Productive Relationships Predict High-Performance

Learn How to Build Agile Teams Where Relationships Thrive

Doesn't it seem like some managers and teams make "it" happen, no matter what "it" is? Even in uncertainty or times of crisis, they find a way to turn opposition into opportunity. They transform the stumbling blocks of conflict and misunderstanding into stepping stones for success.

For these high-achievers, building collaborative relationships is priority one. Whether in-person or dispersed, they understand that members of their teams can go further together than they can alone. The good news is that you, too, can leverage the power of relationships and drive results.

Workshop Description

We provide you with world-class facilitation tools to help you train your teams to:

- Keep communication strong with distributed teammates and clients so you can achieve mutually beneficial results
- Understand how they relate to each other and how to productively navigate conflict
- Increase commitment and responsibility for achieving shared outcomes
- Know their strengths and deploy them at the right time for greater effectiveness
- Collaborate remotely to make the best decisions for your organization

Before the Workshop

The SDI 2.0

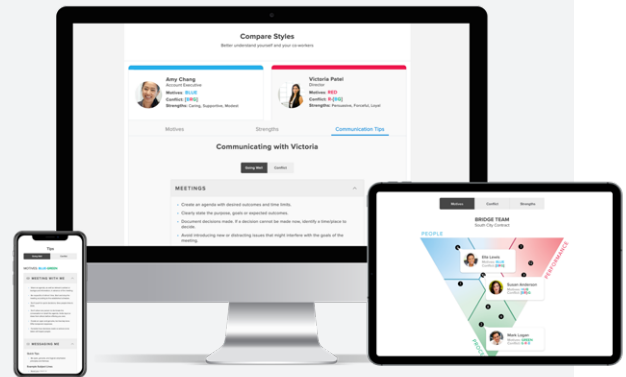

Core Strengths® is powered by the Strength Deployment Inventory 2.0 (SDI 2.0). This award-winning, scientifically validated assessment provides four views of a person. It reveals why they do what they do, and how they relate to others. Using Relationship Intelligence (RQ), the SDI 2.0 provides a common language for understanding what's important to the people on your teams, and how they can work together more effectively. It provides tools for choosing the right strengths to make the right decisions, even in high-stakes situations.

World-Class Facilitation Tools

The **Core Strengths Platform** provides you with best-in-class facilitation management and enables you to extend the learning experience beyond the virtual classroom.

Organizational Impact

After decades of research, we're driven by one central reality: lasting results are the product of resilient relationships. So, we've devoted our entire mission to helping leaders and organizations develop Relationship Intelligence (RQ): the science of relationships and how to improve them.

During the Results through Relationships experiential workshop, our goal is to give your organization a common language and actionable insight where you can:

Improve Collaboration

Leverage differences and build trust to overcome innovation-killers while rapidly achieving goals.

Build Better Teams

Whether in person or remote, teams with resilient relationships achieve breakthrough when others breakdown. Teams with high RQ shape the conversations that solve problems and get work done.

Coach for Performance

Turn managers into effective coaches. Core Strengths' real-time RQ insight elevates the manager-team relationship, allowing them to rise to challenges and respond to opportunities, together.

Bottom line, that elusive "it" factor is Relationship Intelligence (RQ). It is teams who know how to speak each other's language and show up with the right strengths for the moment — all while staying true to their intrinsic motives and values. That's "it". So if results are your goal, let relationships be the glue. That's RQ.

“The implementation of the Core Strength training has been transformational to our organization. Core Strengths provides our workforce with the tools they need to be better leaders, better teammates, strengthen relationships and get better results.”
