

SOS-UK
TERTIARY EDUCATION OFFER
2022-23

STUDENTS
ORGANISING FOR
SUSTAINABILITY
UNITED KINGDOM

WE'RE EXCITED TO LAUNCH OUR OFFER FOR 2022-23!

We're excited to share our 2022-23 package of activities and programmes to support your institution to deliver on its sustainability objectives. We've continued to [innovate & adapt](#) all our long-standing successful programmes such as Green Impact, Student Engagement in Residences and Responsible Futures. We are very delighted to announce that we will be developing a [new online platform](#) for programmes that use online toolkits (Alcohol & Drugs Impact, Green Impact, Responsible Futures, Fairtrade Universities and Colleges) in 2023. Our [Learning Academy](#) has gone from strength to strength and we hope to continue [to support thousands of students and staff](#) this year through our training. For the coming year we are planning to continue using a [blended approach of online and face-to-face delivery](#). This document offers an overview of the breath of work SOS-UK has to offer, and should be used in conjunction with the [website](#) for more detailed information. As always, we have tried to keep our prices as low as possible to ensure our support is accessible to as many institutions as possible.

We would like to thank you for the continual instrumental role that you are playing by choosing SOS-UK. By partnering with us to bring our sector-leading programmes, consultancy, and training to your institution, you are also supporting our wider work to **repurpose the whole of the education system around the climate emergency and ecological crisis**. We work alongside students and young people on **urgent systems-change campaigns and initiatives** like [Teach the Future](#), [Invest for Change](#), [Farming for Carbon and Nature](#), [Green Influencers](#), and [Race for Nature](#), to create a sector that **serves as a force for good**. SOS-UK is a small charity, and we are reliant on programme income to continue this important work. Whilst we receive some grant funding and donations, our programme sales & consultancy make up a large proportion of our total income and **are vital to sustaining and furthering our national and international campaigning and advocacy work**. Thank you for being part of this journey with us!

Joanna Romanowicz, director of engagement
Jade Monroe & Meg Baker, co-directors of education

SOS-UK IS AN EDUCATIONAL CHARITY FOCUSING ON SUSTAINABILITY

SOS-UK **engages**, **supports** and **empowers** students and wider society to learn, act and lead for environmental justice.

We are proud that UNESCO recognise SOS-UK as one of the global leaders of education for sustainable development.

SOS-UK staff represent a range of academic and professional backgrounds from education to biology and with specialisms in communications and research.

This document outlines the 2022-23 SOS-UK offer for the tertiary sector. Continue reading to see how we can support your organisation.

Get in touch with hello@sos-uk.org if you have any questions.

Connect with us:

WE ARE PROUD OF SOS-UK'S IMPACT IN 2021 - BE PART OF OUR JOURNEY!

Over 1000 students participated in SOS-UK sustainability training and development

Over 200,000 people were reached through our sustainability work

Nearly 1,000 organisations took part or funded our work

We worked with universities and students to save over

1750 tonnes of CO₂

Our research in 2021 has covered sustainable food, COP26, alcohol, drugs, sustainability in teaching and learning, climate change, drink spiking, SOGs, and ethical finance.

PROGRAMMES - INDIVIDUAL & TEAM BASED APPROACHES

SOS-UK sustainability programmes reach a broad range of students and staff, including those who may not typically be engaged in sustainability. Often these participants progress on a pathway through our campaigns and programmes. Check out our offer for 2022-23 over the next few pages.

STUDENT ENGAGEMENT IN RESIDENCES

RESIDENCE ENGAGEMENT PROGRAMME

Delivered under our Student Switch Off brand, or as part of your sustainability branding, our multi award-winning programme engages students within residences on environmental and social sustainability and introduces life-long sustainable living habits. The programme builds students' sustainability knowledge and carbon literacy, focusing on enhancing student skills and experience, mobilising students to lead on sustainability initiatives, resulting in quantifiable energy, waste and water reductions.

STUDENT ENGAGEMENT IN RESIDENCES CONT.

RECYCLING AUDITS IN RESIDENCES

Recycling audits provide a visual check of all bins in shared kitchens at key points in the year to both feedback performance to students, and to provide a greater understanding on recycling habits. Students are incentivised and informed on how to correctly segregate their waste and increase their recycling to support improvements. SOS-UK can deliver the audits either in the audits either in conjunction with the Residence Engagement Programme or run them as an independent standalone option.

WELLBEING SPRINTS

Week-long sprints, that focus on specific wellbeing themes, help to support students during their time in student residences. Sprints will have a scheduled online activity each day including competitions, activity challenges and quizzes. There will be 3 wellbeing sprints to choose from (or you can sign up to all) over the year:

- October 2022: Alcohol harm reduction
- January 2023: Community building
- May 2023: Wellbeing selfcare

SOS-UK can deliver the sprints either in conjunction with the Residence Engagement Programme or run them as an independent standalone option. [Full programme information](#)

CARBON CHALLENGE FOR STAFF AND STUDENTS

The carbon challenge programme is aimed at engaging staff and students to reduce their personal carbon footprint at home and in the workplace.

An online carbon footprinting and reduction tool, hosted by GIKI Zero, provides staff and students the opportunity to understand their own personal impact on the planet with 120 carbon reduction actions across seven categories. Online teams and leaderboards support staff and students to understand their individual impact, build their own personalised action plan and support others within their team.

The online tool is supported by a range of engagement activities including monthly campaigns, staff workshops and student volunteering that will build on knowledge and ensure staff and students are engaged, supported and empowered on their carbon reduction journey.

GREEN IMPACT

Green Impact is our UNESCO award-winning change and engagement programme for workplaces. The learning and awards scheme helps staff and students understand sustainability and social responsibility, gives a framework for taking action, and celebrates achievements. We work with you to support teams and departments to strategically embed sustainability within their practices and align with your local priorities.

Support included within the Green Impact programme:

- **Co-creation of a fully bespoke online toolkit** of actions and resources to enable your staff to create positive change in their workplace;
- A **programme of support** for your **local Green Impact delivery lead**, including planning meeting, regular 1-2-1 calls, national networking calls, and access to a reporting dashboard;
- A **programme of support** for your **teams** to reach their desired award level, including local and national workshops.

At the end of each year your students will be invited to attend our IEMA-approved auditor training course and complete an audit of each Green Impact team to verify their award level.

Following their audit, teams and individuals will be recognised with an award, and you will receive a report outlining their achievements and impact.

For further information, visit the [Green Impact website](#). Programme fees for 2022-23 are:

GREEN IMPACT: ADDITIONAL SUPPORT

To help you get the most out of Green Impact, we offer additional support packages that you can add on to your programme.

Green Impact 2022-23 bolt on fees

Green Impact Project Assistants (GIPAs)

Our volunteering opportunity for students to support your Green Impact teams, highly recommended for participating universities and colleges to increase student-staff collaboration for sustainability.

Tier 1 includes delivery of the initial training of your GIPAs and guidance and templates for you to support them over the year.

Tier 2 includes everything in Tier 1 as well as two additional days of training and/or support for your GIPAs, ongoing check-ins, and a wrap-up event to support with your GIPAs careers development.

£710 + VAT (tier 1)

£2,080 + VAT (tier 2)

Communication Support

We know developing impactful communications takes time, so we offer a support package to build your sustainability communications, such as creating newsletters, social media content, or 1-2-1 communications with your teams.

Tier 1 includes 4 days of communications support. Tier 2 includes 7 days of communications support. We will discuss with you how best to use this time to build recognition of, and engagement with, Green Impact across the university or college.

£1,320 + VAT (tier 1)

£2,310 (tier 2)

Carbon Literacy training

This bolt-on is to upgrade one of the support days included in the standard Green Impact programme to deliver Carbon Literacy training and certification for up to 20 staff and/or students. Carbon Literacy is a well-respected training to build an awareness of the carbon dioxide costs and impacts of everyday activities, and the ability and motivation to reduce emissions, on an individual, community and organisational basis. Running Carbon Literacy training alongside your Green Impact programme can build local capacity and offers an exciting professional development opportunity with an externally-verified certification for learners.

PROGRAMMES - WHOLE INSTITUTION APPROACH

Changing education is the first step towards changing the whole of society, which is why SOS-UK offer several whole-institution change programmes, to support institutions in becoming hubs for sustainable and socially responsible practice, across all their activities and operations. The next few pages outline our whole-institution wellbeing and education offer for 202-23.

FAIRTRADE UNIVERSITY AND COLLEGE AWARD

The **Fairtrade University & College Award** is run in partnership with the Fairtrade Foundation for institutions that have made a commitment to supporting and using Fairtrade.

NUS research tells us that 90% of students say they want to buy more products that don't harm the people that produce them and 84% say they trust the Fairtrade Mark the most of all product marks.

From procuring more Fairtrade products to embedding trade justice principles in policies and campaigns, the Award seeks to impact students, staff and producers.

[Full programme information.](#)

The 2022-24 cohort registration is now open until 15 January 2023. You can [e-mail us](#) for more information or sign-up directly using the [form here](#).

2022-24 cohort fees are:

RESPONSIBLE FUTURES

Responsible Futures is our accreditation programme and supported change framework for embedding sustainability through all aspects of student learning. It promotes a **whole-institution approach** to embed sustainability learning through **formal, informal, and subliminal curricula**. To date, 30 universities and colleges have participated in partnership with their students' union, representing over 500,000 students. [Full programme information](#).

The 2022-23 programme fees are outlined in the table below, which includes access to the online toolkit and framework, an annual bespoke support day (which could include training, audit preparation, speaking at events etc.), membership to the national cohort network, national support days (2-3) and webinars (2-3) led by SOS-UK and nominated host partnerships, access to the online resource bank, two-day student-led audit, feedback report and remote support as required.

*See next page for information on **ESD changemakers**, co-creation for D3: democratise, decarbonise & decolonise.

EDUCATION FOR SUSTAINABLE DEVELOPMENT (ESD) CHANGEMAKERS

Co-creation for D3: democratise, decarbonise and decolonise

SOS-UK advocates for student leadership and students as co-creators in implementing ESD curriculum design and innovation. This is an integral part of the newly released QAA and Advance HE ESD Guidance. Building on the success of our Green Impact Project Assistants offering which connects students with staff teams for implementing sustainability, we have developed this ESD specific support. ESD Changemakers is open to universities and colleges to support institutions to work in partnership with their students, and establish a co-creation approach for embedding ESD in teaching and learning to address climate justice across all disciplines. Students and staff will work together as ESD changemakers. Students will be supported by SOS-UK to:

- Gain skills and understanding for sustainability
- Become partners in progressing institutional change to embed ESD at your institution
- Support academic and operational staff to work together in developing whole-institution engagement with sustainability learning.

[Full programme information](#)

Responsible Futures partnerships are offered a reduced rate to support them in progressing their accreditation, see page 15. ESD changemakers at participating Responsible Futures partnerships will be invited to join 6 weekly cohort catch-up calls with student leaders and staff from across the Responsible Futures network.

Tier 1	Tier 2
Includes: 3 national networking events, 2x 2hr planning and preparatory workshops, guidance on supporting student changemakers.	Includes: same as tier 1 plus bi-monthly catchup calls and guidance on supporting student changemakers.
Standard cost £2,790 +VAT	Standard cost £5,100 +VAT

FOR GOOD

For Good is our platform which supports students to make their coursework, projects, placements and dissertations have a **real-world impact**. It empowers students to apply their learning to address some of the biggest sustainability challenges of our time, mobilising education as a force for good. Through the For Good web platform, **charities and businesses are partnered with students**, so academic research, placements and projects deliver community and sustainability benefit.

[Full programme information](#)

It is free for all students to join and there are many placements, projects and research opportunities for students to browse through on the site. Institutions can register for membership and receive bespoke support and active matching. The 2022-23 membership fees are as follows:

For Good membership (for Dissertations, Projects & Placements for Good) for 2022-23 is **£1,800 +VAT** per institution.

For Good Bolt-On: **Integrating sustainability values into our professional lives** (1 day training workshop, delivered through the [SOS-UK Learning Academy](#)), **£590 +VAT** online and **£800 + VAT** in person.

Faculty-level memberships are also available, please contact us on forgood@sos-uk.org for further information

GLOBAL GOALS & ESD CURRICULUM MAPPING

A support package for mapping the UN Global Goals for Sustainable Development (SDGs) and Education for Sustainable Development (ESD) approaches across the formal curriculum through a **student-led audit**.

Universities, colleges, and students' unions are increasingly examining how they might map their teaching and learning onto the SDGs. We know there is significant demand from students for greater inclusion of sustainability in the formal curriculum (**84% would like to see it incorporated and promoted through all courses***). In response to this institutional and student demand, the University of Winchester and NUS developed a training and support package for mapping the curriculum to the SDGs and wider sustainability learning through a student-led audit, led by SOS-UK. We offer three tiers of support for the mapping, outlined below. Mapping can take place at the faculty level or across the whole institution.

ALCOHOL IMPACT

Our whole-university programme and accreditation mark designed to foster responsible drinking cultures for students. We adopt social change theory aiming to reduce harm and improve welfare, well-being and academic achievement - whilst creating more inclusive spaces and enhancing the student experience.

How it Works

- Our online toolkit provides resources and highlights areas of good practice.
- The students' union and university work together to improve their working practices and undertake a number of ambitious behaviour change interventions
- After 2-3 years, SOS-UK trains and supports local students to conduct an audit
- If criteria have been completed to a satisfactory level, the institution is awarded with our accreditation mark

Participating institutions receive a support package including regular 1-2-1s, local and national workshops and training events and numerous resources and project materials. [Full programme information.](#)

Please note - If signing up to a multi-year programme, you can either pay via one invoice or be invoiced in annual installments.

DRUG AND ALCOHOL IMPACT

Building upon the success of Alcohol Impact, Drug and Alcohol Impact supports institutions in taking a holistic approach to creating healthy, inclusive cultures around drugs and alcohol. The programme not only supports institutions to embed social norms of responsible drinking on their campuses but also refocuses the conversation on drugs towards reducing harm, and prioritising the health and wellbeing of students.

How it Works

- Our online toolkit provides resources and highlights areas of good practice.
- The students' union and university work together to improve their working practices and undertake a number of ambitious behaviour change interventions
- After 2-3 years, SOS-UK trains and supports local students to conduct an audit

FOOD AND FARMING NETWORK - *NEW*

Background

SOS-UK's Food and Farming programme has been supporting food growing projects, sustainable food enterprises and campaigns around sustainable food for over 10 years. We have also produced impactful research reports and developed practical resources and campaign guides. In 2021-22 a new, dynamic and progressive Food & Farming network was piloted with 3 organisations, and now we want to offer the opportunity for others to join us.

SOS-UK Food and Farming network is...

This network is aimed at students, officers and staff from students' unions, colleges and universities to collaboratively tackle key issues related to sustainable food projects, including but not limited to; food enterprises, food growing, campaigns, catering, campus farms and broader food system issues that impact campus life. We will provide opportunities to partner with other institutions, hold networking events and share good practice through resources and case studies.

[Full programme information](#)

Annual membership fee: £1,545 + VAT

Price includes: 121 support calls, group networking sessions, tickets to our SOS-UK Summit, generation of resources and ad hoc support.

Benefits include: Bespoke support for students and staff leading sustainable food projects on campus; opportunities to have news items and best practice showcased; and a chance to help shape the programme to ensure it best suits the needs of the sector.

HEDGEHOG FRIENDLY CAMPUS AWARD - *NEW*

Background

Hedgehogs are listed as vulnerable to extinction on Britain's Red List. They are a charismatic species, much beloved. Hedgehog Friendly Campus offers staff and students the opportunity to help hedgehogs and other wildlife on campus. This is a popular programme with a custom toolkit and associated activities that:

- Protect wildlife from hazards
- Enhance habitat
- Raise awareness

How it works...

This programme is open to students and staff from unions, colleges, universities and primary schools who will work in teams to identify and tackle key challenges facing wildlife on campus. It is an award programme, accredited by the British Hedgehog Preservation Society, with the chance to work through Bronze, Silver, Gold and Platinum levels. We provide opportunities to track wildlife, create engaging awareness campaigns and train grounds and gardens staff to restore habitats.

[Full programme information.](#)

Annual cost: Free

Membership includes: bespoke toolkit, accreditation certificate, support calls, training, mammal survey resources and awareness materials, ad hoc support.

Other benefits: Bespoke support for students and staff leading activities on campus; opportunities to have news items and best practice showcased; and a chance to help a species in decline.

CONSULTACY, LEARNING & SUPPORT

We offer a range of bespoke activities, training and support to help drive sustainability through your institution, delivered by our friendly expert team.

BESPOKE ACTIVITIES, TRAINING & SUPPORT

We offer a range of bespoke activities, training, and support to help drive sustainability through your institution, delivered by our friendly expert team.

Training workshops and events

Designed to equip and inspire students, officers, staff, academics, and volunteers to become leaders for sustainability, our team of expert trainers can run hourly, half day, full day, or two-day sessions, depending on the depth of information and engagement you require through our [Learning Academy](#). More detail on the next few pages.

Audits, Assessments, Evaluation and Research

Working with our insight team to develop an evidence base for your work, analyse your impacts, identify opportunities for improvement and assess quality.

Development and Mentoring

Whether you want to put behaviour change theory into practice by designing your own in-house programme, have identified a particular opportunity you'd like to develop, or you recognise that certain members of your team would benefit from a bit of support to really shine, SOS-UK can help.

Bespoke projects

We can work with your organisation to create bespoke projects to support and further your sustainability work, using a combination of our training, evaluation and project management experience. If you are a university or college looking to undertake a project with your own students or staff, please get in touch to discuss your needs, and we can develop a proposal with you.

LEARNING ACADEMY : CARBON LITERACY

Carbon Literacy is defined as: “An awareness of the carbon dioxide costs and impacts of everyday activities, and the ability and motivation to reduce emissions, on an individual, community and organisational basis.”

The training will provide attendees (staff or students) with introductory science on the climate crisis to understand the social and environmental impacts of carbon dioxide emissions. Additionally, our SOS-UK course has an increased focus on climate justice, and the inter-related nature of carbon emissions and wider environmental concerns such as biodiversity loss.

During the training attendees will begin to develop their own toolkit and strategies for acting on and communicating action on the climate crisis. The course lasts around 12 hours and includes online training elements and self study.

This training is certified by The Carbon Literacy Project. Upon successful completion of the training, learners will be awarded a Carbon Literacy certificate and a digital badge.

Benefits for the university or college include:

Our Carbon Literacy course supports learners to identify and plan realistic and impactful actions to reduce their carbon footprint in the context of their workplace or place of study, thus contributing towards sustainability aims, and potentially reducing direct costs to the institution such as energy and travel.

Price: Bespoke training per university/college starts from £1,700+VAT for 20 spaces and includes certification for attendees.

RESEARCH

We've engaged with students and staff on behalf of students' unions, universities, commercial businesses, sector bodies and government departments as well as for the NUS and SOS-UK on a range of sustainability issues.

We offer a full range of research methodologies and have experience of delivering qualitative and quantitative research projects. With access to over half a million students, we can engage with students of all ages, backgrounds and study types.

Examples of the projects we have delivered include:

- In-depth reviews of attitudes and behaviours
- Quick polling on topical issues
- Impact evaluation
- Concept testing including co-creation

RESOURCING

Do you need additional support to deliver your programmes with passion and drive? Change Agents UK is a not for profit organisation with 25 years' experience of resourcing sustainability change programmes through exceptional recent graduate placements

Change Agents UK (CAUK) bring in short and medium term staff quickly and cost effectively to support high-pressure times of year, providing additional capacity and flexibility to grow the reach and impact of your programmes. By recruiting, training and supporting exceptional graduates from our network of 10,000 new sustainability professionals we help organisations to make positive social, economic, and environmental impacts.

Recruitment

We can cover all aspects of advertising roles, shortlisting, interviewing and providing feedback. We oversee offers and take up references for all Change Agents. We also help partners to create impactful and effective role descriptions at the outset to ensure clarity and the best fit.

Employment

Change Agents UK can employ placement graduates on behalf of an organisation through our full HR and payroll management service; enabling you to have the people you need, when and for how long you need them.

Training and support

Change Agents accessing our supported Skills Development Programme through training, online learning resources, facilitated peer-collaboration and 1:1 coaching, increase their value, impact and employability.

For more detail please get in touch on hello@sos-uk.org

Access our 2022-23 sign up form here: <https://www.sos-uk.org/programme-sign-up>

We look forward to working with you.
