

SOS-UK
TERTIARY EDUCATION OFFER
2021/22

STUDENTS
ORGANISING FOR
SUSTAINABILITY
UNITED KINGDOM

WE'RE EXCITED TO LAUNCH OUR OFFER FOR 2021/22!

We've been working hard at SOS-UK to bring you a new and exciting offer for 2021/22. We've continued to **innovate & adapt** all our long-standing successful programmes such as Green Impact and Responsible Futures, as well as bringing in new offers for this year. We are excited to launch **our new staff and student engagement programme** in partnership with Giki (page 10), **new ESD changemakers scheme** (page 16), **recycling audits** (page 8), and **student wellbeing sprints** (page 8), in addition to fully rolling out our **Drugs and Alcohol** work (page 20) and **Carbon Literacy training** (page 25) after successful pilots in 2020/21. For the coming year we are planning a blended approach of online and face-to-face delivery (government regulations permitting). This document offers an overview of the breath of work SOS-UK has to offer, and should be used in conjunction with the [website](#) for more detailed information.

We would like to thank you for the instrumental role that you are playing by choosing SOS-UK. By partnering with SOS-UK to bring our sector-leading programmes, consultancy and training to your institution, you are also supporting our wider work to **repurpose the whole of the education system around the climate emergency and ecological crisis**. We work alongside students and young people on **urgent systems-change campaigns and initiatives** like [Teach the Future](#), [Mock COP](#), [Invest for Change](#) and [Race for Nature](#), to create a sector that **serves as a force for good**. SOS-UK is a small charity, and we are reliant on programme income to continue this important work. Whilst we receive some grant funding and donations, our programme sales & consultancy make up a large proportion of our total income and **are vital to sustaining and furthering our national and international campaigning and advocacy work**. Thank you for being part of this journey with us!

Joanna Romanowicz, director of engagement
Jade Monroe & Meg Baker, co-directors of education

SOS-UK IS AN EDUCATIONAL CHARITY FOCUSING ON SUSTAINABILITY

SOS-UK engages, inspires and empowers students and society to learn, act and lead for environmental and social justice.

We are proud that UNESCO recognise SOS-UK as one of the global leaders of education for sustainable development.

SOS-UK is a charity that is part of the NUS family which has been at the forefront of social change since 1922 with 550 students' union members representing 7 million students.

SOS-UK staff represent a range of academic and professional backgrounds from education to biology and with specialisms in communications and research.

This document outlines the 2021/22 SOS-UK offer for the tertiary sector.
Continue reading to see how your organisation can get involved!

Get in touch with hello@sos-uk.org if you have any questions.

WE ARE PROUD OF SOS-UK'S IMPACT IN 2020 - BE PART OF OUR JOURNEY!

Nearly **1,000**
organisations
took part or
funded our work

Nearly **200,000** people were
reached through our sustainability
work and
campaigns

3,080 tonnes
of CO2 were
saved as a
direct result
of our work

1,708 students
participated in SOS-UK
sustainability
training and
development

We launched
5 new
sustainability
campaigns

PROGRAMMES -INDIVIDUAL & TEAM BASED APPROACHES

SOS-UK sustainability programmes reach a broad range of students and staff, including those who may not typically be engaged in such activities. Often these participants progress on a pathway through our campaigns and programmes. Check out our offer for 2021/22 over the next few pages.

STUDENT ENGAGEMENT IN UNIVERSITY RESIDENCES

RESIDENCE ENGAGEMENT CAMPAIGN

Delivered under our Student Switch Off brand, or as part of your university sustainability branding, this is our multi award-winning student sustainability programme - providing an engagement campaign within student accommodation to achieve quantifiable energy, waste and water reductions. The campaign builds students' sustainability knowledge and carbon literacy, focusing on enhancing student experience and empowerment.

Residence Engagement Campaign 2021/22 fees

Small campus (Up to 1,500 students in accommodation)	Medium campus (1,501 - 3,000 students in accommodation)	Large campus (Over 3,001 students in accommodation)
£4,500 (+VAT)	£6,000 (+VAT)	£7,500 (+VAT)
Energy Dashboard - Contact for quote. Real time energy data leader board to provide regular feedback to students. Suitable for automated energy metering data.		

STUDENT ENGAGEMENT IN UNIVERSITY RESIDENCES CONT.

RECYCLING AUDITS IN RESIDENCES

Recycling audits provide a visual check of student recycling at key points in the year to feedback performance and to provide a greater understanding on recycling habits. Students are incentivised and informed on how to improve their recycling to support improvements.

WELLBEING SPRINTS *NEW*

Week long sprints, that focus on specific wellbeing themes, help to support students during their time in student residences. The sprints will be a week of focused daily online activities including competitions, webinars, workshops and quizzes. There will be 3 wellbeing sprints to choose from over the year:

- October 2021: Alcohol harm reduction
- January 2022: Community building
- May 2022: Wellbeing selfcare

STUDENT ENGAGEMENT IN PRIVATE RENTED SECTOR

PRIVATE RENTED ENGAGEMENT CAMPAIGN

Our research shows that students living in private rented accommodation are likely to experience poor quality housing, feel uncomfortably cold, struggle to pay energy bills and experience impacts on mental health as a result of their accommodation. SOS-UKs Private Rented Engagement Campaign raises awareness of energy topics such as saving money on bills, choosing suppliers, house-hunting, no cost efficiency measures and heating management to support students who may be vulnerable to energy poverty.

SOS-UK can deliver the campaign in conjunction with the Residence Engagement Campaign or run as an independent stand alone option.

CARBON ENGAGEMENT FOR STAFF AND STUDENTS *NEW*

SOS-UK is launching a **NEW Carbon Engagement Programme** pilot for 2021/22 aimed at engaging staff and students campus wide to reduce their personal carbon footprint at home and in the workplace.

An online carbon footprinting and reduction tool, powered by GIKI Zero, provides staff and students the opportunity to understand their own personal impact on the planet with 120 carbon reduction actions across seven categories. Online teams and leaderboards support staff and students to understand their individual impact, build their own personalised action plan and support others within their team.

The online tool is supported by a range of engagement activities including activity sprints, webinars, staff workshops and student volunteering that will build on knowledge and ensure staff and students are engaged, supported and empowered on their carbon reduction journey.

The online tool can be added on to existing Green Impact and Student Engagement campaigns with prices starting at £2,950 (+VAT)		

GREEN IMPACT

Green Impact is our UNESCO award-winning change and engagement programme for workplaces - the accreditation scheme helps staff and students understand sustainability and social responsibility, gives a framework for actions, and celebrates achievement.

Support within a standard Green Impact programme includes-

- Co-creation of a bespoke online toolkit of actions and resources to enable your staff to create positive change in their workplace
- A programme of support for the local sustainability lead including planning meetings, regular 1-2-1 calls and access to a reporting dashboard
- A programme of support for teams completing the actions including local and national workshops, audits, and access to a resource bank

At the end of each year your students will have the opportunity to attend our IEMA approved training course and complete an audit of your Green Impact teams!

Following their audit, teams and individuals will be recognised through our awards scheme, and you will receive a report outlining their achievements.

PROGRAMMES - WHOLE INSTITUTION APPROACH

Changing education is the first step towards changing the whole of society, which is why SOS-UK offer a number of whole-institution change programmes, to support institutions in becoming hubs for sustainable and socially responsible practice, across all of their activities and operations. The next few pages outline our whole-institution wellbeing and education offer for 2021/22.

FAIRTRADE UNIVERSITY AND COLLEGE AWARD

The **Fairtrade University & College Award** is run in partnership with the Fairtrade Foundation for institutions that have made a commitment to supporting and using Fairtrade.

NUS research tells us that 90% of students say they want to buy more products that don't harm the people that produce them and 84% say they trust the Fairtrade Mark the most of all product marks.

From procuring more Fairtrade products to embedding trade justice principles in policies and campaigns, the Award seeks to impact students, staff and producers.

[Full programme information.](#)

The 2021/23 programme fees will be confirmed when registration opens in Autumn 2022. You can [e-mail us](#) to express your interest in advance and we'll keep you updated.

As a guide, fees for 2020/22 were:

	Supported membership	Basic membership
Higher Education Institutions	£2,350 +VAT	£1,195 +VAT
Further Education Institutions	£1,250 +VAT	£730 +VAT

RESPONSIBLE FUTURES

Responsible Futures is our accreditation programme and supported change framework for embedding sustainability through all aspects of student learning. It promotes a **whole-institution approach** to embed sustainability learning through **formal, informal, and subliminal curricula**. To date, 30 universities and colleges have participated in partnership with their students' union, representing over 500,000 students. [Full programme information can be found online here](#).

The 2021/22 programme fees are outlined in the table below, which includes access to the online toolkit and framework, an annual bespoke support day (which could include training, audit preparation, speaking at events etc.), membership to the national cohort network, national support days (2-3) and webinars (2-3) led by SOS-UK and nominated host partnerships, access to the online resource bank, two-day student-led audit, feedback report and remote support as required.

Education for Sustainable Development changemakers *NEW*

Co-creation for D3: democratise, decarbonise and decolonise

SOS-UK advocates for **student leadership and students as co-creators** in implementing Education for Sustainable Development curriculum design and innovation. This is an integral part of the newly released [QAA and Advance HE ESD Guidance](#).

Building on the success of our Green Impact Project Assistants offering, we have developed ESD specific support. Our ESD Project Assistants programme is open to universities and colleges to support institutions to work in partnership with their students, and establish a co-creation approach for **embedding ESD in teaching and learning to address climate justice across all disciplines**.

Students and staff will work together as ESD changemakers. Students will be supported by SOS-UK to:

- Gain skills and understanding for sustainability
- Become partners in progressing institutional change to embed ESD at your institution
- Support academic and operational staff to work together in developing whole-institution engagement with sustainability learning.

For more information visit: <https://sos-uk.org/project/education-for-sustainable-development-changemakers>

**Responsible Futures partnerships are offered a reduced rate to support them in progressing their Responsible Futures accreditation, see page 14. ESD changemakers at participating Responsible Futures partnerships will be invited to join 6 weekly cohort catch-up calls with student leaders and staff from across the Responsible Futures network.*

Tier 1	Tier 2
Includes: 3 national networking events, 2x 2hr planning and preparatory workshops, guidance on supporting student changemakers.	Includes: 3x national networking events, student recruitment support, pre-launch staff introduction, 2x 2hr planning and preparatory workshops, bi-monthly catchup calls, guidance on supporting student changemakers.
Standard cost £2,710 +VAT	Standard cost £4,950 +VAT

FOR GOOD

For Good is our platform which supports students to make their coursework, projects, placements and dissertations have a **real-world impact**. It empowers students to apply their learning to address some of the biggest sustainability challenges of our time, mobilising education as a force for good. Through the For Good web platform, **charities and businesses are partnered with students**, so academic research, placements and projects deliver community and sustainability benefit. [Visit the For Good platform for more information](#).

It is free for all students to join and there are many placements, projects and research opportunities for students to browse through on the site. Institutions can register for membership and receive bespoke support and active matching. The 2021/22 membership fees are as follows:

For Good membership (for Dissertations, Projects & Placements for Good) for 2021/22 is **£1,500 +VAT** per institution.

For Good Bolt-On: **Integrating sustainability values into our professional lives** (1 day training workshop, delivered through the [SOS-UK Learning Academy](#)), **£350 +VAT**.

Faculty-level memberships are also available, please [contact us](#) to discuss: forgood@sos-uk.org

GLOBAL GOALS CURRICULUM MAPPING

Best for

Education

Staff
engagement

A support package for mapping the UN Global Goals for Sustainable Development (SDGs) across the formal curriculum through a **student-led audit**.

Universities, colleges, and students' unions are increasingly examining how they might map their teaching and learning onto the SDGs. We know there is significant demand from students for greater inclusion of sustainability in the formal curriculum (**83% would like to see it incorporated and promoted through all courses***). In response to this institutional and student demand, the University of Winchester and NUS developed a training and support package for mapping the curriculum to the SDGs through a student-led audit, led by SOS-UK. We offer three tiers of support for the mapping, outlined below. Mapping can take place at the faculty level or across the whole institution. [Find out more on our website here](#).

	Tier 1	Tier 2	Tier 3
Included	Preparation of training materials, training delivery, pre- and post-surveying of student auditors, raw audit data	Tier 1 offer, plus: management of auditor recruitment, graphic representation of results (e.g. graphs and charts for use in a report or presentation)	Tier 2 offer, plus: ongoing support of students, full audit report, workshop with staff and senior leaders to explain rationale and review results
Cost (2+ faculties/ whole institution)	£1,570 +VAT	£2,210 +VAT	£4,770 +VAT
Cost (single faculty)	£1,330 +VAT	£1,810 +VAT	£3,890 +VAT

ALCOHOL IMPACT

Alcohol Impact is our whole-university programme and accreditation mark designed to foster responsible drinking cultures for students. The programme adopts social change theory; aiming to reduce harm and improve welfare, well-being and academic achievement - whilst creating more inclusive spaces and enhancing the student experience.

How it Works

- Our online toolkit provides resources and highlights areas of good practice.
- The students' union and university work together to improve their working practices and undertake a number of ambitious behaviour change interventions
- After 2-3 years, SOS-UK trains and supports local students to conduct an audit
- If criteria have been completed to a satisfactory level, the institution is awarded with our accreditation mark

Participating institutions receive a support package including regular 1-2-1s, local and national workshops and training events and numerous resources and project materials.

For more information, [visit our website](#)

£3,900 +VAT	£2,750 +VAT	£9,945 +VAT	£7,000 +VAT

DRUG AND ALCOHOL IMPACT

Our brand-new support and accreditation scheme for universities and students' unions to work in partnership on these key student wellbeing issues.

Building upon the success of Alcohol Impact, our new programme supports institutions to embed social norms of responsible drinking on our campuses, alongside taking action to move away from a zero-tolerance approach to student drug use. Partnerships are supported to develop an effective, evidence-based approach to reducing the harm students face from drugs, which prioritises their health and wellbeing.

How it Works

- Our online toolkit provides resources and highlights areas of good practice.
- The students' union and university work together to improve their working practices and undertake a number of ambitious behaviour change interventions
- After 2-3 years, SOS-UK trains and supports local students to conduct an audit
- If criteria have been completed to a satisfactory level, the institution is awarded with our accreditation mark

Participating institutions receive a support package including regular 1-2-1s, local and national workshops and training events and numerous resources and project materials.

CONSULTACY, LEARNING & SUPPORT

We offer a range of services and solutions to help drive sustainability through your organisation, delivered by our expert team.

CONSULTANCY

We offer a range of services and solutions to help drive sustainability through your organisation, delivered by our expert team.

Training workshops and events

Designed to equip and inspire students, officers, staff, academics and volunteers to become leaders for sustainability, our team of expert trainers can run half day, full day, or two-day sessions, depending on the depth of information and engagement you require through our [learning academy](#). More detail on next few pages.

Audits, Assessments, Evaluation and Research

Working with our insight team to develop an evidence base for your work, analyse your impacts, identify opportunities for improvement and assess quality.

Development and Mentoring

Whether you want to put behaviour change theory into practice by designing your own in-house programme, have identified a particular opportunity you'd like to develop, or you recognise that certain members of your team would benefit from a bit of support to really shine, SOS-UK can help.

Bespoke projects

We can work with your organisation to create bespoke projects to support and further your sustainability work, using a combination of our training, evaluation and project management experience. Whether you are a university or college looking to undertake a project with your own students or staff, or a community organisation looking to engage with the education sector more, please get in touch to discuss your needs, and we can develop a proposal with you.

To get more information or sign up, either email hello@sos-uk.org, or submit a request through [our sign up form](#).

LEARNING ACADEMY: TRAINING, WORKSHOPS AND EVENTS

LEARNING
academy

We provide learning opportunities delivered in a variety of methods including face-to-face and online, and to a range of audiences such as students, student representatives, institution staff.

Our workshops can be made bespoke upon request. [Check out our roundup of what we've recently delivered.](#)

Current centralised workshops dates can be found in our [learning and events calendar.](#)

All training is delivered by our in-house SOS-UK staff.

Each training session is open to any institution or individual.

We're keen to share our knowledge and experience, so if you're running a conference, event or lecture and are looking for speakers, please get in touch on hello@sos-uk.org

LEARNING ACADEMY : CARBON LITERACY

Carbon Literacy is defined as: “An awareness of the carbon dioxide costs and impacts of everyday activities, and the ability and motivation to reduce emissions, on an individual, community and organisational basis.”

This training will provide attendees (staff or students) with introductory science on climate change to understand the social and environmental impacts of carbon dioxide emissions. During the training attendees will begin to develop their own toolkit and strategies for acting on and communicating action on climate change. The course lasts between 11-14 hours and includes online training elements and self study.

This training is certified by [The Carbon Literacy Project](#). Upon successful completion of the training, learners will be awarded a Carbon Literacy certificate.

Benefits for the university include:

- Our Carbon Literacy course gives individuals the direction and motivation to make realistic, manageable changes to reduce their Carbon footprint in the context of their workplace or place of study, thus contributing towards sustainability aims, and potentially reducing direct costs to the university such as energy and travel.
- Ability to engage with a committed group of individuals (course participants) who understand the importance of Climate Action.
- Supporting the aims of other sustainability projects, such as Student Switch Off and Green Impact.

Price: Bespoke training per university starts from £2,000+VAT for 20 spaces and includes certification for attendees. [Find out more on our Learning Academy page](#) or get in touch on hello@sos-uk.org

RESEARCH

We've engaged with students and staff on behalf of students' unions, universities, commercial businesses, sector bodies and government departments as well as for the NUS and SOS-UK on a range of sustainability issues.

We offer a full range of research methodologies and have experience of delivering qualitative and quantitative research projects. With access to over half a million students, we can engage with students of all ages, backgrounds and study types.

Examples of the projects we have delivered include:

- In-depth reviews of attitudes and behaviours
- Quick polling on topical issues
- Impact evaluation
- Concept testing including co-creation

[Our website](#) provides further detail of our research, or alternatively please get in touch to discuss your specific requirements.

RESOURCING

Do you need additional support to deliver your programmes with passion and drive? Change Agents UK is a not for profit organisation with 25 years' experience of resourcing sustainability change programmes through exceptional recent graduate placements

Change Agents UK (CAUK) bring in short and medium term staff quickly and cost effectively to support high-pressure times of year, providing additional capacity and flexibility to grow the reach and impact of your programmes. By recruiting, training and supporting exceptional graduates from our network of 10,000 new sustainability professionals we help organisations to make positive social, economic, and environmental impacts.

Recruitment

We can cover all aspects of advertising roles, shortlisting, interviewing and providing feedback. We oversee offers and take up references for all Change Agents. We also help partners to create impactful and effective role descriptions at the outset to ensure clarity and the best fit.

Employment

Change Agents UK can employ placement graduates on behalf of an organisation through our full HR and payroll management service; enabling you to have the people you need, when and for how long you need them.

Training and support

Change Agents accessing our supported Skills Development Programme through training, online learning resources, facilitated peer-collaboration and 1:1 coaching, increase their value, impact and employability.

For more detail please get in touch on hello@sos-uk.org
