution. There is the option to transport your sprayer on a trolley or with a convenient carrying strap.

BATTERY POWERED

No need to stop and manually pump! Powered by rechargeable lithium-ion batteries, SprayMate™ sprayers are automatic and require only a squeeze of the trigger to activate. Spray for up to 2 hours on one battery charge.

EXTENDED RANGE

Spray at distances of 15-feet; and up to 25-feet on certain models! reach treetops or spray safely from a distance.

PRECISION SPRAYING

Each sprayer comes with nozzles that provide a range of ways to spray. From a jet stream to mist, apply solution exactly the way you need it. Included spray wands help pinpoint

TORNADO

Model #: SMSAAH-2

Spray like a pro with the SprayMate TORNADO! This 4-gallon sprayer features a diaphragm pump capable of spraying a variety of chemicals and solutions. The TORNADO is built from professional-grade components, which improve spray time and range. The lightweight carbon fiber wand assembly is mobile and adaptable.

Tank Capacity	4-gallon	Pressure	Dual: 45 or 60 psi
Battery	18V/2.6Ah Lithium-Ion	Tank Output	>57-gallons
Charger	21V/1A	Spray Distance	Over 25-feet
Charge Time	~2 hours	Flow Rate	0.25 - 0.48 gpm
Spray Time	Up to 2.5 hours	Nozzles	110° fan, adjustable cone

STORM

Model #: SMSAAG-2

At a compact 2.5-gallons, the STORM is great for navigating indoor spraying projects or quick sprays outside. The lightweight carbon fiber wand assembly allows you to spray with accuracy.

Tank Capacity	2.5-gallon	Pressure	Dual: 45 or 60 psi
Battery	18V/2.6Ah Lithium-Ion	Tank Output	>57-gallons
Charger	21V/1A	Spray Distance	Over 25-feet
Charge Time	~2 hours	Flow Rate	0.25 - 0.48 gpm
Spray Time	Up to 2.5 hours	Nozzles	110° fan, adjustable cone

SHOWER MAX

Model #: SMSAAF

Undeniably a favorite for homeowners due to its versatility, the SHOWER MAX can be assembled as a rolling sprayer or a backpack sprayer. The trolley is fitted with oversized wheels to help transport the sprayer around the yard.

The rechargeable spray gun features a quick-connect adjustable nozzle and an attached flat fan nozzle for multiple ways to spray. Accurately spray with help from the automatic guide light.

Tank Capacity	4-gallon	Spray Distance	15-feet
Battery	7.2V Lithium-Ion	Flow Rate	~0.16 gpm
Charger	7.2V	Pump	Gear
Pressure	45 psi	Nozzles	adjustable, 18-inch extension wand
Spray Time	Up to 2 hours		

LIL' SQUIRT

Model #: SMSAAC

Experience the benefits of battery powered spraying in a compact package! The ultra-portable LIL'SQUIRT weighs less than 10 lbs when dry, making it easy to carry around the home and garden.

The rechargeable spray gun sprays easily at a squeeze of the trigger. Select your spray pattern (stream to mist) by twisting the adjustable nozzle.

Tank Capacity	1.3-gallon	Spray Distance	15-feet
Battery	3.6V Lithium-Ion	Flow Rate	~0.16 gpm
Charger	3.6V	Pump	Gear
Pressure	45 psi	Nozzles	adjustable, 18-inch extension wand

FLAMESLAYER™

By FlowZone® and GreenFire®

An innovative solution to fire protection and prevention.

FlameSlayer™ is formed through a unique partnership between two companies dedicated to the well-being, safety, and preservation of lives, property and resources within your home, community, and company.

When delivered through a FlowZone® sprayer, the organic, non-toxic, food-safe foam adheres to various types of material including petroleum and cellulose-based surfaces creating a protective barrier from flames.

FLAMESLAYER™

LOOKING CLOSER

What are the advantages of FlameSlayer™?

A safe solution to fire prevention is here. FlameSlayer™ is proud to contain zero ingredients that could be harmful to you, your family, or the environment. Each bundle features a wetting agent that can be used as a pre-treatment or as a way to extinguish live flames.

FlameSlayer™ is the premier choice for reliable fire protection and poses the following benefits:

ORGANIC & ECO-FRIENDLY

FlameSlayer™ is a proprietary blend of compounds that are certified organic and safe for the environment and people. There is no hazmat cleanup required and run-off will not contaminate the waterways.

NON-TOXIC & NON-CARCINOGENIC

The only fire suppressant to ever be certified with the National Sanitation Foundation (NSF). It can be used in any agricultural or food service location without fear of massive contamination or extraordinary cleanup measures.

FOOD SAFE

NSF International has placed the GreenFire® family of products exclusively as Certified Food Safe for and around food processing equipment. Simply using a mild cleaner and water makes any surface treated with GreenFire® safe for food preparation.

ADHERES TO ANY SURFACE

FlameSlayer™ not only works as a fire suppressant and retardant, but also as a heat barrier. When appropriately applied in welding, soldering, plumbing situations, it stays in place; acting as an extra, essential layer of protection against flare-ups and leaks.

GREENFIRE® HOME DEFENSE

SKU: FZSAAFx

The only fire suppressant to be certified with the National Sanitation Foundation (NSF); this pre-mixed blend is for individuals wishing to pre-treat their buildings and surrounding brush to prevent fire.

GreenFire® is safe for humans and animals. Approved by USDA and NSF International as food safe, it also contains Zero Forever Chemicals (PFAS).

With a foaming application, this multi-use solution adheres/absorbs in to many surfaces for lasting protection. It can also quickly extinguish burning products. Moreover, the solution is certified for A- & B-type fires.

FIREWISE USA™
