

# K&A Engineering Consulting, P.C.

## About K&A:

K&A Engineering Consulting, P.C. (K&A) is a privately-owned, nationally certified Minority Business Enterprise (MBE) providing comprehensive consulting, engineering & design, program/project management, construction management, and support services to Electric Utility and Industrial clients. Established in October 2016, K&A has grown to nearly 200 engineering and project professionals. K&A's experience includes all aspects of electric power generation, substation, transmission, distribution, energy efficiency, and distributed energy resource (DER) projects, from planning, environmental, and regulatory analyses through engineering & design, construction, program management, and commissioning.

## K&A Value Added:

K&A works with a diverse range of clients, including utilities, contractors, and renewable energy developers. We create customized solutions leveraging best practices and experience to solve the vast array of our client's challenges. Since we are involved with projects ranging from conceptual and permitting through detailed design, construction, commissioning, and testing, our engineers account for cost, schedule, and constructability in their work product. By incorporating all of the above into our engineering and design, we feel K&A provides an essential value-added service that benefits all parties involved.

## Services:

Power Generation Services

Power Delivery

- ❖ Substation Engineering
- ❖ Transmission Engineering
- ❖ Distribution Engineering
- ❖ Transmission Planning and System Studies

Distribution Energy Resources

Project/Program Management

- ❖ Procurement Support
- ❖ Contract Management
- ❖ Financial Services
- ❖ Materials Management

Licensing and Permitting

Project Controls

Document Control

Field Services

- ❖ Construction Management
- ❖ Commissioning & Testing

Public Outreach

## K&A Technical Staff:

- Administrative Assistants
- Architects
- Civil Engineers
- Communication Engineers
- Construction Managers
- Designers & Drafters
- Distribution Engineers
- Document Control Specialists
- Electromechanical Engineers
- Environmental Specialists
- Estimators
- Expeditors
- External Affairs
- Field Planners
- Fire Protection Engineers
- Foundation Engineers
- I&C Engineers
- Material / Logistics Coordinators
- Mechanical Engineers
- Permitting Specialists
- Program managers
- Project Controls Engineers
- Project Managers
- Protection & Control Engineers Transmission Engineers
- Public Outreach & External Affairs
- Purchasing Specialists
- Reality Specialists
- Schedulers
- SHEQ Specialists
- Structural Engineers
- Substation Engineers
- Surveyors
