At Beyond Equality, we work with men and boys to tackle gender inequality, through breaking down barriers, expectations and stereotypes of masculinities. We facilitate open conversations and equip participants in our programmes with new perspectives and tools in order to promote personal growth.

We work with men and boys of all ages, because we know real change will need to be intergenerational. But we prioritise the areas where we can make the deepest changes. We predominantly work with young people, in schools and universities, transforming organisational culture, training a core group of allies, and influencing the public discourse.
There is a national conversation around masculinities, and the roles of men in society. We're experts with almost a decade of experience navigating these difficult conversations in schools, universities, sports, and corporate spaces. Schools, workplaces and universities want our programmes and expertise. We need your help to reach them.

We are currently fundraising for three core projects & milestones, which will enable us to significantly grow the impact of our programmes on masculinities, sexual and gender based violence prevention, mental wellbeing, and creating inclusive campuses.
In September 2021, uni students return to campuses. We are concerned about their emotional wellbeing, and see the need for education to prevent sexual violence.

- Fund 1000 Student Leaders to be trained in inclusive leadership, and supported to implement social safety Action plans in 1000 clubs, benefiting up to 50,000 students.
- £30,000 in funding required

There’s an unprecedented moment of interest in men’s roles in preventing gender-based violence. Having developed our training structure and support systems, we’re ready to expand, and mentor men to make a difference within their own circles, workplaces and communities. Let’s turn a moment into long-term change to transform UK society.

- We want to train and support a community of 1000 male allies.
- £15,000 in total funding required.
