

## Compaction Analysis: 800/65R32 Singles

You can substantially reduce your soil compaction by changing tires while still using your existing rims. \* \*

Your current total footprint size:

Maximum achievable footprint size:

\*Footprint or flat plate area measurements are estimated. Actual measurements will vary slightly between tire brands and models.

\*\*While the recommended tires will fit on your existing rims, it is not guaranteed that they will fit on your grain cart. Consult with one of our product specialists to ensure proper fitment before purchasing new tires.
