Boston, Massachusetts
Certification in Customer Experience Management

Professional experience

9/2020 – present
Chukbox Creative
3D design Lead
I am the 3D design lead, creating the companies first consumer good. I work closely with the VP of Strategy and CTO developing their product line to be released later this year.

GeoOrbital
Cambridge, Massachusetts
Industrial Designer
I worked with the CTO and engineering team to design the next generation of the companies products.

1/2019 – present
Vermont Social
White River Junction, Vermont
Web and Motion Graphics Designer
I create animations, logos, and websites from Vermont Socials Clients, including Wahoo, Vermont Overland Ted King, and Creare.

Skills

Adobe Creative Suite, SolidWorks, Keyshot, Blender, Gravity Sketch, Ideation, Woodworking and Metalworking.

5/2018 – present
HorizonCX
Foxborough, Massachusetts
Customer Experience Business Development Representative
I gained experience working in customer experience and how that information can be used to improve a business. I currently do motion graphic design work for HorixonCX.

About me

Born in Vermont, I am a passionate cyclist and I have found from the feelings of excitement that are created by riding, a desire to keep pushing for more; a similarly inspired energy that translates to my design work. I love designing products that integrate seamlessly into the given setting and enhance the aesthetic experience, in particular, furniture, lighting, and sound. I feel that these objects can have a positive impact on one's experience in a physical space while fading into from the forefront of attention. I feel that seamless integration is the test of what makes a product good—or great.

12/2019 – 4/2020
Simon Pearce
Windsor, Vermont
Design Intern
I worked with the product development team to design future products and line extensions.
6/2018 – 5/2019
