Home of the *Weigh Shark*, not just another scale company!

## **Magnetic Shaft Encoder**

The Magnetic Encoder is an optional speed sensor for those wet applications, portable equipment, wash down requirements or harsh and corrosive conditions mounted to the drive shaft pulley.

The magnetic encoder is provided with 65' cable. Made from Stainless Steel materials.

MCR Technologies Group, Inc offers 2 types of magnetic encoders:

80 pulses per minutes is our standard magnetic encoder. For speeds of 45 FPM or greater.

Part Number - WSMAGE

400 pulses per minute for speeds of less than 45 FPM.

Part Number - WSMAG4

Please contact MCR Technologies Group, Inc for more detailed information.

IP Rating - IP 64 ( Protected from water spray from any direction)
