PEOPLE
PLACES
PROGRESS!
We develop and promote the growth and revitalization of Mid City Baton Rouge by attracting new and retaining current residents and businesses.

As the first nonprofit in Baton Rouge created to address the challenges of a specific geographic region, Mid City Redevelopment Alliance has established itself as the most dynamic and successful community development organization in Baton Rouge. We were founded in 1991 to focus on community organizing, home repair initiatives, and homeownership education. Our experience working with low-and moderate-income households has led us to a number of initiatives that have grown beyond our Mid City boundaries, and in 1997, we added affordable housing development.

Families Counseled 6,152
Home Rehabbed 249
Partners, Volunteers & Residents Engaged +9,800
Homes Built 97

Our Vision
We practice comprehensive community development through the prioritization of people and place. Collaboration is central to the work, and is enhanced by diverse relationships and resources that advance holistic community revitalization. We strive to provide all members of the community an opportunity to share in the benefits of this revitalization, and we are committed to empowering individuals and neighborhoods across the city to effect impactful and sustainable change from within the community.
We provide homeownership counseling and education, working with families to develop and stick to a budget.

Homeownership is a central aspect of the American Dream, and while the homeownership rate for Baton Rouge is 67.8%, the rate of homeownership in poor and minority neighborhoods is less than 30%.

Homeownership allows space for people to engage with their community, increase membership in local services, improve feelings of safety, and encourage community ownership over the physical appearance of their street.

However, one of the most important impacts is the stabilizing effect homeownership has on a struggling neighborhood. When a first time home buyer purchases a home in a neighborhood, that sends a signal to the market that the community is progressing, or at least has a potential to progress. A similar signal is sent when an existing homeowner demonstrates a willingness to invest in the improvement of his or her property.

In either case, a flow of investment into the neighborhood usually opens, and blight and crime begin to retreat, while educational outcomes, household wealth, and economic stability grow.
Change doesn’t happen overnight, and it doesn’t happen with just one intervention. Try as we might, there is no magic bullet. Instead, Mid City Redevelopment Alliance has developed a theory of change with several programs and hundreds of projects that change the experiences of residents in their neighborhood.

Here’s our model.

**THEORY OF CHANGE**

**Step One**
- **Plan**
  - We are planning communities with residents at the forefront.

**Step Two**
- **Preserve**
  - We are preserving homeownership to halt displacement.

**Step Three**
- **Build**
  - We are building affordable places to live.

**Step Four**
- **Educate**
  - We are educating families to create homeowners.

**Step Five**
- **Empower**
  - We are empowering residents to build community.

**Step Six**
- **Celebrate**
  - We are celebrating community to create places we all want to live, worship, play, and shop.
In 2015, we initiated a Five-Year Strategic Planning Process. Our goal? To hold our partners, our Board of Directors and our team accountable to the needs of our community. The strategic plan has since served as a clear benchmark for programs and a road map to success. Since 2015, we’ve seen improvements in all four lines of business.

### Major Successes

- Maintained the highest NeighborWorks rating, Exemplary or Strong, for an organization.
- Received the Dorothy Richardson Award for one of our resident leaders.
- Built a certified foreclosure prevention service.
- Completed six single-family new construction or owner-occupied rehabs.
- Secured funds to hire a real estate development team.
- Developed the revenue potential of our warehouse.

Secure a $3 million construction line of credit for real estate development in order to produce 100 housing units through new construction, acquisition/rehab, and CHDO sponsorships.

Manage & grow revenue generating real estate line of business capable of contributing 20% to the overall operational budget annually.

Create and maintain cash reserves of $500,000 to ensure organization’s core operations are healthy and stable.

Secure diverse investment portfolio - lines of credit, grants, contributions - to support organization’s venture with multi-year commitments.

Double MCRA’s operational budget through an increase in diversified revenue streams - to include fee-for-service and annual fund campaign - plus operational efficiencies.

Maximize NeighborWorks America alignment for long-term viability to include business line enhancements and maintaining highest OHTS ratings.

**Our Priorities**

1. **Marketing**
   - Establish a robust real estate development line of business with an annual diversified pipeline of projects capable of generating self-sustaining revenue.

2. **Fundraising**
   - Preserve homeownership by providing aging in place, foreclosure, and rehab services that protect owner occupancy.

3. **Evaluation**
   - Provide homeownership promotion services to include counseling, education, financial capability, and real estate.

4. **Real Estate Development**
   - Facilitate community development that engages residents and local business so everyone can benefit and experience the positive outcomes.

5. **Community Building & Engagement**
   - Secure $3 million construction line of credit for real estate development in order to produce 100 housing units through new construction, acquisition/rehab, and CHDO sponsorships.

6. **Home Ownership Preservation**
   - Manage & grow revenue generating real estate line of business capable of contributing 20% to the overall operational budget annually.

7. **Home Ownership Promotion**
   - Create and maintain cash reserves of $500,000 to ensure organization’s core operations are healthy and stable.

8. **Secure diverse investment portfolio - lines of credit, grants, contributions - to support organization’s venture with multi-year commitments.**

9. **Double MCRA’s operational budget through an increase in diversified revenue streams - to include fee-for-service and annual fund campaign - plus operational efficiencies.**

10. **Maximize NeighborWorks America alignment for long-term viability to include business line enhancements and maintaining highest OHTS ratings.**
Since 1991, we have worked side by side with those who understand that the heart of our city is a unique place. Not South Baton Rouge or North Baton Rouge, not downtown or the suburbs; Mid City is common ground: a place where people and businesses of diverse backgrounds can build, grow and thrive.

Strategic Evaluation, ensuring our team and our partners remain effective and efficient in all that we do.

Adequate Resources, empowering our team to make the difference necessary to improve lives and grow our community.

Impactful Execution, improved by learning best practices from NeighborWorks America and executing our Theory of Change.

Diverse Partnerships, with NeighborWorks America, Board Members, city-parish officials, resident leaders, volunteers, area nonprofits, and engaged communities across the state.

Improved Communications

Effective communication is at the root of every nonprofit’s operations and efforts. Without it, there’s no good way to get a message across to the people we serve. If our message isn’t reaching our community, we won’t ever expand the reach and impact of our programs.

Moreover, we’re entering a new era in nonprofit outreach. Digital communication is transforming how we work with others and how we share our message. Our goal is to build on our digital marketing in the next five years as we expand our services city-or even state-wide.
We’re nothing without our team of partners, board members, and staff. They work hard every day to make sure our community is growing and thriving, so that everyone in Mid City can enjoy the benefits of revitalization.

MAKING THE IMPACT

We’re nothing without our team of partners, board members, and staff. They work hard every day to make sure our community is growing and thriving, so that everyone in Mid City can enjoy the benefits of revitalization.

Sam Sanders
Executive Director

Sanders has been with Mid City Redevelopment Alliance since 2003 and became its third Executive Director in 2006. In 2016, the organization became a chartered member of NeighborWorks America, an accomplishment he considers one of his most significant achievements. Sanders is a 2009 graduate of Leadership Baton Rouge, Baton Rouge Business Report’s Top Forty Under 40 Class of 2009, and a 2014 John W. Barton Sr. Excellence in Non-Profit Management honoree by the Baton Rouge Area Foundation.

Ashley Orphe
Operations Director

Shervisa S. Battley
Real Estate Development Director

Marlee Pittman
Community Relations Director

We’re nothing without our team of partners, board members, and staff. They work hard every day to make sure our community is growing and thriving, so that everyone in Mid City can enjoy the benefits of revitalization.
