

Business owners are leaving a lot of money on the table when they hire employees.

**Up to \$9,600 per hire.**

The Department of Labor states that **26%** of full time employees in the United States will qualify for a tax credit this year.

COMPANIES MISS OUT ON TAX CREDITS BECAUSE THEY:

are unaware Federal (WOTC), State, & Local (SALT) hiring-based tax credits exist

are trying to tackle this process in-house

don't have personal advocates working on their behalf to communicate with tax credit entities
