Uitvoering

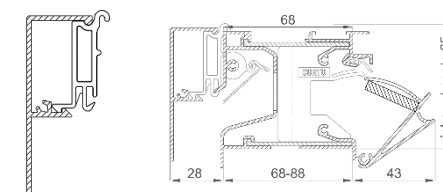

De AK & AK+ versie verschillen in spleethoogte

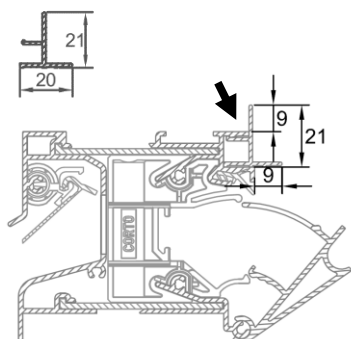

Handmatig / Koord / Stang

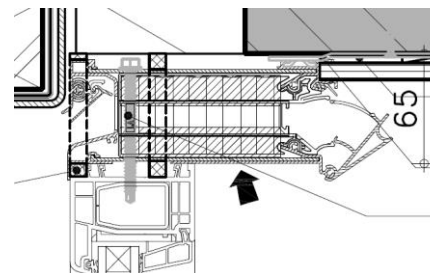

Buitenkap

Opvulprofiel

Dikte raamprofiel DucoTop 60 'ZR' AK(+)

Op basis van de dikte van het raamprofiel, wordt de maatvoering van het (binnen)onderprofiel bepaald. Wanneer het rooster dieper wordt uitgevoerd dan het raamprofiel, loopt het aluminium (binnen)onderprofiel door wegens esthetische redenen.
