Experience

User Experience Researcher ◦ Interos Inc.

Contractor September 2021 - Present | Intern June - August 2021
Remote, Washington, D.C.

- Advocates for user needs based on qualitative and quantitative research for a machine learning-powered B2B SaaS supply chain risk management platform.
- Designed, recruited, executed, and communicated the results of concept testing that influenced the design and product strategy for a high-priority new feature.
- Strategized engaging ways to socialize findings for alignment between engineering, product, design, and customer success teams.
- Developed research infrastructure by creating a strategy for recruiting participants for an industry-specific research panel.

UX Research Consultant ◦ Women's Parkinson's Project

Volunteer May 2021 - Present | Remote, New York, New York

- Supported the accessible website design process with the needs of women with Parkinson's disease in mind.
- Uncovered dozens of opportunities to improve user experience with an accessibility audit, heuristic evaluation, tree testing, user interviews, and usability testing.

User Experience Researcher ◦ Citi Ventures

Contractor March - May 2021 | Remote, San Francisco, California

- Designed and executed a qualitative, generative and evaluative research study that influenced the design direction of a data-driven, consumer-facing tool to promote skills-based career growth created by Citi's innovation incubator.
- Collaborated with the Product Manager to develop and implement the first protocol for recruiting existing product users for research studies, leading to increased stakeholder exposure to users.
- Shared findings with stakeholders in multiple actionable formats, including an interactive visual report, a presentation, and product team ideation workshop.

Graduate UX Researcher ◦ Citi Ventures x SVA

Student September - December 2020 | Remote, New York, New York

- Led a collaborative product design team in the end-to-end process to create a high-fidelity prototype of a solution to promote skills-based career growth.
- Conducted exploratory user research, which informed Citi's product roadmap.

Chief Photojournalist + Editor ◦ The Herald

Manager October 2018 - July 2020 | Staff May 2016 - October 2018
Intern January 2016 - May 2016 | Jasper, Indiana

- Conducted 250+ in-depth interviews and documented candid moments to tell 82 long-form journalistic stories that promoted understanding and empathy.
- Led user experience research and strategy to implement cost-effective solutions to improve The Herald's digital products and innovate ways to reach new audiences, resulting in a 254% increase in page views.
- Hired, managed, and mentored 8 staff photojournalists and photo interns.
