

2022 LEADERSHIP PROGRAM DEVELOPMENT PLAN

BUILDING STUDENT LEADERS

YLAA Program Development.

01

P21'S FRAMEWORKS FOR 21ST CENTURY LEARNING

Developed by Battelle for Kids, with input from teachers, education experts, and business leaders, this framework focuses on the skills and knowledge needed to succeed in work, life, and citizenship in today's world.

02

STUDENT ADVISORY BOARD

YLAA prides itself on delivering 'for youth, by youth' programs, which is why we are currently developing our first student advisory board. The board will provide our team with insight and understanding of the adversities and lived experiences of young people today.

03

SENIOR ADVISORY BOARD

YLAA ensures that our programs are relevant, useful and appropriate, by involving teachers, business and community leaders in program development. In late 2021 these members will be brought together to provide feedback and recommendations for 2022 programs.

04

RESEARCH

YLAA will use academic research to support program development, thereby ensuring that desired outcomes can be delivered effectively in a researched-backed manner.

05

FEEDBACK

Importantly, we recognise that leaders are learners, and use constructive feedback provided in previous years to continue to strengthen our team and programs.

Why YLAA programs produce remarkable results.

Youth Leadership Academy Australia prides itself on delivering relevant programs that create lasting positive change throughout schools and communities.

AGE-APPROPRIATE EVENTS

YLAA understands that similar events often combine primary and secondary students, yet we know this creates a program with limited tailoring and relevance. We seek to provide age-appropriate events that are relatable, suitable, and applicable for students from all backgrounds, in order to maximise event impact - and our for-youth, by-youth approach ensures students can engage meaningfully with our events. Our ethos has been and will always be impact over income - We are simply not willing to compromise impact in exchange for a profit margin.

POST-EVENT PROGRAM

In 2021 we hosted our first LeaderUp program which was designed with the mission to create lasting change, through empowering students with the skills and confidence to make change in their schools and communities, and achieve their greatest potential as leaders, both now and in the future.

Combining a 10-week design incubator for school-based programs, a resource library for young changemakers and leaders, and applicable, skills-based powerclasses, LeaderUp is a platform aiming to supercharge young people's leadership, teamwork, and innovation.

We are exploring options for Primary Schools in 2022.

Our Vision: To ensure all young people have access to skills that empower them, regardless of their financial situation.

Our Mission: To build a positively sustainable future through youth leadership and empowerment.

We look forward to welcoming your students to our upcoming event.
