WE ARE HIRING

Webflow Developer
Full-time

Xyicon is a SaaS company in Sri Lanka with its roots in the US. Our product SpaceRunner is one of a kind and is used by clients from different industries, including healthcare, aerospace, retail, and logistics for various business requirements. We are currently expanding our operations in Sri Lanka and are on the lookout for talented and committed individuals to join our team. If you enjoy a challenge and love to flex your creative muscle to solve problems, we want to hear from you.

Key Roles and Responsibilities

- Design, code, implement, and iterate Webflow-based webpages
- Collaborate with our marketing and product teams
- Ensure implementation follows web standards, accessibility, and usability best practices
- Be on top of trends and new technologies in terms of website design
- Other relevant duties as assigned by management

Qualifications, Skills, and Experience

- About to complete or recently completed a bachelor's degree in IT or relevant field OR previous experience as a Webflow Developer.
- Experience with CMS (Content Management Systems) and demonstrable experience with Webflow
- Solid understanding of HTML and CSS. Builders are great, but an understanding of the inner workings is a must.
- Experience creating email templates using manual code as well as builders like Hubspot
- Knowledge of web hosting, analytics, and SEO
- A portfolio of past design projects will be an added advantage
- Attention to detail
- Excellent command of the English language
- Self-motivated and willing to learn new skills and technologies
- Ability to work with offshore stakeholders in the US, Europe, and Asia
- Excellent communication and time management skills
