

# WE ARE HIRING

## UI/UX Interns

Full-time

Xyicon is a SaaS company in Sri Lanka with its roots in the US. Our product SpaceRunner is one of a kind and is used by clients from different industries, including healthcare, aerospace, retail, and logistics for various business requirements. We are currently expanding our operations in Sri Lanka and are on the lookout for talented and committed individuals to join our team. If you enjoy a challenge and love to flex your creative muscle to solve problems, we want to hear from you.

### Key Roles and Responsibilities

- Gather and evaluate user requirements in collaboration with product managers and engineers
- Illustrate design ideas using storyboards and process flows
- Design UI elements, mockups, and prototypes
- Create original graphic designs
- Prepare and present rough drafts to internal teams and key stakeholders
- Identify and troubleshoot UX problems
- Adhere to style standards and design practices
- Other relevant duties as assigned by management

### Qualifications, Skills, and Experience

- About to complete or recently completed a bachelor's degree in Computer Science, IT, or Software Engineering.
- Knowledge in prototyping and wireframing tools such as Figma, Adobe XD, Sketch equivalent
- Experience with design systems and component libraries
- Experience with interaction design tools like Framer, Principle, or Origami is highly desired
- Up-to-date knowledge on design trends and software like - Adobe Creative Suite
- Solid understanding of HTML and CSS. Builders are great, but an understanding of the inner workings is a must.
- A portfolio of past design projects will be an added advantage
- Analytical skills and attention to detail
- Excellent command of the English language
- Self-motivated and willing to learn new skills and technologies
- Ability to work with offshore stakeholders in the US, Europe, and Asia
- Excellent communication and time management skills
