

# Disability+y Lead

DISABILITY LEADERSHIP SUMMIT | JANUARY 2024

Disability leadership is a critical part of your organization's Diversity, Equity, and Inclusion efforts. Sponsor the first annual Disability Leadership Summit and get your brand—and employees—engaged with a national and influential network of disability leaders in industry and public service.

## ABOUT THE DISABILITY LEADERSHIP SUMMIT

Disability Lead has designed the Summit to support national leaders and emerging leaders with disabilities in corporate and public service organizations through collaborative and innovative dialogue on such topics as Employee Resource Groups (ERG) / Business Resource Groups (BRG), mentoring, leadership pathways and creating inclusive environments.

We anticipate 100 people from across the country to participate in this exciting online conference, to take place over two half-days in January 2024. Each day will begin with an inspiring keynote, followed by interactive breakouts to share knowledge and perspectives and to forge connections among participants.

## KEY SUMMIT TAKEAWAYS

- Grow your professional network across the nation; connect with this dynamic, underrepresented market of professional leaders during and beyond the Summit
- Learn fresh ideas and best practices for embedding and enhancing inclusion practices in your organization
- Receive and share practical advice for building your organization's pipeline of diverse leadership

## ABOUT DISABILITY LEAD

Disability Lead is a network of more than 200 people with disabilities working to increase civic engagement and leadership opportunities to build an equitable and inclusive society.

Many of our Members play leadership roles in disability-focused Employee Resource Groups (ERG) and Business Resource Groups (BRG) in corporate spaces.
