

FB = Finished floor

Filling of sliding door leaf: ohne	Thickness: 12mm
Filling of side door panel: ohne	Thickness: 12mm
Drive weight: ~66kg	
Surface treatment: powder-coated	
Fixing base: concrete	

Remark

The present plan includes the safety elements required by the presently valid prescriptions (EN door standards) and on the basis of the local situation as it is normally given for such an installation. Particular door constructions or surroundings may cause dangerous squeezing or shearing points which require additional safety measures and precautions.

Project: AU, Derwent Entertainment centre, SLX-BO/TO
Installation: Neue Anlage
