

WE ARE HIRING

Senior Software Engineer

Colombo -LK | Full-time

We are Xyicon, a SaaS company based in the US. Our product SpaceRunner is one of a kind and is used by clients from different industries, including healthcare, aerospace, retail, and logistics, for various business requirements. We are currently expanding our operations and are on the lookout for talented and committed individuals to join our team. If you enjoy a challenge and love to flex your creative muscle to solve problems, we want to hear from you.

Key Roles and Responsibilities

- Write, and maintain scalable and performant code in a multi-service architecture
- Understand functional requirements and design solutions
- Analyze issues to find bottlenecks, bugs; develop and deploy fixes
- Collaborate, research, experiment, and contribute to the development team
- Learn and adopt new technologies with a focus on improving our product
- Learn cloud-based hosting providers and services

Qualifications, Skills, and Experience

- Minimum of 4+ years' experience working as a C#.NET developer.
- Must be well-versed in C# .NET and ASP.NET. Knowledge and experience in .NET Core will be an added advantage
- Must be familiar with T-SQL and SQL Server. The ability to write efficient SQL would be an added advantage
- Bachelor's degree from a recognized university
- Experience in Microsoft Azure related hosting and deployment technologies is ideal
- Have a keen eye for developing robust applications, understand the "why" behind architectures, and write clean, maintainable code that we can reuse.
- Analytical skills and attention to detail
- Excellent command of the English language
- Self-motivated and willing to learn new skills and technologies
