

# CHRISTIAN BERG

## UX Designer • Problem Solver

### ABOUT ME

Hi, I'm Christian a product designer based out of Austin, TX. I have real-time industry experience working as a product designer developing and improving digital experiences in a multitude of industries such as Healthcare Software and Advertising.

### EXPERIENCE

#### **Bravado Health, Remote**

*UX Designer*

**March 2021- March 2023**

Worked on creating and improving user experiences for software that was both patient-facing and for healthcare professionals. This included performing such tasks as prototyping, wireframing, user testing, and creating pixel-perfect design stories. I also worked on the initial concepts, flows, and designs around an organizational-level Healthcare Admin and Reporting Dashboard.

#### **VMLY&R, Chicago, IL**

*Digital Designer & Art Director*

**August 2018 - December 2020**

Worked in a fast-paced Ad agency specifically on Unilever products. While working there I would help design different digital assets such as web pages and banners as well as help bring to life art direction concepts. One of my takeaways from working there is I learned and developed a love for collaboration and quick thinking.

#### **McGarryBowen, Chicago, IL**

*Design Intern*

**June 2018- September 2018**

Performed various intern duties such as designing decks, resizing banners, and helped explore creative directions for advertisements and media. I also worked with my other intern cohorts to create and pitch a multitude of concepts and strategies for Disney Parks.
