

# Walnuts

CALIFORNIA

Aerobotics Crop Insurance Services assists walnut growers in only paying for productive planted acres and lowering the chance of rejected claims by utilizing high-resolution plant data and artificial intelligence.

## Crop insured

All English Walnuts (excluding black walnuts) adapted to the area are insurable if:

- ✓ 90 percent of the trees have reached at least the seventh growing season after being set out; or
- ✓ The crop is sixth leaf, you may request the insurance provider to insure the acreage.

## Causes of loss

You are protected against the following:

- ✓ Adverse weather conditions;
- ✓ Failure of irrigation water supply, if caused by an insured peril during the insurance year;
- ✓ Earthquake;
- ✓ Fire, unless weeds and undergrowth are not controlled;
- ✓ Insects or plant disease, but not damage due to insufficient or improper application of control measures; or
- ✓ Wildlife, unless recommended wildlife control measures have not been taken.

## IMPORTANT DATES

Sales Closing/Cancellation	December 31
Acreage Reporting	March 15
Premium Billing	August 15
Termination	December 31

## INSURANCE PERIOD

Coverage begins on February 1. Coverage ends on November 15.

Catastrophic Risk Protection (CAT) coverage is fixed at 50 percent of your approved yield and 55 percent of the price election. CAT is 100 percent subsidized with no premium cost to you. There is, however, an administrative fee of \$300 per crop, per county regardless of the acreage.

## COUNTIES AVAILABLE

Walnuts are insurable in Amador, Butte, Calaveras, Colusa, Contra Costa, Fresno, Glenn, Kern, Kings, Lake, Madera, Merced, Placer, San Benito, San Joaquin, Santa Barbara, Santa Clara, San Luis Obispo, Shasta, Solano, Stanislaus, Sutter, Tehama, Tulare, Yolo, and Yuba counties. Walnuts in other counties may be insurable by written agreement if specific criteria are met. Contact an agent for more details.

## Coverage levels and premium subsidies

Individual insurance amounts are based on your approved yield. Individual approved yields are calculated from 4 to 10 years of actual yield history that you give to your insurance agent. Coverage levels range from 50 to 75 percent of your approved yield. Crop insurance premiums are subsidized as shown in the following table. For example, if you choose the 65-percent coverage level, your premium share would be 41 percent of the base premium.

Item	Percent					
Coverage Level	50	55	60	65	70	75
Premium Subsidy	67	64	64	59	59	55
Your Premium Share	33	36	36	41	41	45
