TACTICAL ANALYSIS

VISION OF PLAY

He has great awareness to read the play and make through balls. He waits for the right moment to send a pass in between the lines and put his teammate in a goal-scoring position. He identifies the diagonal run.

DYNAMISM

He creates play through his mobility. He passes the ball and shows up into space, on different lanes and attacking areas. He knows how to play one or two touches in order to unbalance the marker.

QUALITY OF PASS

He is a dynamic player, which allows him to make great short passes. He helps his team by his ability and effectiveness to make passes.

TACTICAL ANALYSIS

DRIBBLING TECHNIQUE

He cuts in and out well, which allows him to succeed in 1v1 duels. He uses this technique to take them on and avoid pressure from the rival.

OFF THE BALL

When positioning on the weak side, he does not disconnect from the game. He is always an option to get up to the end line. He is capable of making diagonals runs and runs into space.

LATERAL CROSS

He has a good kicking technique for shots toward goal and lateral crosses. He can make them with is natural foot (right) and with his weak foot (left). He is accurate to deliver the ball.
