2. USER STORIES & JOB STORIES

1. SIGN UP / LOGIN

As a customer...

I want to be able to store my previous actions in the app as easy as possible...
so that I can find them again whenever and wherever I desire.

As a customer...

I want have my personal data and saved information to be secured...
so that I and only I can access them myself from any device.

As a customer

I want my registration and signup to be as fast as possible...
so that I can fullfil my tasks in the app without any delays.

2. USER STORIES & JOB STORIES

2. ONBOARDING

As an amateur sailor...

I want to have a clear overview of the amount of features an weather app has...
so that I get an idea of where I should start with using the app itself.

As a new customer...

I want the basic features of the app to be briefly explained...
so that I can take the most out of the apps capabilities.

As a surfer...

I want to know how I can customize the app in such way...
so that I get updated and adviced only on the weather conditions I need to know for specific locations.

2. USER STORIES & JOB STORIES

3. NAVIGATION MENU

As an sea sports operator...

I want a menu that is brief and with understandable terms...

so that so that I seem distracted with my phone in front of clients.

As a skipper...

I want that the nav menu's form helps me find fast the features I suddenly need to adjust...

so that I won't have to multitask and while sailing.

As a amateur sea aficionado...

I want a small menu that guides through all these forecast features that seem so new to me...

so that I do not panic every time I land on a feature that I do not know how to evaluate or read.

2. USER STORIES & JOB STORIES

4. EXPLANATION OF VARIOUS TYPES OF MEASUREMENTS

As a beginner skipper..

I want to start reading the weather with measure unit I am familiar with...

so that I can start feeling familiar with the results of the features.

As a surfing teacher...

I want a weather app that explains the important unit for every type of surf...

so that my students can feel secure for the first time I go surfing on their own.

As a sea sports business owner ...

I want to be able to share explained safety information with my customers from a distance...

so that I won't have to repeatedly have to explain to them what the safety measurements should be in every occasion.

2.USER STORIES & JOB STORIES

5. DISPLAYS (REAL-TIME)

PAGE 1 of 1

5.1 wind conditions

As a skipper...

I want a weather app that has the real-time Wind Map as a dashboard...

so that I have a direct overview of the right data for a first evaluation of the conditions on-site.

5.2 weather conditions

As an amateur sea sports fan...

I want also to be provided with general weather forecast...

so that I can be updated about the weather conditions for other activities, when I am not sailing.

As an sea sports business owner...

I want various weather maps in one service (app ro website)...

so that I don't have to check various websites for each condition.

2. USER STORIES & JOB STORIES

5. DISPLAYS (REAL-TIME)

PAGE 2 of 2

5.1 wind conditions

As a future pro skipper...

I want a wind conditions map that is clear, with familiar color indications and signifiers...

so that I can make a distinction between various situations and conditions.

As a surfer...

I want to be able to check the tide and surf on small range sea areas

so that I can have a better overview of the conditions at my favorite beach.

As an sea sports business owner...

I want various weather maps in one...

so that I don't have to check various sources (websites, devices etc.) for each condition.

2. USER STORIES & JOB STORIES

6. SAFETY RECOMMENDATIONS

As a beginner surfer...

I want tips and safety recommendations from expert surfers...

so that know what waves I can catch and what areas based on my level of skills.

As a skipper teacher...

I want a fixed general set of safety measurements documented and sharable

so that my students can always look back to them and practice even when I am not there.

As an owner of a yacht renting company...

I want real time clear and understandable warning updates with precautions...

so that I can explain to my clients on a common language why we cannot sail.

2. USER STORIES & JOB STORIES

7. TIPS FOR THE BEST EXPERIENCE

As a beginner skipper...

I want advices from experts for the conditions and location I am at...

so that I can create the best learning experiences out of my first sails on my own.

As a beginner skipper...

I want advices about locations and coasts I can sail to...

so that I can make the best out of countries I visit exclusively for sailing.

As a surf blogger...

I want to share my knowledge and experiences about surfing...

so that others can also feel the beauty of the sport the way I do.

2. USER STORIES & JOB STORIES

8. **SHARING INFORMATION** (SPECIFIC LOCATION AND TIME)

As a Skipper instructor...

I want to share information about where we will sail...

so that students and the relatives can feel safe about the training trip.

As a yach business owner...

I want provide my clients with updates about the location we will be sailing at...

so that they understand that the reasons in case a sailing trip is cancelled.

As a surfer...

I want to share share the surf and tide news of our favorite spots with my mates...

so that we all get ready and enjoy the surf when it's at its best!

2. USER STORIES & JOB STORIES

9. SAVING FAVOURITE LOCATIONS

As a Skipper instructor...

I want to know the conditions of specific coasts

so that I won't have to search them all the time from the beginning before every class.

As a surfer..

I want to be able to save surf spots of locations that I travel and I am not so familiar with

so that I can skip the crowded places with all the tourists.

2. USER STORIES & JOB STORIES

10. NOTIFICATION (LOCATION AND TIME)

As a Surfer...

I want to be updated about surfs...

so that I know how much time I have to focus on other priorities before I 'go in'.

As a catamaran business owner..

I want to be informed directly about real-time weather changes...

so that can take the right actions with trips that are booked already by clients.

2.USER STORIES & JOB STORIES

11. PROFILE / ACCOUNT DETAILS AND PREVIEW.

As a User of apps...

I want to be able to access my personal information

so that I can update it and personalize it whenever necessary

As a App user..

I want my profile to have as less information required as possible...

so that I feel that my personal data is not overly required or even exposed.
