

Electrician

Potential Motors is an emerging automotive company working on next generation EV technology; we are looking for ambition, drive, and an electric personality to join our growing team. We offer an open and honest work environment, flexibility, and remote work ! The things we will be designing, building, and testing together will give you the opportunity to make an impact in an industry which is being completely disrupted.

We are looking for an Electrician to join our dynamic and multi disciplinary team. The electrician will be responsible for installing, repairing and maintaining electrical systems and machinery.

Job Type: 1 year contract with possibility of full time

What you will be doing: -

- Install, repair and maintain automated equipment, machinery and electrical systems.
- Troubleshoot and repair electrical systems
- Perform preventative maintenance
- Perform other duties as required

What we are looking for :-

- Experience working with battery electric vehicles and live high voltage systems is a positive
- Experience following wiring diagrams and providing feedback to design engineers
- Strong knowledge of electrical codes
- Ability to work as a team and independently
- Proven troubleshooting experience

Why work with us ?

- You will have independence and the opportunity to have a real impact
- Loads of hands-on work
- You will get to drive your projects forward, literally!
- Lots of room to grow with the company
- A values-driven workplace and strong founding culture

Does this sound like you? Would you like to learn more about this exciting career opportunity with our innovative startup team? Please get in touch - we'd love to hear from you! Or if this sounds just like someone you know, please share this job posting.

We thank all who apply, however only those most closely matching these requirements will be contacted for an interview
