Powerproject®
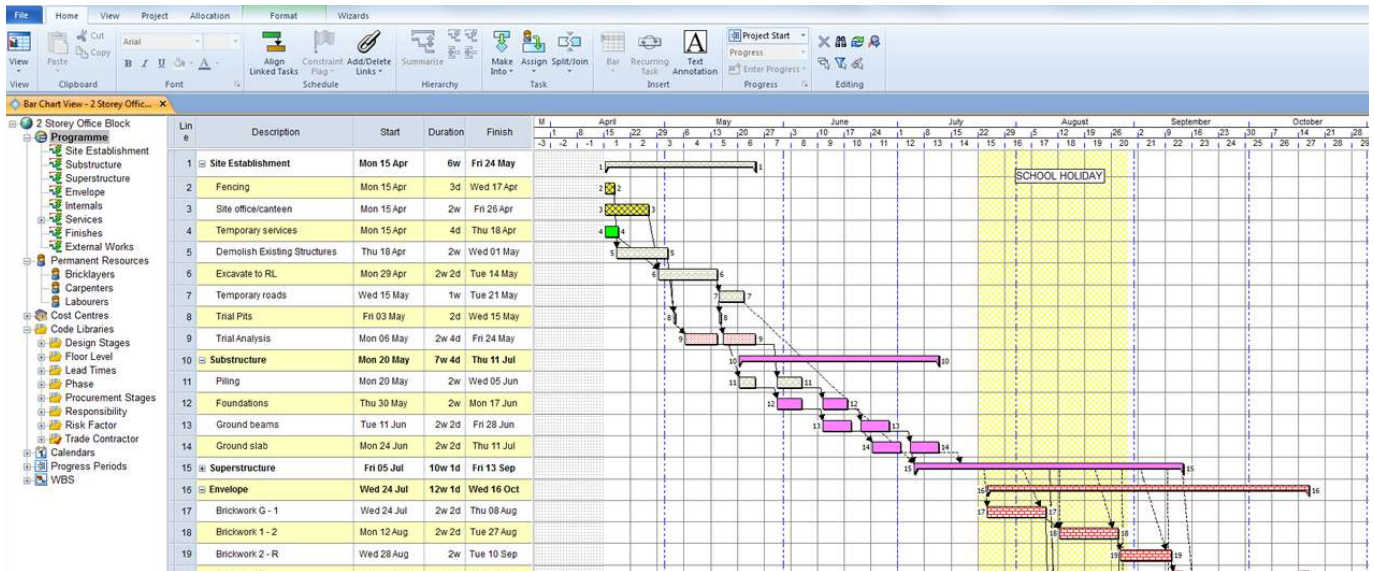

Easyplan

Simple planning tool for small projects

Easyplan is an easy-to-use planning tool designed specifically for the planning, managing and delivery of smaller projects Novices and seasoned planners alike will find Easyplan quick and simple to use, with project wizards to take you step-by-step through the planning and management of projects.

Why choose Easyplan?

Easyplan allows you to share files with Powerproject, Primavera and Microsoft Project – opening up the opportunities available to your organisation. This also makes Easyplan an effective and affordable option for managing smaller projects within a larger, more complex programme managed within Powerproject.

- Draw activities directly onto a bar chart
- Link tasks to logical order of activities
- Apply duration, resources and progress to activities
- See a clear graphical progress line for accurate progress tracking

- Add up to 250 tasks per project
- Present professional, personalised project plans
- Track fixed project costs using cost centres
- See graphical histograms clearly illustrating workflow

Training

A one-day training course is available if you want some help to get started. This covers all aspects of the software's functionality with a particular emphasis on the time-scheduling aspects of the software. On completion of the course, you will be able to create and structure new projects, progress projects effectively, set up colour code libraries and print out a project with annotations. For more information or to check course availability please visit: **elecosoft.com/easyplan-training**.
