Open House #1 – In-Person Option

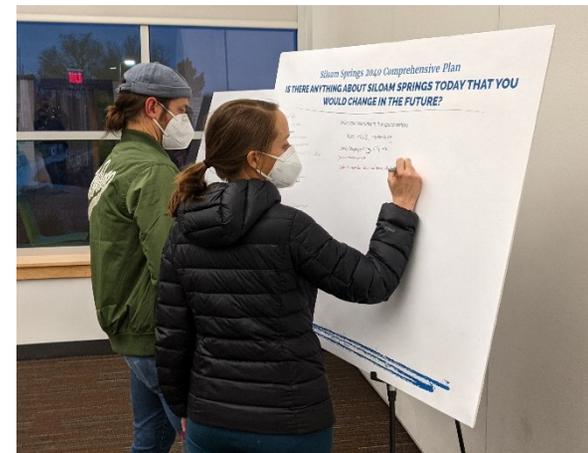

Total Participants: 27

Date: March 18, 2021 (1 day)

The input activities at the public Open House consisted of the same questions used in the public survey. A summary of the participants' responses for each question is on the following pages.

What is your age group?	
19 or younger	0%
20-44	37%
45-64	41%
65+	22%

Which best describes you?	
I live in Siloam Springs	17
I do not live in Siloam Springs but I live in Benton County	0
I am a student at JBU	1
I work in Siloam Springs	8
I own a business in Siloam Springs	3

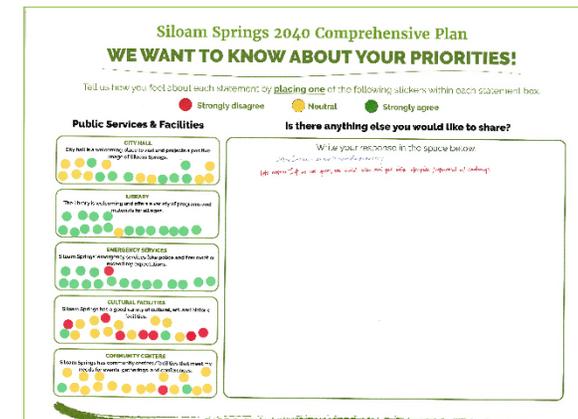

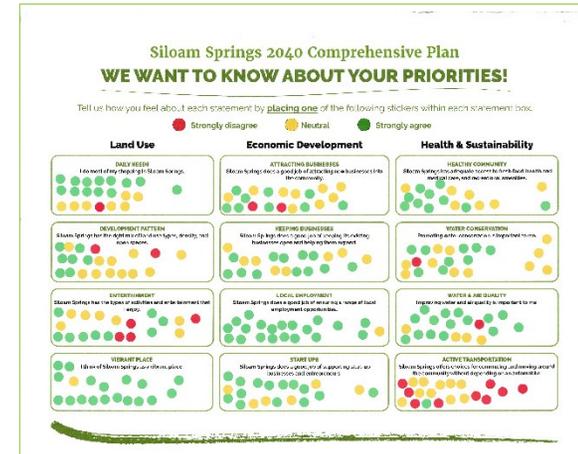

We want to know about your priorities!

This input board asked participants to use a color-coded sticker to state whether they disagreed, were neutral, or agreed with a series of statements regarding seven subject matters. The participant placed a red sticker for statements they disagreed with, a yellow sticker for statements they were neutral about, or a green sticker for comments they agreed with.

The board had four to five statements about:

- Land use,
- Economic development,
- Health and sustainability,
- Transportation and mobility,
- Housing,
- Community Character, and
- Public Services and Facilities.

A summary of the participants' responses is on the following page.

Participants **strongly agreed** with the following statements:

- I do most of my shopping in Siloam Springs.
- Siloam Springs has the types of activities and entertainment that I enjoy.
- I think of Siloam Springs as a vibrant place.
- Siloam Springs does a good job of keeping its existing businesses open and helping them expand.
- Siloam Springs does a good job of ensuring a range of local employment opportunities.
- Siloam Springs does a good job of supporting start-up businesses and entrepreneurs.
- Siloam Springs has adequate access to fresh food, health and medical care, and recreational amenities.
- Improving water and air quality is important to me.
- It's easy to get to point A to point B around town.
- I'm able to walk to places I'd like to go in Siloam Springs.
- I'm able to bike to places I'd like to go in Siloam Springs.
- I would like more retail and commercial services within walking distance of my home.
- Siloam Springs has a unique and positive community brand.
- There are enough places to visit with friends, have a picnic, or attend a small event.
- Overall, I think Siloam Springs is an attractive community.
- The library is welcoming and offers a variety of programs and materials for all ages.
- Siloam Springs' emergency services (like police and fire) meet or exceed my expectations.

Participants **were neutral** with the following statements:

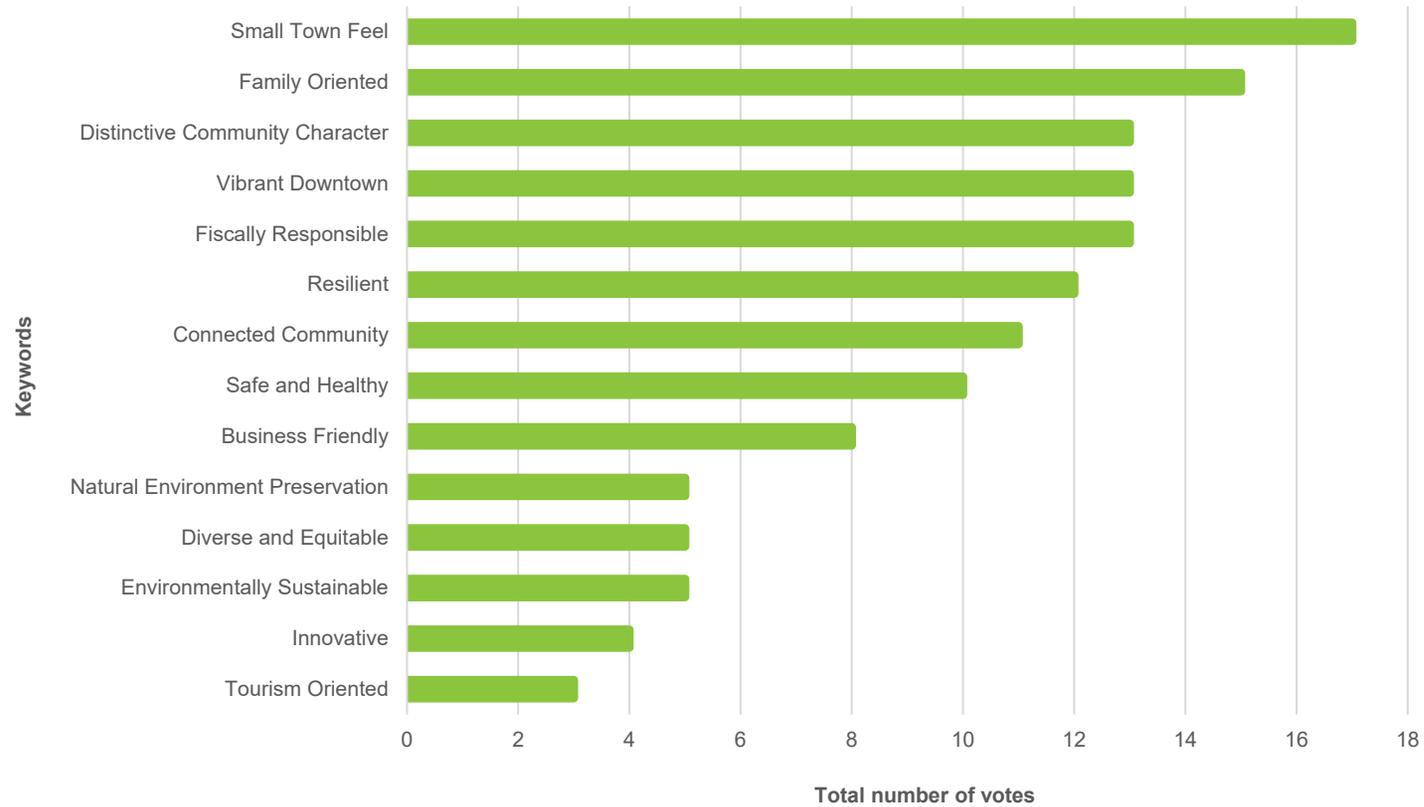

- Siloam Springs has the right mix of land use types, density, and open spaces.
- Siloam Springs does a good job of attracting new businesses into the community.
- Promoting water conservation is important to me.
- Siloam Springs offers choices for commuting and moving around the community without depending on an automobile.
- Siloam Springs' roadways are typically uncongested and free flowing.
- If public transit was available in Siloam Springs, I would use it.
- Our neighborhoods are well designed and provide the amenities that I would like in my neighborhood.
- Housing in Siloam Springs is generally affordable to buy or rent.
- Siloam Springs' neighborhoods are well maintained and reflect a positive image of the community.
- It's easy to tell when I'm entering or within Siloam Springs because of entryway signs or distinctive features.
- Siloam Springs projects a positive image to people traveling along its roadways or sidewalks.
- City Hall is a welcoming place to visit and projects a positive image of Siloam Springs.
- Siloam Springs has a good variety of cultural, art and historic facilities.
- Siloam Springs has community centers/facilities that meet my needs for events, gatherings, and conferences.

Participants **strongly disagreed** with the following statements:

- Siloam Springs has housing for all age groups, such as students, young professionals, families, and seniors.

Which of the following keywords best reflect Siloam Springs' values?

Participants placed a sticker on their top seven keywords.

Please describe how you would like to see Siloam Springs in 2040.

The word cloud below was generated from the most frequent words or phrases written on the public input board for this question.

What do you love about Siloam Spings today?

The word cloud below was generated from the most frequent words or phrases written on the public input board for this question.

Open House #1 – Virtual Option

Total Participants: 699

Dates: March 1 to April 30, 2021 (60 days)

The purpose of the Virtual Option was to provide an online alternative for those who could not or preferred not to attend the in-person meeting. The Virtual Open mimicked the input opportunities from the in-person Open House to provide an equivalent experience for all participants.

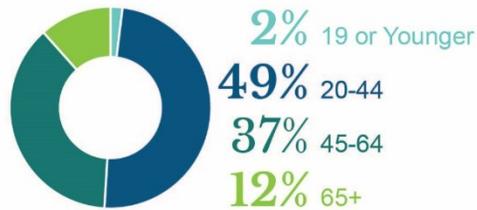

What is your age group?	
19 or younger	2%
20-44	49%
45-64	37%
65+	12%

Which best describe you?	
I live in Siloam Springs	475
I do not live in Siloam Springs but I live in Benton County	42
I am a student at JBU	2
I work in Siloam Springs	250
I own a business in Siloam Springs	64

What do you Love about Siloam Springs today?

Describe your Vision for Siloam Springs in 2040

Which of the following keywords do you think best reflect Siloam Springs' values that should guide the plan's development?	
481	Small-town feel
473	Family oriented
322	Safe and healthy
319	Vibrant downtown
279	Business friendly
258	Connected community
255	Fiscally responsible
243	Natural environment preservation
168	Environmentally sustainable
166	Distinctive community character
137	Diverse and equitable
87	Innovative
67	Tourism oriented
54	Resilient
20	Other (list below)

Are there other keywords that you think would be appropriate for Siloam Springs' guiding principles?	
1	Bike-friendly, walkable
2	Historic
3	Stop wasting money
4	Welcoming
5	Safe
6	Infrastructure conscious
7	American minded, meaning, no one people group is focused on. As a whole, human beings.
8	Jobs
9	Small town
10	Down to earth
11	Progressive
12	What gender you are born is what gender you should identify with. Sports and bathroom related.
13	A conservative community that is also progressive as it relates to new programs.
14	Fair, Community Race Track
15	N/A
16	Faith friendly, church friendly.
17	tourism-oriented is also a good one...

18	Classic
19	The moratorium lifted on medical cannabis we are missing a great taxable opportunity.
20	Find ways to secure/make money for infrastructure projects.
21	Hometown, different from Bentonville, inclusive not catering to 1 group.
22	Accessible to all people. Future-oriented towards up-and-coming generations. Fosters creativity.
23	Kindness and love towards all people
24	Resident focused
25	SMALL business friendly rather than large corporations and national chains.
26	The above should say SMALL business friendly. Start supporting small, family owned businesses in real ways and quit making it harder for them. They are the heart and soul of this town.
27	So many areas of the town are dumpy
28	Handicap!!
29	Accessinibility.
30	N/A
31	Character, values
32	Eh...we're moving anyways. The town seems a little too obsessed with itself. I would check "none of the above".
33	A Constitutional loving city
34	Keeping not only the DOWN TOWN beautiful but there are some areas that are VERY Neglected.. The East side of town needs alot of beautification, driving into town on Jefferson st, is a BIG NASTY EYESORE till you get downtown it really takes AWAY the beauty,
35	Home
36	Progressive
37	Recreational Facility
38	Low crime?????????
39	comfortable community
40	Resourceful Citizen representation Listening Renew Restore
41	None
42	Honesty, transparency , preservation
43	I don't like advertising for tourism
44	Need to appeal to more white collar families looking to move into NWA. Currently most do not think of Siloam Springs as an option.
45	Morals

46	Woke, Social Justice Warrior-driven, Timid leadership
47	Family oriented
48	Old fashioned morales
49	A safe community
50	Faith family friends in my home town
51	We have KLRC here, so I would say Godly as well
52	Stand alone community
53	Faith based
54	Historic
55	Growing
56	Clearly religious faith is a strong part of the community
57	Preserving history, resources for homeless and people with addictions
58	Walkable
59	Welcoming Home Town Community Historic Preservation Innovative Forward Thinking
60	Progressive, forward thinking, future proof
61	Welcoming to visitors & those who move to the area.
62	Stellar education and training for residents Community minded,
63	Homegrown
64	Artsy, gala, modernizing the antique, neoteric.
65	We should be the jewel of the Natural State, environmentally speaking.
66	Restoration
67	Ask all varieties of the community for input.
68	Projective, protective, and forward moving.
69	Culturally diverse
70	Presentation is important: in appearance, modern ideas, & Christian values
71	Don't fix it if it ain't broke. Listen to the community on what needs to be fixed - don't put resources into things that people don't want.
72	The development of the town should be planned with the wellbeing of the current residents in mind. Their interests must come before any flashy new ideas or plans for drastic change. Residents should be able to influence decisions with a minimal amount of bureaucracy in the way.
73	More services and equitable opportunities for for SS citizens like the emotionally challenged, ethnic minorities, and those who live with food insecurity.
74	Compassionate and pragmatically for those who find living hard.
75	Outdoor recreation- bike trails, walking trails, parks, splash pad, pool
76	Encouraging people of Faith

77	No
78	Thoughtful growth; Planned access
79	Respect Freedom Humility
80	Inclusive, welcoming, friendly, caring
81	progressive
82	Unapologetically a Christian city. That does not necessarily eliminate anyone, but it sets forth a prominence of values that will attract the right people and businesses. This is in keeping with our history too. We are known for our churches historically, and for the naming of streets after biblical names.
83	Faith-filled environment
84	SMALL business friendly.
85	gateway to NWA, connector between OK and AR, small-business supporter, quality of life, affordable safe housing
86	EV friendly? Connected community = accessible by trail/sidewalk?
87	Small and quiet.
88	Using technology to provide board meeting on line.
89	Hospitable, inviting
90	Quaint, but quality lifestyle
91	Sanctimonious, pious
92	np
93	Family oriented, good schools, business oriented, plan for the future
94	Welcoming.
95	Beauty
96	As a small business owner here in Siloam, I would like to see Siloam continue to support small family owned businesses rather than large chains.
97	Freedom
98	My sister who hasn't lived here since she was a teenager come just to see the parks again. I think our history is what brings tourists
99	God. Siloam living based on biblical principles
100	Better Health Providers and care: MD, Ophthalmologist, OBGYN,
101	Low crime
102	Morally Considered
103	strong infrastructure
104	Treating ALL with fairness

105	Clean Friendly Supportive Pride
106	All the keywords listed above describe our city very well and honestly I wish I could choose more.
107	Patriotic
108	Don't let the loud squeaky wheels on social media dictate how the city operates. If you try and please everyone, you'll please no one.
109	Controlled growth
110	Cool Downtown. Great parks along the creek.
111	Job growth
112	Innovative, community centered, vibrant
113	Nature focused
114	Parks and playgrounds for kids activities
115	no
116	New, relevant
117	No.
118	No
119	Logic based
120	Constitutional rights, Limited government, Traditional values
121	Faith oriented
122	Inclusive of all age groups and affordable connection to the other communities of NW Arkansas/
123	Non commercialized
124	We no longer have that small town feeling and I no longer feel safe. I asked the police to just patrol our road and they scoffed at me. We have people racing up and down our street inside the city limits and the police don't care.
125	Responsive and accountable to its citizens.
126	Conservative
127	no
128	N/A
129	no
130	Loving and accepting community
131	Family, character, friendly
132	I WISH I could check Vibrant downtown.....it's close.
133	Business friendly may encompass "industry friendly". We need to have regulations that invite new industries rather than discourage them from choosing Siloam Springs.

134	I can't think of anything extra that wasn't on this list, which I think all represent Siloam to some degree, however, the 6 I selected I feel represent it more than the others.
135	Sustainable (although that is implied)
136	Stable, peaceful
137	Safe, clean,
138	Remember who we are.
139	For the most part Siloam Springs is a safe and affordable community
140	Creating an impactful community arts culture
141	Efficient and homy.
142	Flexible (like adjusting budget when the unforeseen happens like the pandemic)
143	Be kind and look out for your neighbor
144	Progressive welcoming friendly but also cutting edge
145	Safe
146	Encourage outdoor activities
147	Family friendly, small town feel, historical
148	Used to be a sweet small town feel.. Not anymore!!!!
149	Great schools
150	Family Friendly
151	Visit & explore, Experience Downtown, Outdoor friendly
152	Integrity and moral!
153	RESPONSIVE
154	Clean friendly green
155	Transparency
156	Ethical, conscientious, saving money for any kind of disaster, cutting taxes so the average person can invest more into the community.
157	n/a
158	Freedom and Liberty
159	Appealing to the eye
160	Christ
161	Inclusive Accepting
162	Natural environment preservation Tourism oriented Diverse and equitable Connected community
163	Unilaterally equal
164	Snooty, Entitled

165	Needs more street lamps on major side roads suchas Dogwood Street and Cherry Whitlock.
166	Active Welcoming Accepting Fun
167	Welcoming and hospitable, intentional
168	More diversity and inclusion.
169	Wise (sound established and tested principles)
170	Calm
171	Be a place quality shops and restaurants would want to be in
172	Welcoming, diverse, innovative, supportive
173	Family oriented entertainment
174	Equitable, hospitable, diverse, maintaining natural space
175	Beautiful
176	Christian faith and principles. I DO understand"separation of church and state" and am not advocating for a religious requirement of some kind.But Siloam Springs does have a strong Christian presence, something that makes this community unique, and I don't think we should be ashamed of it or water it down or try and be like other communities. I see nothing wrong with owning this and helping hold each other accountable to the best of this heritage.

Which topic is most important to you?		Average Rank (Lower Number = Higher Ranking)	Times Selected (Higher Number = More Often Selected)
1	Community Character	2.51	483
2	Economic Development	2.88	445

- 3.19 Biking | I'm able to bike to places I'd like to go in Siloam Springs.
- 3.08 Congestion | Siloam Springs' roadways are typically uncongested and free flowing.
- 3.06 Walking | I'm able to walk to places I'd like to go in Siloam Springs.
- 2.69 Public Transit | If public transit was available in Siloam Springs, I would use it.

What do you LOVE about Siloam Springs today?

- | | |
|---|--|
| 1 | It's location between two metro areas. |
|---|--|

2	Family atmosphere
3	I love that we have a historic downtown area! Downtown seems to be vital to having a good town. It's a wonderful area that fosters community. I love that there has been an emphasis on outdoor activities (splash pad, amphitheater, trails, upcoming WOKA park).
4	The sense of community! I love the use of our greenspaces and how accessible we are making it. All the new sidewalks and crosswalks have not gone unnoticed! Keep up the good work!
5	I love the downtown! I love the trail next to JBU and the mountain biking trails.
6	The downtown parks, City Lake trails and the kayak park.
7	Downtown choices of food and drink
8	The community, the art murals and the nature trails.
9	Downtown community
10	Multiple ways to enjoy the beautiful outdoors, bike park, walking trails, splash pad
11	Acceptance, love, open mindedness, easy access to amenities, downtown, events, small town feel with progressive values Kids answers: history, ducks, welcoming
12	The small town atmosphere
13	Wholesome town with good people and a low crime area
14	Great downtown, the springs/creek throughout the town. Path network, mountain biking trails
15	The small town feel with different options without all the hassle of bigger cities.
16	The beauty, the heritage, and most of all the people of Siloam Springs are what make me love my Hometown.
17	I love the small town feel with the convenience of having a big city close by.
18	We love the small town feeling. We also enjoy the local shops and restaurants
19	Small, quaint shops.
20	The quiet kick back atmosphere
21	Small town feel that has everything you need without having to go to a bigger city.
22	Small town community, downtown, the new business coming in.
23	A lot of stuff
24	Small town
25	I love that we are still small enough to generally know each other, get around town quickly, and have a manageable cost of living. I like that we are far enough away from Tulsa and the I-49 corridor that we don't have to deal with "big city" issues, but close enough to get to those cities when needed. I love the balance of green space and activity without sacrificing common sense to have those things. I really love that we have a mostly Christian community that is kind and safe.

26	Small town feel with all the amenities! I love the locally owned businesses but I also appreciate the larger corporations' availability.
27	The downtown gazebo area, the kayak park, dogwood festival, the motion sensor fountain on mt olive, the redneck yacht club.
28	Small town feel where people cared about one another until we started chasing the almighty dollar
29	The small town feel.
30	Walking trails
31	The mix of old and new that blend well while offering many options.
32	The home town vibe.
33	The historic side of it, I've lived here all my life, same as my mother, grandmother & great grandmother. My favorite part about growing up here were our Sunday drives through town. My grandmother would point out all of the historic buildings telling me all the history she had learned.
34	Small town atmosphere. History. Downtown. Always improving and making more attractive. Walking and bike trails. Making use of older buildings and not tearing down. Older homes being restored and made beautiful again.
35	The walkable downtown with its adjacent creek and parks, the numerous other parks, and the recreational amenities.
36	The beauty of the outdoors all around town and the vibrant downtown, it's so sad to go thru towns where the downtown is closed up and forgotten.
37	I love everything about Siloam except the bypass. Beautiful parks, the creek and the friendly people.
38	Trees, walking, library, downtown, trails
39	Walking trails, and city lake.
40	I love owning a business in Siloam. It is typically easier to deal with Siloam administration than other cities in NWA. Please keep it more streamline with licensing and other official tasks.
41	The Downtown area.
42	I love the small town community feel
43	The community, downtown is beautiful, it's pretty clean and lots of small businesses and restaurants in town.
44	Modest size, parks & walking trails & bike trails, city lake, downtown quaintness, beautiful bridges, library & amphitheater, soccer complex. Wide sidewalks (let's get more!).
45	I love the long trail so I can walk or run as much as I want instead of doing circles
46	I love, love, love it's downtown - the businesses, the parks, the creek that flows through it.
47	The small-town feel. The Dogwood festival and Homegrown Festival. The community activities.
48	The small town feel we maintain even though the town is growing.

49	That at heart, it's still the same small town I grew up in, even though it's doubled in size.
50	The small town feel with some modern conveniences. It has a neighborly feel where you know the names of shop and business owners and they know you. I love that we have a strong sense of community and work to support each other.
51	Dogwood Trail, Downtown, small town feel yet amenities of a big town.
52	I love you have a kids fishing derby.
53	Love the people here, also the small town feel
54	Size of town, City Government, Good School system
55	Small town atmosphere. Downtown Siloam is unique, cute and gives an old town vibe. The Siloam community has a lot to offer and has a lot of potential.
56	The quiet and peacefulness of our parks.
57	Small town. Don't turn us into Bentonville or Rogers.
58	The small town feel. The conservative values. Our church.
59	Beautiful downtown. Great walking trails/paths system.
60	The city continues to invest in recreation.
61	The atmosphere
62	The sense of community and how it feels like home even as it grows
63	The small town feel and ease in getting around.
64	The people!
65	The beautiful old buildings and homes and the small-town feel while still meeting most needs and wants of it's residents. Siloam is quality despite being so small.
66	I love downtown, the parks & walking trails
67	I love our green spaces, community events, and our downtown. I love the small town feel and a sense of kindness and community from residence.
68	Friendly and helpful community, great scenery
69	Trails and sidewalks that create connectivity to downtown. The downtown shops, parks, atmosphere
70	The small town feel
71	Downtown shops and restaurants and lots of greenspace i.e. parks and trails. The amphitheater and memorial park as well as the library have been highlights for our family the since they were all completed. City lake trails are amazing.
72	I love the downtown shopping and dining and city parks! They are beautiful and inviting and have that quintessential small town feel!
73	Rhe fact it's growing but still maintains a small town feel with the historic downtown
74	The beauty

75	Downtown, the library, programs like daddy daughter dance and mother son dance. Homegrown festival. Safe neighborhoods
76	Small Town feel.
77	School District, it's growing with order, cleanliness.
78	Parks are great and downtown is alive.
79	I love our downtown area and local shops.
80	The community feel
81	Small town feel
82	The downtown area
83	Green areas/ environment Family activities Small town with such beautiful views Peaceful
84	Small town that seems to keep things up. Great downtown. Dogwood festival
85	Nothing because there is nothing to do. All there is to eat really is fast food and that gets old.
86	Downtown! Plus the Bike trails.
87	The History, the downtown, local shops and restaurants
88	Farmers market. Downtown. Small local shops and restaurants. THE PEOPLE!
89	Downtown!
90	I was born and raised here. I love the downtown area.
91	Nice pleasant town
92	All the new park facilities, the artwork installations, and new businesses being added to the downtown area. It's so awesome to see how far it has come the last ten years.
93	The people, downtown walks, small town feel, family oriented, safety, conservatism, influence of faith,
94	Small town feel, awesome business owners, strong city leadership, good selection of food and businesses
95	Ivory Bill Brewery and John Brown University.
96	The small town feel & the friendliness.
97	Small town feel but so many conveniences. Great parks. Mountain biking.
98	Small town feel
99	Small town feel and downtown area!
100	I love the small town feel. When you walk downtown you see the same familiar faces.
101	How tight knit the community is.
102	The small town feel and the safety of the town. I hope my kids can enjoy it like I did.
103	That we are getting more eateries in Siloam, keeping the downtown area in beautiful flowers in the Spring and Summer

104	The community and how there is something to do at each time of day!!
105	Veterans Memorial, park and open theatre below it, Farmers Market, Parks, Downtown area.
106	Small town feel, friends and family that live here
107	Downtown area and the walkable spaces. Also love the new amphitheater.
108	Small town with all the basic amenities. Always feel at home everywhere you go. Small business central.
109	Quaint, homey downtown. Parks with trails downtown, the dog park/sand volleyball courts/tennis & BB courts/skate park. Aquatic park.
110	Small town
111	It is or has a small town feel I like to see growth, I also like it to stay smaller not get to be a big city.
112	I like the way the downtown area looks and feels. Reminds me of the old school tyoe downtown area but it also has the upscale vibe to it. I also enjoy the amount of natural asthetics involved with the plannong in that area. Things seem to flow withthe land.
113	I love the small-town feel it gives. It feels asif everyone knows one another. Siloam feels very welcoming. People actually seem to care about oneanother.
114	Limited traffic
115	Small town off of the I49 corridor.
116	Small town feel
117	the people! My hometown feel
118	Natural beauty and low crime
119	The "Mayberry" feel. Big enough, but not a big city. The culture. The downtown.
120	Downtown, walkability, trail systems, small businesses
121	The small home town feel. The simple beauty.
122	A beautiful downtown, business friendly and thefountains.
123	I like the small town vibe
124	Small town with a vibrant downtown!
125	The beautiful and thriving Main Street
126	The parks, the creek, and friendly people.
127	Small town feel with a moral compass that continues our strong conservative roots!
128	I love that it is a growing community. I like that Siloam is beginning to offer some of the positives of the corridor cities in the metro without asmany of the negatives that come with living in Fay, Bville,

	etc...I love that in some ways we stillhave kept our small town feel while also growing.
129	Small town feel. Everyone is willing to help insome way.
130	Beauty
131	The beauty of the parks and creek. The generosity and kindness of the citizens The Christian principles that guide decisions The prosperity andpeace
132	I love the quaint small town feel of Siloam Springs today.
133	I love that businesses are opening up, and creating a larger tax base, and jobs for thousands of people in the area.
134	The history. The buildings and houses. Feelingrelatively safe.
135	Natural beauty
136	The small town atmosphere and the beautiful downtown features.
137	Community people the love of God in our community.
138	Small town feel yet with some big city qualities
139	The people and how they are willing to jump in and help when needed
140	The small town atmosphere and the general senseof place in the community.
141	I was born and raised here and I travel for a living, thought all my travels I have yet to find a place I'd rather live. I enjoy the history of our small town as well as the majority of the people who live here.
142	family-friendly, beautiful downtown areas and parks
143	The thriving downtown area,
144	It has a strong economic base with a really nicequality of life features like the downtown, trails, parks and recreation. I also like the size that is not small but also not so large that one doesn't have the opportunity to make a difference in the community. It is great having a university in town.
145	I love the green area.
146	Small town feel, Sager Creek, Downtown, Parks and trails, the library, the splash pad, dog park, etc.
147	The beauty of our historic districts. We need more areas to become historic districts so that buildings and homes can remain in tact.
148	It's my second home town. I shop in Siloam andthe Dogwood Festival is my favorite event.
149	Being able to go to really nice outdoor places downtown and all of the community activities
150	We have a beautiful downtown area.
151	Slower paced and friendliness.
152	Trails, open spaces, clean

153	The people and the public spaces, particularly by the library and downtown.
154	Downtown area.
155	Family/community atmosphere; easy commutes; vibrant downtown; library
156	The small town feel.
157	Our small town feel, our beautiful downtown, the local shops and restaurants and the new and improved city lake and trails and the beautiful trails around JBU.
158	The parks, green space and bike trails and downtown
159	Small town atmosphere with lots of arts/literary/diversity...beautiful and community minded.
160	Smallness, local businesses, art downtown, mini libraries
161	The work Main Street has done. The park system. Farmers market. Multiculturalism.
162	The downtown area, trails, waterway, 412 shopping district, parks
163	The small town feel, beautiful place. Jbu influence, biking and walking trails, downtown, safe and family friendly.
164	That it's growing
165	The downtown area
166	Its small town charm
167	Small town feel. Big town accessibility. Lots of churches. Great community feeling.
168	Most in town are conservatives
169	I love that we are beginning a big town with the small town feel. I love that we take care of our parks. I love that we are getting more family things to do.
170	The library The restoration of Main Street/Downtown
171	small town feel
172	The quaint downtown area is great. The park downtown is nice, if a little small.
173	The history
174	I love the small town feel
175	Downtown walkability. Small town feel. Integration of nature into downtown.
176	Walking trails
177	My Beautiful Home Town
178	From the strength of our community to the preservation of our beautiful downtown. I love how proactive Siloam has been over the years.
179	JBU
180	The small town feel that has remained intact even with the recent growth.

181	The downtown revitalization and the development of parks and other recreational destinations to bring people and money into the community
182	Safety and local businesses
183	The small town feel. It has areas that are beautiful, like the new amphitheater, downtown, several neighborhoods. I love that the city offers activities like the festivals, daddy daughter dance, etc. I love that it is fairly easy to get around. It's nice that you can give easy to follow directions to out of town guests. I love that we are starting to see a greater variety of restaurants and stores, both locally owned and chains.
184	The shops, City Park, kind police officers, everything is about 5 minutes away
185	Friendly, easy to get around our town
186	The investment in downtown and beautification of the city. This comes from both the municipal investment and the individual investment in people's businesses and homes. I love the trails (I run them 3-4 times per week) and would love to see more of them.
187	Walking trails, home town feel--not a metropolis, friendly community, city services, beautiful landscaping by the city,
188	The charm, the schools, the safety,
189	I love the parks and trails.
190	Downtown! The park, the restaurants, the shops!
191	A bigger size city with small town feeling. 9
192	I love downtown and I absolutely love the small town feel.
193	I love that the historic district downtown is being preserved. Parks and public areas are always kept clean.
194	?
195	That still has a small town feel, also safety still at an acceptable level
196	Small town community
197	Parks and bike trails
198	The downtown area has this comforting, progressive (yet vintage) feel to it. Great place to take photos and to hold festivals because of its vibe.
199	Small town feel
200	downtown, parks, trails, most but all the people
201	Downtown is lovely. We have great things to do outside when the weather is beautiful.
202	The parks
203	Low crime
204	Parks, biking/hiking/walking trails, schools, recent city improvements (library, amphitheater, etc.), downtown area and small town businesses there and throughout city, smaller feel with many of the bigger city amenities

205	I love that it has the bedroom community feel and that it is disconnected from the NWA Metro area.
206	Friendly small town feel
207	Wide variety of stores. Dont need to travel forsupplies and needs.
208	The PEOPLE! The character (creek running throughdowntown, park behind the library)
209	The local business and safety
210	The small town community feel.
211	The continued beautification of downtown.
212	The creek downtown area.
213	It's beauty and cleanliness
214	It has a small community feel. Most neighborhoods are safe and quiet.
215	The beautiful parks and updated down town and all the great trail systems
216	Small town atmosphere
217	The people
218	Great community of people, family feels safe, great schools, some good food options.
219	Size ad population
220	Our schools
221	The trails and parks and greenway.
222	well its a nice quit town and I think that theyneeds more active for the town by keeping the city clean and the roads fix . I think with this covid19 has put a lot of things off and things to do .if people will just do there part
223	As of March of 2021, the city is clean and relatively free of stray animals at large. Currently there's only a minimal amount of graffiti and gangrelated crimes.
224	I love our downtown. How friendly people are
225	It's a small town awesome to raise children.
226	The small town feel, sense of community and truecare for one another. I'm from a major city so I never experienced this until moving here.
227	Town looks to make outdoor recreation more available
228	I love downtown, the walking trails, and the newCity Lake trails.
229	Water flowing park area
230	Small town feel and conservative values
231	I love the aesthetics of the town and that it offers a lot of small business and outdoor activities.
232	The beauty and simplicity.
233	The size, location, low crime, small town feel.I love downtown Siloam and the trails around JBU.
234	Quiet, peaceful

235	I like the parks and walking trails available
236	Not much, you're wasted money making the streets next to impossible to drive on. Run places that employ people away and don't try to replace them. You want a bed and breakfast town. You have allowed things to come into our town that I'm ashamed of. I've lived here my whole life and the leadership of this town is the worst I've seen.yes
237	I love the small town atmosphere and attitude of caring for people in our community. This is a wonderful place to raise your family.
238	small town, very little traffic, Bible belt
239	Quiet. Safe
240	The small town feel
241	Small town
242	The friendly community and downtown environment.I love that Siloam is vibrant and unique, keeping its hometown spirit. It's a refreshing break fromthe over-produced and commercialized way the rest of NWA has began to develop. Siloam still belongsto people in the community, not developers and out-of-town interests that might like to turn it into something else.
243	The people of Siloam Springs are the best! They're friendly, helpful and easy to talk to. The small town feel of this city gives a comfortable, safeplace for it's residents.
244	John Brown University and the lack of traffic like corridor people put up with.
245	John Brown University and the lack of traffic like people on the corridor have to put up with.
246	The downtown area; the small town feel of knowing many people, and the friendliness of people having time to talk. This is encouraged by the increasing layout of the city with emphasis on foot traffic, sidewalks, bike lanes, etc.
247	Siloam is growing but still has that small townfeel.
248	The size of the town, its schools including thenew Sager Creek Academy, the downtown area, the Christmas parade, the local doctors and hospital, the library and all the parks, the bike trails, the swim pool and swim lessons, Camp Siloam, the Mannacenter, Kind at Heart, walking trails especially along Sager Creek, the upgraded fire department
249	I love all of the parks and beautiful fountainsaround town. Would like to see more flowers. The farmers market is great but would love to see it grow.
250	Conservative values of most people and small-town atmosphere
251	The small town feel even though we are growing.I like that we are close enough to Springdale, Fayetteville, Rogers and Bentonville to take advantage of shopping and entertainment.
252	The people in the city are all connected and care for each other in a way I've never see

253	I enjoy the small town culture and feel, while still being close to larger communities, shopping, and opportunities. I appreciate the variety of people that live in Siloam Springs from other areas of the country, as well as the beauty and upkeep of the town.
254	Bike trails
255	Small town feel with a progressive vision for the downtown area.
256	I love that it's still small and has that small town feel. I love that John Brown University brings uniqueness, fun, beauty and sports. I love the country rural roads and quaintness that makes it feel like I can escape the "bigness" of surrounding cities like Fayetteville and Springdale.
257	Small town community John Brown University "Country feel" - feels safe Thriving downtown businesses
258	Friendly hometown feel
259	I love the that we are getting a lot of new stores and restaurants!
260	Small town feel- but it's changing.
261	The beauty and of the town itself and many manyfriendly people who live here.
262	The small town atmosphere. The feeling of safety and gentleness, though that is lessening.
263	Its a nice place to live. It's growing and exciting things are happening here. People care about this community and are actively working o make it better. We have fun things to do and places to go. Downtown is charming. And we just really love being here.
264	the family and morally clean atmosphere
265	walkable, beautiful downtown. great library/Memorial park, Farmers Market. creek/fountains/gazebos. JBU campus/trails. entrance to town from 412.improving historic neighborhoods, twice yearly trash clean-up, visible police presence, active communities of faith-spirit of helping
266	Small town life. Easy to get around.
267	The community of people, the progressions our town has made, a comfortable environment.
268	small town atmosphere.
269	Small town with a traditional base.
270	I love our rich history, especially that of being a Christian environment which has facilitated a wonderful environment for families.
271	The small town feel

272	Small town atmosphere yet close to big city amenities. Downtown area Parks/Walking trails Schools Hospital
273	Small town with lots of community activities. Family-oriented.
274	Small population. Great school district. Walking trails and local restaurants and small businesses.
275	family friendly and safe, lots of community events and resources. Cost of living is fair. city admin is accessible and city services are GREAT. Having moved from a much larger city 100k+ citizens, I'm impressed by how much the city offers residentsgiven the lower tax income we receive.
276	The thriving downtown, small town feel, ethnic diversity, school district, JBU, active non profits
277	I love the Christian influence that JBU and DaySpring have the community. I love all the free annual activities for families like the Dogwood Fest,Homegrown Fest, Chalk in the Park, etc.
278	Large town convenience -safe small-town feel.Friendly, open to new ideas with a respect for the past.
279	Downtown mostly thriving. Walking/riding trails.City Lake park
280	Addition of mountain bike trails and city lake park. The new art downtown and the business development downtown. The Lanker family vision for newbusinesses.
281	No-nonsense, small-town vibe that hasn't beenregulated to death in an effort to artificially create some utopian vision.
282	Small, cute, conservative, Midwest town.
283	Love downtown, the parks, trails, etc.
284	Downtown, parks, etc
285	The downtown area is actually somewhere I like to go (rather than having to drive to Fayetteville or Rogers to shop or eat or hang out).
286	Small town feel, family oriented, distinctive community character, fiscally responsible, business friendly, safe & healthy, innovative.
287	New businesses. Beautiful down town aera alongthe creek. Walking trails.
288	Beautiful town town aera along the creek; walking trails, new businesses coming.
289	Community events such as Downtown things:girls night, homegrown festival, Christmas open house; team sports leagues; small town feel; the parks; local businesses
290	I like the downtown area, the parks, the people
291	Small town and quaint downtown, but close to bigcities.
292	Downtown
293	It small town ,caring willing to help anyone inneed

294	I was born and raised here and moved back over 25 years ago. I love the small town feel and the beauty of our downtown. I love that the people are generally good, kind people. I love the services and goods that are available.
295	The small town feel
296	The friendliness of people
297	Safe, lots of outdoor activities.
298	It still has a small town feel about it. I think it's a pretty little City
299	some of things
300	The upkeep of parks and recreation!
301	Beautiful downtown, love the park and walking paths. Old architecture
302	We moved to Siloam Springs in the fall of 2019 because of it's reasonable size, easy to get around, new areas are well planned, good walking trails, parks, recreation areas and City Management.
303	small town feel.
304	The trails and outdoor recreational areas.
305	*The small-town feel. *That there are a lot of local shops/restaurants. *The outdoor parks/attractions(city lake, kayak park ect..) *The farmersmarket.
306	The beauty
307	Quiet, friendly and respectful city.
308	The small town feel, but also the more metropolitan amenities that are moving in as we expand.
309	Small town feel
310	Parks
311	the springs and old folk victorian homes
312	Friendly place for lots of very different folks!
313	The skate park downtown is our favorite spot and has great potential.
314	Nothing really. It is not the same town and I do not like it anymore.
315	Love our downtown, community as a whole and all the people here in siloam springs.
316	I love that Siloam Springs is my hometown. I've seen many changes over the years and most have been positive. So thankful it isn't on the 49 corridor, but close enough. It's a wonderful place to live!
317	Downtown area. Local business support.
318	Small town feel.
319	I love the parks, the downtown area, my neighbors, the college, and the people.

320	Small town feel Feels safe to raise children I enjoy the improvements in downtown Nice to have growth but still affordable to live
321	The small town feel. The rich moral and family values.
322	Community
323	The parks and downtown. The fact that so many old buildings are still there. However if you don't live here you don't know much about it. Need more monuments that post clips of historical things/ events
324	That it has grown in the right ways. There is always room for improvement however, I love that we are growing while keeping the small town feel of everything.
325	Small town atmosphere
326	Walking trails Beauty of downtown buildings
327	small town with vintage character, and especially the mom/pop businesses instead of national chain businesses. I love my caring neighbors.
328	Good roads
329	Town growth and the people
330	Community
331	Small town feel, uncrowded, lots of trails and parks
332	I love the downtown area here and the overall feel of community.
333	The trees.
334	The small town home feeling.
335	Small town feel with some great modern amenities.
336	love the parks, all the remodeled old houses and all the small businesses. i love the small town feel. support local!
337	That we are continuing to go and still have the small town vibe to the town.
338	Good growth
339	Offers so many options for all aspects of daily life
340	Small town feel, quaint
341	The fact that we are still somewhat small town, and we still have a close community.
342	Parks, trails, creek. Siloam Springs has lots of outside spaces and activities for all ages. Sense of community, businesses and community work together to make Siloam Springs a great place to live, work, and visit.
343	Its a beautiful smaller city feel but close enough to other cities or state/national parks which gives residents plenty to enjoy.
344	I love that we have a thriving downtown area. It's absolutely one of my favorite things about Siloam. I also love that we are growing and expanding and offering more and more to citizens while still maintaining that small town feel.

345	Small town feel
346	I love the restaurants, and I now do not see a need to leave town to go out to eat.
347	love the downtown area- specifically how Sager Creek, the downtown parks, and businesses create a wonderful place for visitors and locals
348	Quiet neighborhoods with kind neighbors.
349	Parks, walking trails, revitalized downtown, schools
350	Small town community events and festivities, farmers market, downtown shopping with small private businesses, schools, fireworks during 4th of July
351	Small town atmosphere. Different and unique culture blend of OK with the unique culture of the NWA farmer. Schools small and personable. People are family focused
352	The community feel. I love the small town aspect that you know your neighbors.
353	The rivitalized downtown with the creekside and ash and ember vibe. The historical stuff and the creek.
354	The small town feel
355	It is relatively quiet and simple. It doesn't need the flare of a big city. Right now Siloam understands who they are, and I hope we don't lose that.
356	What I LOVE about Siloam Springs today is the historical look downtown with the gazebo down town and all. I feel like the city is very kid and family friendly. My kids enjoy the new water feature for the summer time. I just love our city and I am truly thankful to be working within the city too.
357	It's safe and family oriented
358	The walkability, the small businesses, the downtown area and parks.
359	The parks and trail systems
360	Size, downtown, people, the look of it
361	I love the connection Siloam Springs has with the nature around it. When the park was built behind the library, a lot of thought and care went into it.
362	That its a Christian town and peaceful.
363	The amount of green space, water (creeks) and small town feel.
364	Natural beauty
365	The trails and activities that are offered. The clean appearance.
366	It's relatively safe, people look out for each other, schools are great, lots of great small businesses, and the town itself is beautiful- lots of great parks and walking trails.
367	Small town feel but with adequate amenities
368	Small town feel
369	The parks are well maintained

370	Beautiful parks and downtown. Also the recreational amenities
371	growing community.
372	Beauty
373	The people in the area and the ease of getting around the city. Growth has been moderate and sustainable. Not blowing up like some of our neighbors to our east along the I49 corridor.
374	I love that it's small and beautiful
375	Small town feel, family oriented, low crime.
376	Outdoor options for entertainment
377	A nice atmosphere that is not rushed. Cool DownTown
378	Community
379	The beauty of the downtown area. Sager Creek, the fountains, gazebo, trees....
380	Quiet, small town
381	I love our downtown. Any and all improvements to the buildings is greatly appreciated. I love our parks (downtown and city lake). I love the events (ladies night, Homegrown fair in the fall, Dogwood Festival, Christmas Parade). All the things that give a town that small town community feel.
382	The outdoor areas and parks to walk and take the dogs. I love the accessibility to walk from the coffee shop to the park and back home.
383	A lot of the things I enjoyed have been ruined by recent projects (see below).
384	I love the focus on small businesses and the small town feel of Siloam along with its dedication to preserving the historic districts and dedication to provide quality education to students of all sociology-economic status. In short, I LOVE the focus on community!
385	Schools, cleanliness
386	I love that it is a small town, yet has more than 1 grocery store and many restaurants. I love having the Flyers swim team and homeschool groups for my kids. The parks and trail systems are great. I love the natural beauty of the trees, creeks, flowers through town and outside the city limits. I am very happy that Siloam has an affordable garbage transfer station in which we can bring our garbage and recyclables.
387	The small community feel.
388	The people
389	Siloam Springs has a really beautiful downtown and the community events such as the Dogwood festival are really fun.
390	The parks and trails. Dog park
391	people, parks, trails, finally some good place to eat
392	I love our parks and natural walking areas. I also love all of our local restaurants and stores. The town feels like such a community and it is refreshing.

393	Small town
394	Small town feel, natural beauty of our creek and parks.
395	I like that there is a lot of nature involved.
396	Siloam Springs has a nice-looking downtown area, and a lot of good restaurants to eat at.
397	Lots of public spaces open for beautiful photo opportunities. Full of nature.
398	I love the community that Siloam Springs has and the events that brings everyone together.
399	I love that the whole town can kind of get along with each other, that it's a good place to grow a family, and that it has a down to earth community.
400	It's size, geographic location and that it is a good place to raise a family.
401	The park! Gazebo and new library space are beautiful!
402	Beauty of the city and moral values
403	I love Siloam's faith and family focused community. The beautiful parks and quaint downtown are charming and welcoming. The library is a great resource, it connects people, and its programs are engaging. I appreciate the safe neighborhoods and clean town. It is a warm, positive community that has retained its small town qualities.
404	The friendliness of the people and the beauty of the town
405	The parks, playgrounds, river
406	I enjoy seeing people outside walking, riding bicycles, and being neighborly. Dogs are a big part of life in Siloam, and it's fun to see them everywhere -- even in stores!! The parks are a special treat in the City as well as Sagar Creek and the fountains! I like walking over the bridges. :) I think it's a very special thing that so many international businesses choose Siloam as their headquarters. We are also honored to have John Brown University here with the great students, faculty and staff.
407	Its beautiful. Well maintained. Parks are great.
408	Small town feel Downtown Walkable
409	The Parks are very nice
410	The friendly, God loving, small town feel.
411	I love the down home feeling of Siloam.
412	Small town feel with outdoor amenities for families who like to stay active.
413	The small town charm, friendly people, the historic downtown area, the walking trails, Sager Creek's fountains, the dog park, the JBU campus..
414	Small town feel with some larger area amenities; close-knit community

415	The people of the community
416	Parks and safety
417	I love the tight knit community and the activities that are always popping up downtown.
418	The diversity of restaurants and stores in town! So many options and looking forward to even more in the future.
419	Small town feel. Downtown has many shops and is alive. Love trails for activity.
420	Great walking and biking trails. Good places to kayak or float. Friendly people.
421	Small town feel. Still mostly conservative.
422	The quaint and small town feeling.
423	The renewed downtown area has made Siloam a much more attractive town to live in and visit. Events downtown are building more local community. The parks dept. have also made the town more beautiful than I've seen it since moving here 17 years ago. Downtown Siloam is a great place to walk, shop, eat, work, and enjoy the outdoors. Bike lanes, additional sidewalks, and the trail around town add outdoor recreation and travel opportunities as well.
424	The small town feel, along with eclectic
425	Small town feel but proximity to the corridor
426	Siloam Springs is a small city that has a fair amount of amenities available for her residents.
427	I love that it still feels like a small town. I enjoy the feeling of Mayberry even though we have over 15000 people.
428	Small town feel. Nice parks. Safe, friendly place to raise a family. Good schools. Great downtown. Sidewalks.
429	Siloam Springs is a growing community with a small town feel. That is what I love so much.
430	I love the focus on creating outdoor activities and venues for families. I love that the downtown area has been revitalized with quirky shops and businesses. The city lake park is really great too. Pump track is a big hit with my family along with the creek. Great job on those projects.
431	The beauty of downtown, expansion of the walking/biking trails, the amphitheater area-Memorial park, the farmers market, the library, the expansion at City Lake Park, even though we are growing-the small town feel, the continued growth of local small businesses
432	The small town feel, but with more things to do.
433	Siloam is a good place to raise a family.
434	Safety, quiet small town, great neighborhoods, fun things to do.
435	The walking trails, parks, downtown.
436	The downtown is really coming along great. It is a fun place to take my family and kids.
437	The small town feel and the whole downtown area.
438	I love our downtown. I like the walkability of it. I love the people.

439	I love the how our city is embracing growth along HWY 412, while also continuing to cultivate our historic downtown. I feel like this combination isa incredible blend that brings a unique living experience to our town. I also like how we are keeping up with the NW Arkansas trend of implementing walking trails, bike trails, farmer's markets, etc..we are utilizing the natural state while providing neat and healthy opportunities for all who reside here.
440	I've been here since 1989 and love this town. Ihave loved the small community feel. Love the walking trails and the city lake park. Love the kayakpark and the opportunities to have family time. I have raised my two boys here and hope to be here for my grandkids.
441	I love the easy, simple feel of the town. Thereis not a ton of traffic, or the fast pace speed of a major city. People are nice. I enjoy the peaceof the parks.
442	I like the small town feel. I love the walkingtrails and the downtown restaurants and businesses.
443	I LOVE that Siloam Springs has a small town feelbut it's not a SMALL TOWN. I LOVE that the people care about keeping Siloam nice and take pride inthe downtown area.
444	I was born and raised here, I like the smaller town feeling.
445	I love the small town feel but with some amenities.
446	The small-town vibe and friendliness.
447	I love that we have a "downtown" still.
448	The fountains downtown; the murals and seating outside the library, the amphitheater, and the gazebo.
449	I love that while the city is growing, it stillhas a "small town" feel. I also love the walking trails that are available along with sidewalks,crosswalks, etc.
450	The comfortable, safe feel and downtown.
451	I love the sense of community we have throughoutthe year with events such as the Christmas Parade, Dogwood Festival, fireworks at the airport, Turkey Trot, etc. I also love how downtown has been revitalized making if more appealing and welcoming.
452	The small town feel. Our outdoor options for recreation is another thing I love.
453	Location of the city, NW Arkansas
454	I love our parks and outdoor areas. Downtown isbecoming more attractive. I also appreciate the safety I feel in our community.
455	I love the close knit community and small town feel. I had the opportunity to move away from Siloam a few years ago and specifically chose not to because the quieter and safer and friendlier town of Siloam was more attractive to us a young and growing family.

456	Well-loved downtown, walking trails, safety, culture, small businesses, proximity to hiking trails plus shopping and cultural centers in the corridor without having to live there. Low cost of housing, small town feel for the most part, although that is diminishing because of new subdivisions and commercial development (sometimes for no reason--i.e. Newks and other restaurants that closed after developing the land needlessly) on 412.
457	I love that it's safe for my family. I love theparks and walking trails. I love the school district. I love the Dogwood Festival.
458	Not too big, not too small. Attractive character of the town. Diverse aspects ~ JBU, sports complexes, farmers market, active arts emphasis etc.
459	It is a family friendly tight knit community. Ialso love how they use/restore/repurpose older stores/homes and focus on making our community beautiful and a nice place to live.
460	Small town
461	Public areas
462	The small "Home Town" feel. The improvement and growth of the downtown area is a plus that has helped make our town inviting to potential businesses and families. I feel that our school system, library, parks and recreation offer a variety ofopportunities for students to grow, learn and be a part of a community.
463	We still have some of the small town feel.
464	Small town sense of community. Comunity of faith. Seems to try to preserve historic while being progressive at the same time. Cost of living islower (a little). We live 3 mi outside of town near the river. It is great to be near nature anda short drive to town.
465	downtown, parks, atmosphere on main st.
466	Like the fact it isn't too busy however that isgoing to change. There is no stopping the growth. It's a runaway train. It still has a middle suburban feel.
467	Siloam Springs is still small enough that it truly has a sense of community
468	That it is a medium-sized community with slow enough growth that we can keep up with infrastructure needs. Good school system. Good business opportunities.
469	It's the small town I wish I had grown up in. Wonderful parks, library, school system, and most importantly the people.
470	The convenience of essential merchantile businesses.
471	I love the size, side walks all over town, and the small unique businesses that give downtown a quaint and personal feel.
472	Trails and parks. Many companies that provide employment. Hospital, schools, active chamber of commerce, reasonable road maintenance, city council that supports beautification projects, less

	traffic than the big cities, variety of stores. Water quality. Lots of services for special needs children.
473	The parks and recreation are great. Kayak park is amazing.
474	Kayak Park, The Trials, parks and thrift stores!!
475	Small town friendliness within the community
476	The downtown community is friendly and unique.
477	Siloam is attractive. Downtown and the surrounding areas are pleasant. There are great businesses available to our community. The people are kind and receptive to each other. Fun community events.
478	Love how they are connecting all of the trails and focus is on being active along with the rest of Northwest Arkansas
479	Still a small town attitude
480	The family friendly atmosphere as well as the charming downtown area. The parks and rec do a phenomenal job taking care of our city.
481	We enjoy the Dogwood Trail, especially through the JBU campus near the river, but also the bridges and winding trail. City Lake Park is a nice addition with the trails and pump park. I like the renovations on old houses that are being used for businesses.
482	I love the small town atmosphere. I love knowing everyone. I love the dogwood trees.
483	The trails, parks, and outdoor activities for families.
484	The quaintness and small town feel. Love our downtown area
485	I really love the family friendly and outdoor activities like the walking trails, hiking trails, bike park and splash pad. It currently has a community feeling where it's not a very small town but certainly not a larger city where people can get completely lost in. We have appreciated the events that families in the community in general have been invited to participate in. Some of our favorite yearly events have included the Dogwood Festival, fireworks on Independence Day and Christmas parade.
486	Small town feel Scenic beauty Friendly people
487	Small town atmosphere
488	walkable downtown, mixed land use, historic homes and buildings, bike trails
489	The heart of downtown
490	People, local small business, and school systems.
491	Still small enough not to get lost
492	I used to love the size of Siloam until Siloam had decided everyone under the sun must build housing, and rentals. How do we support all these people without more places to work?

493	Our parks, downtown, walking trails, and our school system.
494	the character
495	Our pretty parks, Siloam Springs Rodeo, Downtown.
496	Small town feel, green space/trails
497	All of the improvements and dedication to making downtown thrive.
498	The beauty
499	Parks and creek
500	The small town feel
501	Progressive small town
502	That it is a safe, supportive community to raise children in.
503	I love the small town feel, walking downtown, the dogwood walking trails.
504	The natural setting is gorgeous. The downtown and library area are beautiful and we love the Dogwood Festival. I am also really happy with the work done at City Lake.
505	Welcoming community, revitalized downtown, partnership with schools (SSSD and JBU), Recycling program
506	The peacefulness and amount of things to explore
507	The trails, parks, sports fields, green spaces, the vibrant downtown area
508	The waterways we are so fortunate to have. The Illinois River and Sager Creek and Flint Creek and Osage Creek and Cincinnati Creek. The Siloam Springs Kayak Park and the new WOKA.
509	Dogwood trail, city lake trails and pump track, our new library and Amphitheater, well cared for streets, parks, and walking paths. Parks and recreation events, boys and girls club, book bins to share books you want to pass on, the little free pantry at Grace church, and the Garden project.
510	Downtown
511	downtown
512	Friendly people, walkable downtown, amenities, outdoor activities
513	Small town feel. Plenty of parks
514	small town with plenty of trees and plants and not too much sprawl or vast paved expanses
515	Small town atmosphere and great people.
516	Invested community - people caring about our city and the people in it. Green spaces - the parks and trails are our favorite place to be outside our home. Cultural diversity - love opportunities to get to know others different than myself.
517	Though there are many progressive aspects, there is still a small town feel. People are not in too much of a hurry to say hello and be friendly. The foot traffic downtown is a great way of encouraging that. The outdoor enthusiasm is a recent excellent addition.

518	Small town
519	Parks and trails
520	LOTS OF GREEN SPACES
521	Many of the people in Siloam Springs care about each other, and want to see everyone succeed. I appreciate that the local government and organizations work to support local businesses and non-profits.
522	Safe, business-friendly, not too much multi-housing, good police force
523	I love how much smaller this town is than the surrounding towns. I also love the buildings downtown and the sweet little neighborhood I live in.
524	The way the city is being updated.
525	I love the small businesses in Siloam. I appreciate Siloam's 'welcome home', feel. Siloam Springs has also been a very clean and safe place to live.
526	Small town feel, but with enough variety of shops and activities to keep me from driving to a bigger town.
527	Being surrounded by Nature
528	Walking trails, new Library, good streets, friendly residents.
529	The parks, downtown, cost of living.
530	Small town
531	The parks and downtown area
532	I love its beauty, the cute downtown places, the friendly people, and the ability to have most necessities here in the town.
533	I love our downtown area. Our facilities like schools and our hospital. Very proud we are the home of a Christian based university. And I have to mention that I'm glad we don't have anything close to the traffic problems of our neighbors to our East. Our people are generally polite and considerate. Our public employees seem to take great pride in the work
534	The parks, and quaint small town feel
535	The small historic town feel The opportunities to walk, hike and bike
536	The Downtown area. Its what made me want to move here
537	I love all the local shops and restaurants that give Siloam Springs such charm. I love all the places I can go for a walk, ride bikes, and take my child to play. The many water features and abundance of trees, hills, and nature don't hurt either.
538	Small town atmosphere, Good school system
539	Small town feel, love the downtown area. Love the old Sager Creek area. I like the new businesses and eateries on 412. The things I like most are the city feeling around 412 and the small town feeling of the downtown area. I love going to the Tap Room, 28 Springs and Ivory Bill.
540	The small community, downtown, focus on local and small business

541	Peace around the city
542	Emerging but small city feel
543	It's a big little town.
544	Small hometown city
545	Small town feel
546	Downtown
547	Quiet and safe
548	That we are not a big city type of town.
549	I love the downtown area where the park, fountain, waterfall, bridge, amphitheater are.
550	Small and mid-town feel yet as elegant as a person wants. It's history!
551	Perfect size city for me and my family. Safe, affordable and so many amenities. Parks, the addition of the dog park recently, walking paths, and so much more. I like that it's not on top of other cities so hard for those issues to spill over into Siloam. Love the location - close to Tulsa for other activities and air travel.
552	The parks & trails.
553	The small town feel. While we are close to NWA corridor, we are still able to feel like we live in a small town.
554	I love the small town feel of Siloam Springs. The parks and things that take place in the parks and town that make it feel like a small town.
555	I love the small town feel of Siloam Springs.
556	The small town feel with plenty of things to do
557	The feel of small town living. The feeling of being home.
558	Beautiful small town near but apart from a large population center.
559	Local atmosphere, including local shops, places to eat, etc.
560	I love the small town atmosphere
561	Small town feel
562	Small town feel
563	That's is pretty, safe, and small.
564	It has a small-town vibe, yet it is steadily growing. I love that more businesses are opening up and that the community is supporting its small businesses.
565	Small town feel
566	Livability, small town atmosphere.
567	I love how walkable downtown has become. We live and own a business downtown and prefer to get about on foot. Seeing friends and neighbors everywhere we go, along with knowing that it is safe for our boys (11 & 13) to explore on their own, makes this a compelling place to call home.
568	The amphitheater and the JBU biking trails. I also like the library and Pure Joy.

569	All of the restaurants downtown, especially Fratellis and Pure Joy. I also like the amphitheater.
570	the landscape of downtown. a creek going thru downtown and tying it all in together
571	The greenery and creeks and rivers.
572	We have some beautiful parks.
573	The downtown area and its walkability, locally owned restaurants and businesses, access to beautiful parks and the springs/creek and the accessiblebike trails (both paved and mountain biking).
574	Lots of green space. Quaint downtown. Amphitheater is fantastic. The format of the schools (fewer grades per campus and no feeder schools). Lots of places to eat and several pet-friendly.
575	It's a beautiful city
576	I love that our small town feels quaint, but not too small. There have been some really amazing things happening downtown and elsewhere in Siloam over the past few years. It's so much more vibrant than when I first moved here a decade ago.
577	Its pretty. I like the traiks and stuff
578	The small town vibes.
579	I love the people, the individuals and the community.
580	Its easy to walk to downtown and all of the parks and trails.
581	How small it is
582	The people
583	Small town traditions- Dogwood Festival, parades, walking trails, parks
584	Variety of food options. Safety.
585	Walking trails, parks, the new space around the library. Revitalized downtown.
586	I love our downtown area, the walkability of the city, and the access to numerous beautiful outdoor spaces.
587	I LOVE the walkability of downtown Siloam Springs, the new park around the Library, the kayak park, and all of the various trails throughout town (Dogwood Springs by the creek near JBU, the new park at City Lake, and the new mountain biking trails north of City Lake).
588	I love our walkable downtown, and all the work that has gone into making it better. I love the trails, the Sager Creek winding through town, the new library and amphitheater. I love the small business community all rooting for each other's success. I love the many small things the city does to help keep it beautiful, like brush pickup and Spring Cleanup. I love Kevin the mailman saying hi. I love that our housing is affordable enough that we attract people of many incomes and backgrounds.
589	The size. Everything is within a 10 minute drive.
590	Historical preservation

591	I love the small town feel, alongside the well engaged and transparent public communication.
592	The downtown and small town feel! Plus, the school district.
593	I love the strong Christian presence of the community and how it undergirds so many of the other reasons I love Siloam, like how there are resources for those in need, people care about each other and beauty is valued.
594	Bicycle friendly, walker friendly; Lovely, friendly community that respects older, historic architecture, while building new visionary buildings...
595	Growing but holding its culture

Is there anything about Siloam Springs today that you would change?	
1	End permits for burning brush piles within the city limits. It's completely unnecessary when the city picks up yard-waste, including tree limbs, monthly, and it's incredibly unfriendly to those with asthma, COPD, or other lung and allergy issues.
2	The baseball park needs to be bulldozed. It's horrible. Build a first class facility that will attract travel tournaments to the area. The city needs to build a HS baseball and softball complex as well.
3	Yes! I would love to see more local businesses in the downtown area and to see downtown expand by a few more blocks. I would like to see more outdoor activities (more bike trails, outdoor games like bocce ball, a larger park near downtown for children).
4	There is no way to commute by bike from the Stonecrest neighborhood to downtown Siloam. We need a bike lane in this area. We also need a traffic light at the corner of Airport Road and hwy 412. That intersection is dangerous. Lastly, I'd like to see more old buildings torn down or renovated before we build new buildings for businesses. There are too many buildings falling into disrepair.
5	There are a lot of fast food restaurants but not that many good sit down restaurants, although the problem is improving. There are very few places to shop. Code enforcement is improving, but there are some junky houses.
6	Accessibility to trails around the whole town and East Main.
7	East Main needs 3 lanes, Mt Olive Bridge 3 lanes, Intersection of Tahlequah and Hico fixed. Stop lights are terribly slow..unresponsive to NO traffic, predominant direction green other flashing red...put side walks on at least one side everywhere. Don't destroy one more historic building, bridge, fountain, curb etc. Make all of downtown dining zone. Residential trash pickup twice a week.
8	More/better parking downtown. Downtown entertainment district.
9	More and updated sidewalks even in older neighborhoods
10	Redo sidewalks, free fun family activities for variety of ages
11	More things for Youth of the town to do better police force and more of a southern type restaurant that's not Mexican or pizza or chicken
12	More connectivity with paved paths
13	A few more options for restaurants, good sit down restaurants, and things for kids and families to do. The things for kids to do are sooo limited here.
14	I would change the minds of those who believe we should be just like towns that are bigger or more 'current' than Siloam Springs. We need to progress who we are, not try to be like others. I'm not happy about some of the changes that have been made, like the changes on Broadway. I don't think they actually thought about who would be using the parking spaces the most with the angled parking. It all just

	seemed like it was unnecessary. The changes for bikes were ridiculous. We don't need them here
15	I would add more businesses.
16	I would like to see better roads with less potholes
17	More community activities. Better, healthy awesome food. Consistency in quality. Organic. Would love an outdoor movie night with good old movies, black and white, family oriented.
18	Lower utility bills, fix the streets
19	More homeschool options and resources.
20	Things open later, more entertainment for downtown Siloam.
21	Less rough Coleman homes, new higher end subdivisions, more set down restaurants, a place to get "heathy" food like a restaurant or specialty grocery store, a access road where 7 brew is going because there is so many wrecks there now, more community events.
22	I would like the stuff geared towards kids done better, fishing derby and such like don't let the fire men fish it the night before and things like that
23	What you call progress is NOT progress. Keep trees, countryside. \$\$ is NOT the most important thing. I hate seeing my hometown turning into a cement hell
24	As for change, I think more in terms of future protection. I would like to see our town protected from over-zealous activism or progressive ideas that would favor a very small number of citizens over the convictions of the majority. I would like to see that our government doesn't go into "business", and that our city council would always hold the needs of the community as the priority. I would like to see the city council solicit outside sources for community development.
25	I would love to see the schools consolidated a bit. K-5 in one school perhaps? I would also love to see a larger community center or at least an updated center. We need to have more public and regularly scheduled gatherings for families. (Think "Sweet Home Alabama" street festival scene with music and dancing in the streets of downtown.)
26	Please turn the lights; that line the road on green poles, on hwy 412 past Walmart, OFF when the area is having to reduce power consumption or just to reduce power in general. Those lights could be stretched all across the Siloam Springs actual line on the highway with no lights to make it safer instead of blowing up that one area with so many unnecessary lights. Also PLEASE no more building houses right beside a factories! Real estate public hearings are not advertised enough KREIN is corrupt.
27	Lower taxes and quit trying to keep up with the Jones. If the corridor is so great then move over there

28	The city of Siloam should not be involved in projects outside the city limits, including the kayak park.
29	Continued growth of outdoor/indoor activities for families. I love the parks and trails our town has, keep expanding our green space and keep our kids active.
30	More family activities.
31	That stupid median on 412
32	The dogwood feativall needs to be more spread out. Not so jammed up. Also more mom and pop shops needed downtown. Its mostly high end. But this isntRoger's.
33	I would like to see the town be more inclusive. More events for families and community events, we have so many amazing people that live in Siloam.
34	I hope the downtown doesn't evolve into a "Dickson Street" atmosphere. Continue to create a wholesome family charm.
35	I'd like to see more shopping opportunities that reduce the sales tax leakage. I'd like more sidewalks and sidepaths, and bike paths. I'd like to see increased landscaping requirements and some limited architectural guidelines for non-residential development. I'd like to see more complete streets, landscaped medians on Hwy 412, better and more proactive planning regulations, as well as nuisance/property management code regulations
36	I know it's not possible but I would love to have a big nice grocery store like Kroger's or HEB.
37	I would like to see more done to restore the twin springs area at bottom of Twin Springs Park. The springs are what Siloam has always been known for and it saddens me to see the condition they have been allowed to get in.
38	Tie in the new areas with trails, bike routes. 412 near WM is a mess!
39	Yes, we need more for the kids. Like a skating rink, or arcade.
40	The Stop light systems are horrible. The six lane system is being used as if it was a standard 5 lane and makes the traffic congestion worse. The roads that intersect 412 need a long timer for signal change, 45 seconds at least to initiate a signal switch. This would keep long lines from forming on 412 and thus create a faster process through town. The six lane represents more of an interstate than a town road and should be utilized more efficiently.
41	More activities/event to attend or to be help on a Friday or Saturday nights
42	Siloam Springs needs more skilled labor and technical positions.
43	To make 412 look a bit better. A few years ago the median was out in. Maybe planting flowers down it would make it look nice to oklahomans coming in.
44	Remove the dog park and restore it to a field. We used to bring 20 kids to play ultimate frisbee on it.
45	No

46	The addition of more bicycle trails and lanes. There's good momentum here, but it needs to keep going. A recreational/trail connection from downtown to the kayak park would be awesome. Also, the development of East Main street should be a priority.
47	I would like to see roads repaired before doing big and unnecessary projects. I would like to see a median put in on 412 for the rest of Siloam so accidents can be avoided. The area in front of Walmart is so dangerous.
48	I would like to see Siloam grow without just modeling itself on the bigger towns that surround us. If I wanted to live in Bentonville or Fayetteville, I would move there. I don't think we should spend so much money trying to be Bentonville.
49	The city government bring way more conservativethan I care for.
50	Stop trying to make us like Fayetteville or anyother large community. WE ARE NOT them and if we wanted to be like Fayetteville, we'd live in Fayetteville.
51	More family events and affordable events involving the parks not just movies.
52	More casual restaurants Downtown, more walking trails, better sidewalks.
53	Crime
54	Continue infrastructure as the town grows.
55	More unique restaurants instead of chain fast food restaurants. Cider rooms and breweries. Siloam has a lot of potential to be a hot spot for tourist. With JBU in town, Siloam should have more to cater towards the younger generation.
56	More police patrols through neighborhoods, more enforcement by the Code Department, and back to twice a week trash pickups! It's ridiculous we got cut to once a week and still have to pay to drop off trash!
57	Downtown parking and bump outs. That was a terrible idea. Put it back the way it was. Do not cater to bicycles most people in Siloam aren't cyclists. The town is catering to a small population and that isn't right.
58	Liberal and federal creep
59	Better infrastructure in sidewalks to connect even more footpaths. Better bicycle lanes, awareness and safety. Diversity in shops, businesses, and people.
60	We need more entertainment related businesses
61	The city needs a sports complex. Imagine converting Franklin into one. Indoors-basketball, volleyball, indoor soccer, training for teams. Outside build baseball/softball fields- turf. Could add retail/food places in front. These buildings could host hundreds of tournaments. Tournaments bring in lots of people. Benefiting hotels, food, and retail=generates tax gains. And it would keep the west side of Siloam relevant.
62	More local restaurants and shops downtown.

63	I feel like traffic is too heavy. Widening 412 helped some but a by-pass is still needed. More entertainment venues would be nice
64	Limited entertainment
65	I would like to bring back the second Saturday music with folk music. I would also improve roads and complete trails to get from town to the new city lake park. I also like to make sure city entities would be given large enough budgets to maintain acceptable equipment and personnel. We should be regularly setting money aside, so we don't have to add new taxes for items that we know we will need in the future, like the water treatment plant.
66	I don't love 412's island and not having a turn lane. Seems like u turns are causing more accidents. Also would love to see certain areas have four way stops that are high car AND people traffic. Folks drive so so fast. I.e: Tulsa and dogwood, Jefferson and dogwood. Similar to what happened at dogwood and university. Also, hearing about far too many home and auto break ins these days, is there a way to curb this?
67	Quit basing Siloam decisions on those of the big cities of NWA. There needs to be more kid friendly activities. Schools need better access in and out of the parking lots or drop off/pick up zones.
68	Fewer apartment complexes. No green bike lanes on roadway and narrowing streets. More share the road markings for bikes but NOT bike lanes. A multiuse trail from downtown to city lake. NO TOBACCO USE AT PARKS. Better traffic control and mitigation at the intersection of Cheri Whitlock and Mt. Olive.
69	We absolutely need a better city aquatic center!! love that JBU allows the high school swim team to use their pool but it should be the city who supports the local athletes and steps up to provide for them. We also need an aquatic center for local residents that is competitive to what the other NWA cities have. We got a new city hall, new police station and finally a new library - I think the aquatic center should be next on the list!
70	There really needs to be some Sort of public transport like bus or taxi
71	An emphasis on not littering . Obviously not a high value here
72	More sidewalks and extension of the dogwood biketrail
73	Not really
74	More open attitude toward diverse people in races well as wealth.
75	We need more handicap accessible shops and parks. It's really difficult for wheelchairs to get around and to enjoy the town..
76	A board/government that ignores the wishes of the people; spending money on frivolous things
77	Better sidewalks and roads throughout entire city

78	Traffic flow could be better, and more places to park near downtown area.
79	More sidewalks.
80	Not really because if we want to do anything we have to drive to Fayetteville, Rogers or Bentonville because Siloam has nothing to do here.
81	Continue to need things to do. Only so many restaurants and parks one can go to.
82	More non chain restaurants
83	N/A
84	Consistency of communication in a timely manner
85	Influence of drugs, housing prices too high, need to keep city accountable...they ask citizens to adhere to code updates but don't consistently update aspects of city when repairs are needed (for instance: more power lines should be moved below ground when repaired), if city requires home maintenance then there should be fewer dilapidated streets
86	More small business support and development
87	The divided highway. The public schools are very lackluster. WAY too many churches, with no real authentic ones.
88	Yes, getting rid of the small core group that seems to control everything downtown.
89	So awesome one easy fix is the terrible traffic light sensors on progress by hospital and school. They turn too quickly when cross traffic comes especially coming out of the hospital. Most times people are turning right and don't even need the light to turn.
90	Vacant businesses and homes removed or cleaned up. Make the West end of 412 resemble the East end. Currently West end seems to be the "junkier" area.
91	I wish there was a grocery option closer to downtown. I like our specialty shops but it would be nice to have something more affordable in that area. I wish more of siloam was walkable. Downtown is great but it would be great to have other places where you felt like you could park and walk to several stores or restaurants in the same area without having to drive.
92	We need shopping and good restaurants
93	I'd like Siloam to appeal to younger people more.
94	More clothing shopping places or sit down restaurants that aren't Mexican food.
95	yes definitely would like to see a big change on the EAST side of town!! Very cluttered with cars that needs to be gone and tidy and clean the junk and clutter on the east side of town..
96	Maybe adding more things for teens to do.
97	Need tornado shelters. Should've built one under the Library. People don't have anywhere to go.
98	More public amenities

99	Allow food trucks on public areas. It could benefit some of the local businesses like Creekside Taproom. Create a "1st Saturday or ___" day of the month that features live music, food vendors at amphitheater during spring/ summer.
100	More trees at patriot park
101	Fewer fast food places. Public transportation/trolley.
102	Get rid of all mask mandates and open up businesses
103	Nothing that I can think of right now
104	Adding more trails to the skuthside of the citythat lead to access to all the ones on the northside. I live on the southside and have to cross 412to get to any of the walking and bikings trails. Maybe have like a walking path with a bridge over 412 that would connect both sides of the city.
105	I would love to have a recreational center/facility for the public. Our children are being cooped up at home, consumed by the evil grasps of technology. We need a facility for our children to play and be physically active. A place like The Jones Center in Springdale. There really isn't a lot of recreational things to do in Siloam, and I believethat having a facility like The Jones Center would benefit our community immensely. I WANT MY RECREATIONAL FACILITY!!!!
106	higher quality recreation and community education classes; improved academic quality of schools;
107	Better Law Enforcement, less focus on traffic,more focus on the drug dealers.
108	Stop spending our money on more parks and downtown projects and also stop taking parking spaces away from the downtown area.
109	Senior housing. Many who live here must movewhen they downsize
110	Connecting all the trails so you can ride all thru town.
111	Protected bike lanes on major roads. Right turnyield to bikes signage. 15/hr minimum wage
112	Quit trying to make this town like a larger NWAcity. Better access in and out of schools. Preferably a school Complex, for all schools. Better pay for our first responders and less pay for city admins and less funding for admin agendas. Updates to the parks for kids. Additional kid activities to ensure the family friendly environment.
113	Remove the median on 412. Add more things for families. Springdale has jones center and nature center, fayetteville and bentonville has cool items too. Bring something cool and family friendly to siloam.

114	Yes! We need better planned roadways. Loops forthe Semi -trucks to take AROUND town instead of THROUGH town, causing major traffic congestion.
115	More entertainment, recreation and parks.
116	Streets Focus on the whole city and not just the downtown area
117	We are not Fayetteville and we should not pattern ourselves after them. If people want to live in a city like Fayetteville and Bentonville than livethere. We are a unique city and that's what makes us who we are!
118	Dont like the divider on 412!
119	No
120	I know this is not the main focus of your plan but we need to promote more housing developments and professional opportunities that appeal to not only blue collar positions but also white collar. So much of the new growth residentially has been homes that do not appeal to established families. I would like to see a major renovation or improvement to our pool and splash pad areas. The "splash pad" at the library is nothing compared to surrounding areas and a much needed improvement.
121	Hateful attitude on Whats up Siloam Im bein honest new generation
122	I would like to see more focus on bringing in manufacturing jobs. Siloam desperately needs something to come in and offer "above-minimum-wage" jobs.
123	I wish there were a way to have no businesses promoting alcohol, gambling, vaping, or pornography.
124	Businesses on 412 need greenery. The medium could use wild flowers.
125	Sad the new generation with hateful attitudes.Moving in Read whats going on in Siloam site..
126	Traffic is becoming worse and backroads are nowbecoming congested. Traffic lights are being installed without cameras so they stop traffic randomlymaking flow inefficient.
127	No more gay pride! I don't want to live in a Eureka springs take off. Oh by the way I could do without the liquor stores and bars
128	Slow down the change... don't want to be progressive like the bigger cities, want the small town feel
129	Side roads
130	I would like properties to be better maintainedalong the major thoroughfares such as E Main Street and Mt Olive St. Continue to work to add sidewalks and bike trails throughout the community.
131	I would like to preserve the history of our townand try not to loose what makes us unique, small town ethics and and Christian values, as well as preservation of our entire town not just the down town. I would like to see all business receive thesame attention as the down town district, lastly I would like to see more automotive events such as car

	shows and such that would bring people from surrounding areas and stimulate our local economy.
132	Fill the old abandoned commercial properties and warehouses with new businesses. Perhaps add some basic form of public transportation like a single bus loop that goes around the town a couple times each day...? Also, try to organize people to get together to clean up litter around the town once a year.
133	Tie Siloam into the NWA Greenway trail system. Rein in the overstepping by city planning staff.
134	We need to improve sidewalks. Many streets do not have sidewalks, and it makes it difficult for people to walk around.
135	Being more proactive, and less reactive. Having more people with an open mind rather than a closed one. We need diversity.
136	I wish we could get people education about our National Historic designation.
137	Bigger pool and an actual splash pad
138	I would like to see folks focus on the whole city of Siloam Springs, instead of just down town.
139	Just keep making it a nice place
140	We have some areas that the housing is falling apart or has been condemned that needs attention.
141	Traffic levels have increased tremendously. More input from citizens on what to do budget. More outdoor spaces.
142	More inclusive, more attractive access to downtown, bury power lines near our parks.
143	Back the police when they do their job. Give them more help. The drugs in Siloam are really bad right now and nothing is getting done about it. Also stop making the roads small just to look like other big towns. Down town is a big mess. Handicap people can not park.
144	A sidewalk that extends all the way from JBU, going down Holly go 412. Allows students to walk to Walmart. More mobility like that might help students without cars come to JBU which increases revenue for the city. Also, a light and crosswalk at the Holly and Tulsa intersection near the middle school.
145	More schooling options (other options than public school); more dining options; increased outdoor accessibility (eg, sidewalks, trails, etc)
146	K-12 Education Options other than public school. Development of the springs downtown into a place suitable for swimming.
147	Connecting walkin
148	More bike trails
149	More places that encourage interaction betw allethnic groups.

150	abandoned houses, unused buildings, too few school choices, increased big business
151	Develop East Main the same way we have developed the rest of downtown.
152	Larger yards for new housing. The small yards diminishes quality of life. Introduction of Spanish courses in elementary and middle school as this would help build bridges with Hispanic community. There's concern about rising housing costs.
153	Clean up main corridor and entrance to downtown. More biking and hiking trails.
154	It needs more diversity
155	More shopping/restaurants and something for kidsto do
156	The city needs to take care of its employees better. Better wages. Also we need horse trails instead of all the bike trails. There is room for bothand it would be a great draw to siloam
157	I would like to know more about the happenings and goings on in Siloam Springs. We don't know the things that are happening until it's too late to help. For instance, the cars that have been broken into, or the missing people, or any other kind of danger that our community may face. I understand not wanting our town to get a bad reputation, but not knowing is actually hurting more than it's helping.
158	Possibly more family friendly events and seasonal events. Better, more open communication between the city and residents.
159	more things to do, arcade or laser tag something people can go out and do
160	More parks and more trails to hike and ride bike around town.
161	More stop lights in congested areas on 412
162	more stoplights on 412
163	More vibrant downtown. Less wasted space.
164	Starting to feel like a bigger town all the popup malls and apartments
165	Siloam has so much to offer. Through being strategic in our development we can highlight these assets. In an ever developing area such as NWA growth is inevitable. Defining who we are will make settling in Siloam a preference over other cities.
166	Stop spending money downtown! The majority of people see 412, and it's a wreck! Clean it up! Make 412 beautiful!
167	Some larger parking spaces for SUV/trucks. Downtown now is very tight to park.
168	Greater connectivity to allow alternative transportation. Bike lanes and connecting trails. Or a possible bus/trolley service.
169	Traffic around the intermediate and Allen is awful.

170	The city has done a very poor job of keeping upwith side street maintenance. We have all of these beautiful and fun things to see, but you have tododge potholes to get to them. We constantly hear that there is a list and it is done in such and such order, but if that was true, some streets would eventually be fixed. I think the pool needs to beimproved. It's not changed for many years. We need to attract more businesses that offer activities, especially for youth. Stop making streets narrow.
171	More playgrounds, add a Chick-fil-A, more thingsfor kids and families with kids
172	The geographic push away from small business towards the walmart developments is less than ideal for helping us lead more locally oriented lives. Isthere a way to incentivize businesses towards the downtown/mount olive area rather than towards theedges?
173	Shelters easily available to homeless in extremeweather conditions, more income based housing, transportation available to doctor apts for Medicareage people, Thinking of group Kind at Heart Ministry- we need to be a community that follows thatprincipal and encourages more people to participate
174	Keep family neighborhoods for families and not slum lords
175	More family areas. A big splash pad with the works.
176	I wish there were more activities for children.Bring back a skating rink.
177	I am not fond of the narrowed streets and intersections downtown. I would also like to see more locally owned restaurants and businesses.
178	Down town
179	I would like to see younger people representingthe board for example. Currently the average age for board members I bet is in the 65 years old (guess) which is retirement age
180	Less housing
181	More bike trails
182	The nightlife needs work around here. Being so close to a casino and being the last city you drive through to get to Oklahoma on HWY 412, I'd expectmore to be around here to keep people engaged or at least want them to spend a night here to explore. This city is the last and first city you see, why not make people want to stay here longer with some interesting attractions?
183	not really
184	arrogant attitudes by some closed minded people.
185	We do not have enough quality, locally owned restaurants. We have entirely too many chain and fast food restaurants. We do not have enough for our adolescents to do (skating rinks, outdoor put put, go kart track, etc).
186	AFFORDABLE housing. Stuff for family entertainment. Skating rink
187	AFFORDABILITY of housing
188	I would like to see more diverse representationand more connectivity throughout the city.

189	Answer is related to the priorities chosen in next question. IMO, economic development is priority because it helps provide funds needed for all other priorities. Economic development results in more citizens in good jobs, more funds for things like road improvements, sidewalks/paths, and more public services. Having all these things makes ineasier to focus on building character as a community. As for housing, we need to make sure we haveample housing options for ALL income levels.
190	Improve streets
191	No changes needed if you ask me. Just keep the small town feel. I was born and raised here in siloam springs and hate that we are starting to feel like a BIG city.
192	More diversity
193	Activities for all age kids.
194	The change in the future needs to be where the youth can hang out with video games, and pool!
195	More native trees. An effective tree ordinance that would prevent the further decimation, particularly, of old oak trees. Clean water in our creeksand rivers; stricter discharge prohibitions. Better ecological practices and pollution control overall. More recycling capability.
196	Add a Chick-fi-la; another steak house; add Target (give WaiMart some competition)
197	more trails and more restaurants downtown.
198	Do whatever you can to minimize the chaos of theHwy 412 passthrough
199	The lack of parking in downtown.
200	Would like to have a Chickfila.
201	Go back to days of no alcohol sold in Siloam andbe careful about the types of business allowed to set up in Siloam
202	Yes, take out the speed bumps on Carl St
203	I think that they need to look at all of the town roads that need to be fix . And add to things to do and programs to help lower income family understanding about siloam springs and not to feel left out or there race.
204	I lived through illegal immigration invasions ofSouthern California in the 70s and 80s. The first sign of forced illegal immigration settling was graffiti, much higher store shrinkage levels because of intense shoplifting, higher rates of drunk driving with suspects fleeing. Taxes were and are skyrocketed in areas that have heavy illegal immigration. The good people of this city will pay for it all with the increase taxes and increased crime.Don't believe me? Just watch. Are we ready???
205	No
206	Please build a
207	I would love to see the businesses and organizations we currently have to thrive and do well. Especially those that made it through COVID. I'm afraid it's going to get too commercialized in the future and that will take away from the small town feel and local business owners.

208	Recruit employers who will provide higher wage jobs
209	Enhance local stores & shopping opportunities
210	The new subdivisions have too many houses and have too small of lot sizes. To much parking in the streets in subdivisions which make it difficult for fire trucks to maneuver.
211	Trying to be trendy and follow other towns
212	I'd like the trails to be kept cleaner. The south loop has a lot of trash piles that one comes across as they hike.
213	I would like to prevent unnecessary change that will compromise the beauty of the town.
214	I wish there were more restaurants. The park downtown and around Northside is becoming a little sketchy. Would love to clean that area up as well as the Crown Hotel.
215	More services and commercial opportunities
216	I would LOVE to see a roller skating rink open up!! I feel like it would bring the community even closer together and give kids a cool hangout plus the exercise is great!
217	Yes, get rid of present leadership and put people in place that listen to the people!
218	I see a great need for child care and elder care. We need more quality child care facilities. We need a new nursing home facility and an assisted living facility for our elder population who can no longer safely live at home.
219	Repair roads quicker. Many high travelled roads need complete resurface. Some get big pot holes that are not repaired for years. RE: Elgin street FINALLY resurfaced after many years of dis-repair.
220	More venue such as popular restaurants.
221	I think the gradual introduction of new work opportunities and matching educational opportunities is important to support the long term thriving of the town. It should be gradual though, and in consultation with locals from the community.
222	The Downtown area has some enique and fun shops and restaurants, but it also has empty spaces that could be filled with more businesses.
223	We would love a Denny's and an IHop AND a solar energy contract with the GRDA that does not stifle interest in renewable energy.
224	We need a Denny's and an IHop. We really need to negotiate a new contract with the GRDA that helps SS support renewable energy, wind and solar.
225	More shops and restaurants. Also a better little league system for the children.
226	How about a music/ theatre center especially for children
227	I'd love to see someone reopen the Dawn Hill golf course.
228	The directions that downtown is heading. We don't want to become a Fayetteville or Eureka springs

229	I hate driving downtown because the street is so narrow. I would like to see more sidewalks on streets like Villa View where there are a good number of joggers.
230	Downtown needs revitalized. Neighborhoods need sidewalks as well
231	I would love to see more racial and ethnic diversity in the community, but that is probably a comment for the region overall. It would be great to have higher quality choices for eating out, but that is likely difficult with the smaller size of town and preferences of different demographics.
232	Safety. Especially the parks downtown. Not very family friendly.
233	Clean up blighted areas leading to downtown
234	More preservation of pasture land and rural neighborhoods. I understand that growth happens but I'm concerned we are erasing most of them. I'm also concerned for traffic congestion near Allen Elementary and Dawn Hill. I personally live out on Dawn Hill Road and am aware of the development about to be built there across from First Baptist Church. I'd like to see the number of homes going in there to be greatly reduced.
235	Within growth, I'd love to see more preservation of certain rural land and neighborhoods.... especially Dawn Hill Road, which has always been a beautiful drive. I'm aware of the 42 home project about to be built across from First Baptist and I wish the numbers to be greatly reduced. Traffic is already a big concern at the intersection of Dawn Hill and Allen Elementary. And I have several other concerns with it as well.
236	Better street conditions and sidewalks
237	I would love to have better roads. Specially on Airport Road. That full road is terrible and it has tons of potholes. They keep trying to patch it up but all they do is make it worse because cars ride over the patches and that makes them break a lot. This is terrible because that road gets a lot of traffic and on 4th of July almost the whole city drives by there or parks by that road to watch the fireworks. This road needs to be fixed.
238	It seems to be going toward the Left over the past decade or so. I would like to see it being the
239	More safe sidewalks for people. This will benefit people of all ages.
240	I
241	I would love to see a better integration of people of different backgrounds and ethnicities. There tends to be segregation, especially with the hispanic population. We want them to feel accepted and included, like they're a part of this town too. Without gentrification, which is definitely a hard line to walk. Partnering with hispanic business owners rather than pushing them out will be very important!
242	more diversity
243	greater diversity of restaurants, need neighborhood schools, school administrators who live in Siloam, lack of rental venues, economical ways to dispose of paints, chemicals etc., continued clean-up of neglected properties

244	We need to keep improving and growing our walking and biking trails. We need more parks in the newer development areas.
245	bypass around the town.
246	Yes. We try to be like a mini version of the corridor cities.
247	I would like to see us preserve the heritage of our downtown area. I'm appreciative of all that is being done. I believe traffic is becoming, and will become, a major issue soon if we aren't ahead of the curve regarding infrastructure. A bypass is still on the table in my way of thinking.
248	A guardrail by the creek wall downtown by the fountain. I have three small children and while we love going to that area downtown, I'm ALWAYS nervous.
249	I would prefer there be a bypass around Siloam Springs to cut down on through traffic, big trucks, etc. Also love to see a viable business take over the old Franklin Electric Bldg.
250	Would LOVE to see the busy through traffic on 412 rerouted around town. That traffic is passing through and will not be stopping to bring \$\$ into our local economy.
251	better image regarding diverse community. Minority population is very insular and doesn't interact with white population. continue community events and resources.
252	More side walks in the historic neighborhoods, road renovation on W Benton St by the park so it is safer for 2 lane traffic when there a lot of cars parked by the street.
253	I would like to see more commercial development on the east side of town and a traffic light at Airport/412 intersection. A right turn lane from Cheri Whitlock to Mt Olive would help school traffic. I wish there were more options for indoor recreation, like family arcades, trampoline venue, aquarium, Chuck E Cheese, etc.
254	Bridge the gap between white and latino communities.
255	Continue to help businesses downtown thrive. Clean up 412 corridor. Sends a bad picture to those passing through.
256	Continue to expand outdoor opportunities and more sidewalks. Enhance East Main St. Bring in new business to fill the Franklin Building on 412.
257	Downtown needs a bread bakery! I also think connecting the dogwood trail would be beneficial and provide more outdoor experiences.
258	more shopping opportunities, more diverse restaurants
259	Keep working on the sidewalks! This is a beautiful small town and getting out and about is important. Get some industry here, we have turned into a bedroom community...
260	Remove parking obstacles that makes parking difficult downtown. Maintain a family healthy environment.

261	More things to bring visitors to downtown area.. Maybe a themed idea to bring people. Maybe flea market and vintage stores in empty businesses. Maybe do more ideas with the dogwood theme.
262	Need to work on finding a tourist theme for downtown so more people will stop instead of driving through. Even though we have businesses down town, there really isn't any reason for them to get out of their cars to walk around.
263	Beautifying certain areas would bring continuity, so East Main, West 412, and other city owned medians, etc.
264	Clean up Main Street More residences downtown will keep it growing Help people to improve their homes condition and appeal (not landlords) More bike paths, for example, from Ravenwood to Lazy Boy park
265	More larger chain restaurants like an Olive Garden, Chili's, etc.
266	There are a ton of churches and racists. There should be more diversity. There should be less acceptance of the racists.
267	More family fun things to do in town
268	The speed limit in subdivision residential areas is too fast would like to see speed humps or something to make them slow down
269	I'm a 'senior citizen' so admittedly, change is not good sometimes. I'm sure the younger folk can come up with a lot of things they would like to change. Having said that, I DO NOT like the idea of a 'round about'. It's totally unnecessary. I also don't care for the far left bent of some people.
270	The divided highway. It's a pain with the median.
271	Slower speed limits in residential areas
272	We need wider streets because the vehicle's are getting bigger and our streets are too narrow. The streets in front of the schools need work, they are a disaster.
273	have a park in town of siloam springs
274	Allow for a downtown "event area" similar to what Fayetteville recently approved. It would be nice to have restaurant bump outs and allow the curbside sale of alcohol. I would also like to see the city partner with the local arts program to help sponsor local activities and events.
275	The Siloam Springs Kayak park is always trashed and undesirable in the summer.
276	More center lane turning on 412
277	Would like to see code enforcement on homes that have car(s) parked on the grass/lawns, too much junk around the house visible from street and neighbors, and large semi-tractors parked on residential streets or multiple business vehicles parked on street in front of residential homes.
278	Residents should be able to choose whether they want to participate in the city sanitation program. We should not have to pay for a service we do not use!

279	Street improvements
280	It's growing to fast...
281	As we gain a larger population a few thing likemore speed bumps added to neighborhood streets that are becoming shortcuts would be awesome. Keepingthe neighborhood walkability is another priority I have.
282	The stinking bike lanes and return Fisher Ford to it's natural state.
283	I wish there were sidewalks to connect east Kenwood to the rest of town. We love to walk but from our home on Lewis Circle theres are no sidewalks
284	desperately needs forward thinking people, no change to promote the town and events. small businesses suffer immensely. needs way more exposure on the arts and folks that are experienced in the arts community to provide more culture.
285	Main Street coming into town from east...sidewalks...bike friendly no fast cars/trucks.
286	For some routine upkeep, maintenance, and policepresence to allow the skate park and surrounding facility to be at its safest and best.
287	The bike routes by the library, they need to be taken out too close to the lights and street is to narrow there. I have almost seen several accidents there.
288	Lets start with how the ordinance is for annoying barking dogs in this town.
289	I think there needs to be more things for kids to do. These kids are running amok on the streets because there's nothing for them to do.
290	The traffic!
291	Everything being about downtown
292	More community outreach
293	Traffic is terrible on 412 Out by big Walmartcongested, lots of wrecks weekly it seems. More food options
294	I'm unhappy about the attitude within city leadership that seems to want to replicate what larger towns around us are doing. Bike trails that disrupt car traffic, selling the old post office to Fat Tire, changes to trash pickup logistics, the flippant (and seemingly spiteful) decision by the city admin to close the outdoor kayak park during covid, the choice to spend money on downtown development that benefited a select group of busisnesses,the choice to divide 412 to name a few.
295	More parking downtown
296	Have electric carts in park areas for the disabled to travel parks. If you can't walk distance you miss out on all Siloam has done to city lake
297	I would turn sager creek into a river walk to bring in more attraction to the downtown area. Increase the night life without being disruptive. Thereare many alternative revenue options available that are not being utilized.

298	Stop chain companies from continuing to take over our city.
299	Go back to the old Siloam when I moved here years ago... No bike bumps. No alcohol in stores or restaurants Also... keep the old nostalgic feelof downtown.
300	too many fast food places, but I dont understandwhy Simmons is sole supplier for ChickFaLa and we dont have one! We need one! LOL!. we need more quality fine dining and especially apparel shopping for Big/Tall men, and HomeGoods. I have said since day one 7yrs ago I moved here that the perfect place for an IHOP is at state line on AR side!
301	more options for stores/shopping, less traffic,less accidents at 412 intersections
302	More industry
303	No
304	I would like to see more emphasis on honest andprincipled growth. A growth that is balanced.
305	I feel the area to downtown could use a facelift. Polished up to look more welcoming.
306	Slow the growth. Limit the number of homes. At a certain point growth is no longer beneficial to the whole.
307	Recreation Center
308	get rid of stupid bike lanes.
309	I believe that the city is growing in a responsible manner and like the way things are going.
310	Traffic issues around school areas need to be addressed
311	Bring on the bigger restaurants and don't let the west side of 412 area die
312	Would like to see more sit down restaurant choices, more retail
313	Bring more jobs (industries) bigger chain storesHobby Lobby, Academy, Sharp's
314	I would like to continue to see business' grow.We still need more shopping and restaurants so we can shop local and not seek other communities forour needs.
315	nothing specific comes to mind.
316	I would like to see more options for shopping.There aren't a whole lot of clothing options and when I am shopping for my kids, I have to go out oftown to do that. Also....still waiting on that Hobby Lobby!
317	The city board/ administration needs to look atstreet names. There is no rhyme or reason to how streets are named within siloam and contractors areallowed to name streets whatever they want thus causing several streets to have the same name otherthe. The destination of St, Dr, Ct, etc... this is both a issue for public navigation with in the city as well as emergency response.
318	More variety in chain restaurants that serve alcohol.

319	rental rates for both residential and commercial. rates do not reflect wages of workers; especially for more than a one-bedroom apartment. also, it's hard to find businesses that can sustain high rent in downtown
320	Less progressive attitudes that want us to be like Fayetteville or Bentonville.
321	Encouraging growth in the older parts of town—revitalizing those areas (west side); some sort of public transportation, ordinances for soliciting/asking for money on street corners;
322	Bike lanes off highway More clothing stores More sidewalks More community activities for young adults
323	The traffic intersection by the Walmart with Casey's too much congestion. The community needs to be more walking friendly. Invest in the fountainlandscaping at raven wood and 412 place a gazebo there. Randomness of stores and building type- have a consistently that reflects the beauty of the community
324	I would love for their to be more wholesome entertainment for while families. (Trampoline park, splash pad, indoor play place)
325	Supporting local business, industry and the functional stuff like the swepeco power plant too. There seems to be a lot of hub bub about new is better. That may be so, but new is also unproven in the long term and usually costs a lot.
326	More restaurants open after 9pm and more variety within the town
327	Be careful you don't let a small voice change who we truly are as a town. Don't get off mission just because of a few. Many live here because of it being simple, not a big city, and because of its conservative values. I think a few are slowly changing this mindset.
328	I honestly love our town and I know every town needs some work/changes but if I had to put an input in I would say more sidewalks, bike trails, and maybe a guard rail around the water fountain off of HWY 412. There has been a couple accidents that happened there and maybe that could help..? I'm just truly grateful and happy to be a resident of Siloam Springs and honestly its a true pretty small town and I love watching it grow.
329	Enforce codes so we don't look all junked up in all areas, residential and businesses.
330	A cleaner looking 412 area. So many unkept businesses or rundown buildings on 412 makes the city appear undesirable to so many who pass through and only know Siloam for what they see along 412. Landscaping mandates, sign height requirements, etc would be nice to see.
331	I hope it doesn't grow bigger. One of the things I loved about Siloam in 1998 was the small size. I didn't want to live in a town with lots of people and traffic.
332	The 412 corridor isn't very pretty but I'm not sure a lot can be done about ghat

333	I would prefer there to be less use of allergy causing ragweed in the connection to nature.
334	More trails, concrete, gravel or mulch.
335	Too much regulation. Give us our freedom back. Stop trying to fix every problem with a new law.
336	Better places to shop so we don't have to drive 30+ minutes for some necessary items, more affordable rental housing for average people or single income households. The vast majority of people who are looking for rentals need something under \$700/mo... building tons of homes \$200,000 and up that rent for \$1300/mo is not doing much to alleviate the housing shortage for the majority that are looking.
337	promote growth in all directions of the city limits. Repurpose vacant buildings for community growth
338	Lower utilities, maintained streets, better and consistent street lighting, additional shopping choices other than Walmart.
339	Better streets, more sidewalks, bike lanes, and trails. More diversity. Improvements to Main Street, less duplexes, better land use planning, architectural requirements for commercial bldgs, better code enforcement. More retail shopping opportunities. Need a bypass to get trucks off 412
340	no
341	Drainage on South Oak Hill St south of Raines Rd
342	Continue to stay up with the growth of the area.
343	I'd love more none chain restaurants and more things to do for retired adults ,like pottery classes and painting establishments
344	Less traffic congestion in the area of WalMart supercenter. Would like a Sam's Club somewhere in town.
345	A bigger, better farmers market
346	There are a lot of unkept properties- this has to be addressed. East Main Street from the RR underpass to the foot of the hill at Washington is poorly maintained. This area needs significant improvement.
347	No
348	Have more strict signage. We're starting to look like Springdale.
349	Traffic lights are horrible. Left arrow only works part of the time and I can spend 5 minutes waiting with no other traffic.
350	I would love to see more eating places downtown in the same vein as Cafe on Broadway. Places to meet, have lunch and coffee and sit outdoors. It has kind of been taken over by the college students so a place like that for us oldies would be great. Also more shopping downtown. More music and art? Maybe a store where all our local artists and craftsmen have booths or exhibit their art.
351	The area in front of Walmart and other stores is a traffic hazard with so many people turning in and out of businesses. It would also be nice for the west part of 412 to be updated and get a facelift, some of the buildings are starting to look old.

352	Parking is terrible downtown, the improvements made things worse. The bike lanes are also atrocious and just cause driver's to panic stopping when they should only be going slow to go over the speed bumps.
353	I would love to see more sidewalks around Downtown and historic neighborhoods to make walking and biking easier for families. I also would love to see a bypass for all future traffic that goes through 412 since the new Amazon location will be sureto clog up 412 more than it already is. Focus on preserving the small town and intimate community already here.
354	Awkward bike bumps and barriers on some roads, extremely heavy focus on downtown and far less on more used and visible highway
355	I would not add a lot of big corporate stores. Keep the small town atmosphere. Harbor Freight was a good addition in an existing building. Maintain the traffic flow well and coordination of red lights. Something with the traffic flow needs to be modified around the Lowes/Walmart/Popeyes area because it is hard to make a left turn coming out of the parking lots.
356	I would love to see more diversity and acceptance of all people
357	Fiber optic availability
358	Im not sure.
359	New park equipment with newer cooler and better things. Especially bob henry because it attracts all people with trails, skate parks, volleyball, tennis courts, and dog parks.more shopping places. (Clothes) Close to all we have is walmart and expensive stores.
360	the stop lights need timed so that traffic flows better
361	I wish we had more daycares and preschools in town. The centers that we do have often have waitlists or are hard to get into. I feel that that's really a gap for the community.
362	More restaurants
363	Less progressivism. Less
364	More fast food chains.
365	I wish Siloam Springs was a bit more accessible.Because of how the roads are structured, navigating around the town can be a bit confusing at times.
366	More public events like the Dogwood festival.
367	No, but maybe some more technology in the future because more and more people are going to buy electronics and electric cars.
368	I would like to change the city's overall appeal. Such as the water in downtown looking more cleaner in the future. Just some minor maintenance to help seem more vibrant. And not just in downtown Siloam Springs, in the neighborhoods as well.
369	More shopping options, better roads, and parks and a trail or sidewalk system that better connects various parts of town.

370	The parking on Broadway is horrible!! The angle is bad so cars stick out too far! Trucks are even worse! Hate downtown now!! This change was made as an "improvement" and is horrible!! I have massively reduced visiting down down due to the parking situation!!
371	Let majority rule not minority
372	I would like to see bicycle lanes, a public bus, fewer chain stores and more small businesses, more funding for the library and police, and a community recreation center similar to the Jones Center.
373	I never wanted us to be part of a wet county. I dislike to see that changed but im sure that is asking too much.
374	Cats wandering around the neighborhood, howling & meowing, and pooping in my flower beds are a nuisance and also against City code (but the animal control people won't even try to pick them up -- they push it off onto the citizens to catch them!).
375	Would love to see more venue type settings and community building for events or workshops.
376	Clean up run-down homes and commercial buildings
377	I don't want the city to get too big like the other cities in NWA
378	Traffic gets worse all the time. The roads aren't keeping up with construction. We have got to get a bypass around Siloam Springs to keep semis off 412. We would be safer without them.
379	Maybe a few more places for families to go and have quality time. Dave & Busters or Fast Lanes.
380	A more advertised and accessible city council/board. I would like to take part in or at least observe City Council meetings and observe the deliberation process that goes into the many decisions which shape our community.
381	The fact that industry, like the Simmons Pet Food factory, is located right in the middle of town. There are terrible smells that regularly waft over my home-it's awful. Also, the train tracks have created some dead zones in town, where homes and business languish with lower property values. If the trains were rerouted around town, those areas could become revitalized.
382	Be more inclusive! We need to be a welcoming place for all people, and we still have some major pockets of non-inclusivity.
383	More family sit down restaurants. Children's Theater
384	412, make a bypass it is too much traffic on it. Also make some thing to slow the traffic down by airport road and 412.
385	Better repairs of roads in residential areas.
386	I wish that Siloam was more of an accepting environment for LGBTQ+ people. I also wish that Siloam had more places for our teenagers to hang out and stay out of trouble.
387	No gay pride day please. Better parking for downtown. Horrible trying to get through when pick up trucks parked on each side. Some nicer restaurants- so many fast food. A good breakfast spot, IHOP, would have been wonderful by Hampton Inn. Way too much traffic on 412. Hate the center medians with one way signs. Saw a vehicle last week pull out going the wrong direction on 412.

388	Make places on 412 look more appealing and welcoming More boutique type stores on main street
389	neighborhood schools
390	Road improvement, more restaurant options, moreretail
391	I would love to see a few more fast food options(Chik-Fil-A?) and perhaps a few more sit down eating options as well.
392	We need to look at a new baseball/softball parkwith walk and play areas. Our current facility is run down and in a flood plain. It also needs a3rd party of the city to manage with a budget. Look at our facility compared to most other communities in NWA and throughout Arkansas. Also look at the money we have invested in a new soccer complex, aquatic park, dog park, etc. It's overdue and needed.
393	I wish that when businesses open, they stay open. The fact that we have so many empty business buildings is sad.
394	My first priority would be the baseball fields.They are embarrassing. The dirt is like asphalt and yet the weeds still grow through it. Either spend money on them or build a whole new complex that won't flood. I would love to see more of an emphasis on fishing at city lake. It's difficult to fish from the banks without getting your line caught in the weeds. I spend more time getting my and my kids' lines free than actually fishing. Maybesome docks or piers would help with that.
395	Even though I absolutely do want to see our community grow, I do not want it to turn into what the big four communities have turned into.
396	Safe way to get to Lake Siloam on foot or bike.Currently, the streets going there are narrow and curving with no sidewalks. Sidewalks and crosswalks at all major roads and intersections.
397	I generally approve of the direction in which this town is moving. It's a good town for families, and small businesses are increasing here.
398	More parks/green spaces; more small businesses open on the weekends, especially in the downtown area
399	More trails for biking/walking
400	I would like to see a nice baseball/softball complex that would bring business to town by hosting tournaments. My vision would be a baseball/softball complex with a park and splash pad and walkways/bikeways altogether. It is possible. I have seen this in other communities. It turns into a family gathering area! More police monitoringof the park downtown. I would like to see more shopping come to town with restaurant options.
401	The divider on Hey 412.
402	The availability of reliable high speed internetservices.

403	I would love to see more sidewalks through the historic downtown and speed humps put in, so the side streets are used as shortcuts between University, Mt. Olive, Tulsa, and 412.
404	I would like to see more outdoor recreational activities. The kayak park and city lake are great, and the bike trails are good, but we need more options.
405	I like the bike paths in town, but I would likethere to be even more.
406	Bring in more fun things for the kids to do. Like mini golf and go carts etc. A new aquatic park would be so nice as well
407	I would love to see more codes within neighborhoods. Siloam has some neat, older homes..combine that with a updated and expanding downtown and it makes our towns great attraction. However, inconsistency in yards, minor living standards, etc. can detract from the above mentioned value.
408	I have heard that the golf course is going to have to close when their lease is up. I think Siloam needs a golf course and I think the city shouldsupport the golf course. I feel a good golf course could bring people to our town to play.
409	I would like to see more celebration of diversity.
410	I would like to have more things for teenagers to do here.
411	Some of the stop lights seem like they've been programmed by someone who has never actually driven a car or tried to get from Point A to Point B ina timely and efficient manner.
412	We need more large family type restaurants.
413	I think that the baseball/softball facility needs a lot of improvement. We have over 400 kids in the local leagues, high school teams, JBU, rec softball teams, and travel ball teams that practice and play out there.
414	The timers on the traffic lights need some attention. With a median, which I truly don't mind, causes a lot of traffic buildup at the lights, especially for left hand turns.
415	I would like to see all the empty buildings downtown filled with businesses. (Incentives, maybe?) I would also like to see ALL the side streets' pot holes filled. I've bent one rim and punctured two tires! Fix up the spring by the library. More equipment at the dog park. Nice trash cans & recycle cans along the walk from the spring....sometmetal benches near the shade.
416	I can't think of anything at this time.
417	While I do love downtown, I'd love for there tobe more shops to go through. Right now there's only a few shops to walk through, but it'd be a lot more fun to be able to do more shopping while down there.
418	I think that some of the zoning policies we havein place hinder small businesses. It is unfair to require new businesses to pay for sidewalks while older businesses are excluded. The city had a fund designated for sidewalks that could have beenutilized. The sign and banner ordinances also need to be revisited. I would like to see some revitalization of Main Street from the railroad bridge to Pour Jon's. Would love to see a walking bridgeacross 412. 412 is VERY dangerous for many who walk.

419	I would love to see the creek back to the way it was 20 years ago. I hate the overgrowth near the water. It is a breeding area for snakes and as I parent I don't want my kid near the water when we are playing at the park.
420	Road conditions!!!
421	We need more shopping opportunities to keep citizens from constantly traveling to the 49 corridor. We have done a good job bringing in restaurants, but they will continue to struggle until we have shopping and entertainment choices.
422	I love that we have that small town feel, but there are times when traveling around gets annoying and frustrating. Having no ability to turn into parking lots along 412 without needing to u-turn at a light first is frustrating. I also feel like there are lots of winding and crossing paths throughout Siloam that make navigating really interesting and challenging without sticking to main roads and adding onto trip time.
423	Be thoughtful about the balance between new housing being built versus using the available houses for sale in town already. At the top of the hill on 412 coming west into town perhaps there should be another light added. Traffic is coming into town too fast and the neighborhoods off Airport Rd. are in dangerous situations trying to come onto the hwy. We need a light ordinance in place as the city grows. Also litter is becoming a problem everywhere.
424	Yes, the water fountain place thing on 412 and main street. I don't think that should be there anymore. I think maybe trees and flowers would be better there. More side walks. Also, 412 in front of big Walmart should be similar to west 412. There's a lot of traffic accidents and I think it would be better if there was a "divider".
425	My greatest concern is the exploding number of apartment complexes arising in the city. We're becoming a town of apartments instead of homes!! That will totally change the nature of Siloam Springs if not curtailed.
426	I just want it to stay on course and keep the culture that has drawn people here in the first place.
427	More places to sit down and eat. Activities for families to do and places to shop for children clothing
428	Enforcement of ordinances for private property (parking in lawns)
429	I would like to see City Ordinances being enforced. Such as no parking on lawns, and especially animals on a leash. Parking cars in yards is an eye sore and is a negative for me. Walking along the trails is also safer if animals are on a leash.
430	The way that they have limited parking and the accessibility downtown.

431	The 412 corridor is frustrating and ugly. It would be nice to have more retail/shopping.....it's nice we are close to bigger malls but I would like to keep my \$ in our town. I order a lot from Amazon since I can't get "stuff" here. Down town has so much character but the storefronts are empty. It would be great if there was a way to revitalize this area. I wish there were better internet for residents that are not far from town.
432	more restaurants (sit down not fast food), more shopping options (clothes, home, etc)
433	Because the growth is inevitable better housing and codes as well as more options for things to do. Also getting Hwy. 612 built would be an amazing addition.
434	There seems to be a real lack for the importance of the arts in Siloam Springs. I believe we need a community venue where there would be activities for all age groups focused around the arts. Outside of the local sports teams and activities there is not a lot for k-12. With the adults once they get tired of going out for a drink or trying a new restaurant in town there is not much left to do. Investing in the local arts culture can bring a new venue for entertainment and community outreach.
435	Widen major intersections so there are straight, left, and right turn lanes. Curb and gutter Elm Street between Hwy 412 and Tulsa Street, curb and gutter Twin Springs between Mt Olive and Holly Street. Widen Kenwood east of Hwy 16.
436	I know progress has to happen but the charm of Siloam Springs is the small town feel. As we grow we need to keep the small town feel or that charm will fade.
437	The double yellow lines on the east side of town on highway 412.
438	I would like to see more local events take place here. Before covid we were heading that way but I hope we can get back there. I have missed the homegrown festival, dogwood festival, and using the new amphitheater. So hopefully we can bring in more entertainment in the future. I would also like to see older buildings being reused for new businesses. I hate seeing new buildings built when we have out of business buildings vacant.
439	Would like to see the city have their own cable/internet service for residents. Encourage construction of more low cost housing.
440	We need a chic-fil-a
441	I wish it were a little more progressive and had more things to do like Bentonville's square.

442	I think rentals are priced beyond the middle class. Low income limits are too low and rental pricings are increased each year when owned by outsidecompanies; pricing rentals beyond the typical renting resident's ability. The City Board shouldhave term limits and those who have served over the determined time limit should not be grandfathered in. We have several current members that should be let go. There are some attitudes on the boardthat are woke, progressive and divisive.
443	I would love to see some more restaurants go up.That is definitely changing, so I do think this one is just a matter of time.
444	Better youth baseball program
445	I am concerned that there is very little space set aside for green space within the city and nearby. I would like to see many more neighborhood parks where residents live close enough to a park they can walk or ride a bike to get there. there are not many places a group can gather and have a picnic. Keep putting in sidewalks that can be usedby bikers and walkers.
446	I want us to stop trying to be Bentonville or Fayetteville. If people want that, they can move there.
447	More sidewalks in shopping areas. Siloam has a lot of walking trails but yet not many side walks by shopping areas. Some areas have sidewalks but are not connected to the next area.
448	I feel like they are trying to go more urban andI just don't get the feeling that isn't who Siloam is
449	We don't need to encourage social engineeringthrough public displays such as gay pride events. This is a conservative, family friendly city. It's imperative that we use common sense, look at the data and not mandate mask wearing. The parking downtown and bike lanes have narrowed the roads and made it more difficult to drive. Also, the area on both sides of the railroad track on Lake Francis Street is atrocious and needs to be pavedto meet the level of the road.
450	Use resources to enhance the downtown in sensible ways
451	Make property owners keep their property and grounds maintained. Nothing looks worse than seeing a building in poor repair. Also, can the city look into edging the curbs on the main streets. Grass growing over the curbs makes the city look run down.
452	increased vibrance downtown, no further new construction (strip malls, big box stores) along hwy 412
453	More sidewalks and biking trails
454	More lighting in small roads, better garbage system
455	a better diversity of all types of business andentertainment
456	Let good restaurant and and good businesses cometo Siloam without all the drama and red tape. You make it impossible to get new businesses in thistown.

457	I would love for our high school to have an indoor practice facility to draw more athletes and their families to our community.
458	Better fiscal responsibility, more doing what isbest for our community and not trying to keep up with neighboring cities and to never use the wordequitable.
459	Yes, add swings back to the Twin Springs park like there used to be. Also, light up the crosswalks better downtown. It is really dark down there at night with the current lighting. I have seen several people almost get hit at 28 Springs and Mount Olive. Maybe have crosswalk lights to push the button to cross? Highway 412 is like taking yourlife in your own hands in front of Wal-Mart. It's too bad we couldn't have gotten access roads on the West and East ends of town. Lower utility rates!
460	East Main needs help....
461	Add some of the character of Siloam Springs to the 412 Corredor.
462	Yes, better road surfaces and less pot holes
463	More recreation/park facilities
464	Additional safe, healthy, active entertainment for children.
465	I live in Ravenwood and I wish there was a direct route to connect to the Dogwood trails without taking the overpass on Cheri Whitlock.
466	I'd love to see Siloam more walkable. There isn't a really good/safe way to get from the east side of town to downtown besides driving.
467	Keep business sector away from neighborhoods, neighborhood K-5 schools, better use of wind and solar power
468	I wish there was more outdoor updates to the park downtown as far as things to do and use
469	Incorporation of some form of public transportation
470	Put some focus on the economic engine that are rivers. All across the county rivers, just like the Illinois, provide millions of dollars in economicactivity. siloam should be doing everything we can to profit from our natural beauty.
471	Even before the pandemic my husband and I wishedthat our small city could have hubs of walkable resources that every family needs daily. Smaller communities within the larger one. We are fortunate to be in the downtown area and can easily walk tosome shopping, dining or library, but grocery, fresh produce, or resources like a drug store, or household repair stores are on the fringes.
472	too many duplexes have been allowd
473	too many duplexes have been approved
474	More housing, more downtown retail
475	Need more sidewalks everywhere. If you are not close to city center it is not easy to walk easily or safely

476	1) longer library hours; 2) sidewalks, even on old residential streets; 3) more parks for people who don't live near downtown; 4) convert busy intersections off of 412 to roundabouts (Lincoln & Main, Cheri Whitlock & Mt. Olive, etc.); 5) use design to make it easier to walk and bike around (as discussed in the Main Street planning a few years ago, but not like the ridiculous cut-ins installed a couple years ago); 6) avoid inventing new, confusing road signs like at Broadway and Central
477	Less growth, better roads, lower utility bills.
478	Would love to continue to commit to green spaces, and celebration and integration of diversity.
479	It would be nice if there was more coding and enforcement, especially with rental properties. There are lots of new developments coming in. Population overflow from the NW corridor is becoming a thing. We need to be careful with the rapid development, ensuring that there is a standard set, not just presumed. I'd like to see sidewalk and curb updating as well. And to make sure we're not just a bedroom community, create benefits for living in a city where you work. People are then more invested.
480	Paint the stripes on the highways, do not like faded lines on the older streets.
481	Too much crowded new neighborhoods
482	BETTER ROAD CONDITIONS WITHIN NEIGHBOORHOODS
483	It's hard for me to think of anything significant that could be improved upon...
484	Continue to support business, continue trails todawn hill area
485	Yes. I think that if a homebuyer is going to rent the home they purchase, then they should be required to have a fenced in yard. Especially if they are going to allow pets. And the utility bill here is very high but I'm not sure if that is something the city can change.
486	Less churches, more restaurants, more places todo things such as a jump zone.
487	Better restaurants. More variety.
488	I would like to see more sidewalks in Siloam. I know there have been many since the early 2000s but I think a routine maintenance on some would be great. Maybe a 10-15 year maintenance. Also, more surveillance cameras in our public park areas and more routine work on street lights as well.
489	The number of horribly maintained roads that lead to some of our city's highlights, like JBU and the five million dollar library.
490	More Trails - Hiking, Bike Riding
491	Not allowing parking in front yard lawns. Can make a great looking neighborhood look trashy.
492	Individual senior medium priced housing units ,or designated subvision...
493	Bypass on 412
494	Continued development of downtown

495	I do not like the fact that Siloam Springs doesnot allow diversity and competition that America was founded upon. For example, in the city limits Cox is the only internet company allowed. We got Cox at first but they lied to us about our payment as and the service. The cost doubled as soon as we got everything connected in our house. I have alsoheard that it's difficult for small businesses to get the licensing needed. As a growing city whyare we not encouraging growing in these ways?
496	If the Crown Hotel and Park House were a littlemore kept up, downtown would be perfect.
497	Notwithstanding the pandemic and fear of gatherings: The library should have a variety of magazines and national and international newspapers for leisure reading. Expanded hours would be helpful in establishing it as a place of learning. A community art gallery with exhibitions either publicly or privately funded to stimulate creativity and appreciation. A playhouse or theatre group would be a nice addition.
498	More sidewalks throughout town especially on Hico
499	More sidewalks. Change the name of City Laketo something more appealing. More parking downtown.
500	I do not like the "wild" effect of Sager Creekin Bob Henry park. Please STOP trying to get into the internet business, huge waste of money!! I wish that you would let more breweries come into Siloam Springs and ease all the goofy rules about walking around in downtown with a beer or other alcoholic drink. Please stop adding all of the strange art in downtown. Please DO NOT impede the roads with more of the "bike trails". If you want tomake a bike trail, do it seperate from the roads.
501	Better restaurants, good date nights spots, moreday care facilities
502	Better care of the roads (avoid puddles)
503	Allow as much freedom to the population as possible, including their uses of their own property.
504	Some of the side streets need fixed.
505	Annex Dawn Hill area
506	Less building going on and more restoration of older buildings
507	Electric is higher than anywhere I have ever lived.
508	Would love to see a "Chick Fil A" restaurant.
509	We
510	li wish there were more healthy restaurants likeNewks was or McAlisters or Qdoba. People have said to me that Siloam Springs is not a very nice looking place to look at when driving down 412. I don't know how to improve that, but I tend to agree.More trees or landscaping along the edge of

	the road would be an improvement. Fewer used car lots would be nice.
511	Emphasize the springs! Restore the areas around them, then bring in the rich history through visual aides like pictures and statues like horse and buggy; steam engines and people dressed as they were in the 1800s. Make it fun and memorable. A destination!
512	More family friendly activity destinations.
513	More sidewalks & much more bicycle friendly. I love to run errands or commute to work via bike, but if you try to hug the side of the road, cars come within inches driving 30-50 mph. I wish Tahlequah was pedestrian/bike friendly from N. Washington to N. Country Club Rd. I love the new sidewalk & bridge, but if you need to continue toward the HS, hospital or Walmart, it just ends! For exercise or recreation, it's fine to turn onto dogwood trail, but it doesn't work for commutes to N. Progress Ave
514	Affordable apartments. One thing Siloam has struggled to implement is affordable apartments for lower income families. We need more of these as more families move into NWA and Siloam.
515	When things are planned they should try and involve the whole community. Not just for people that have money to spend. Use the talent of SSSHS get the young children involved. Make sure the planners are from all walks of life. Make activities for the whole family.
516	When things are planned make them more family. Use the talents of all members of Siloam. SSSHS and the children. Make sure the planning committees have all citizens involved. Black Brown White. Have the cost so that all can be involved and not just those that have money to spend.
517	Quit trying to compete with Bentonville and Fayetteville. Encourage more sit down eating quit with fast food chains
518	Better utilization of places like City Lake, Bob Henry Park, and more for the youth to be able to do.
519	Access to cable tv and internet from the city to compete with Cox.
520	Focusing more on local businesses
521	Finding truly affordable housing is a joke
522	Highway access to I49 to Springdale and Fayetteville
523	AFFORDABILITY OF HOUSING. I hear a lot about how "affordable" housing is... but it is not. Some people must not have tried renting. Average rent, for a small 2br apt is between 850-1000 (except Spring Valley) - and rent should be 1/4 of your income. For a new Siloam Springs police officer starting at \$16.39/hour - that income is roughly \$2,622 PRE-TAX per month. So that is HALF if not more of the income - NOT AFFORDABLE!
524	I wish we had more people in construction businesses who were more experienced and capable. And we need a park for toddlers that is secure and will allow weary parents a chance to truly relax and visit. It

	needs to be gated, without swings, low elements, and no water. Covered tables would be wonderful.
525	more sidewalks, a big splash pad, an indoor water park/community center, more places for date nights, more public transportation, i.e. bus, taxi, anything to give people without transportation the means to travel,
526	Improve the access points and roadway to downtown and make it easier to find for visitors.
527	We need some high end shopping choices. More clothing retailers.
528	More and improved sidewalks in the surrounding neighborhoods and especially on East Main.
529	More biking trails and sidewalks, including crosswalks.
530	Better sidewalks and crosswalks.
531	the lack of diversity. if you're not a Christian, you're shunned.
532	Redo Holly street, it needs a complete replacement of pavement. It's ridiculously bumpy and uneven. I drive it every day and it's ruining my shocks and tires. It's a bumpy and uncomfortable street to drive on.
533	It would be wonderful to encourage more alternate forms of transportation. For example I think Siloam residents would benefit from a bike share program and more paths for bikers and walkers alike!
534	I would like to see better enforcement of city codes. Why have them if they are not enforced. Example: multiple broken down vehicles in yard; yards and businesses not being taken care of. Streets and roads with multiple potholes.
535	I wouldn't mind if some of the people weren't so judgmental. I know—outside of your control! Maybe a stoplight near Starbucks (or one of those exit areas near there)? It's getting harder to turn left onto 412.
536	Better roads like villa view
537	a taxi for when im out drinking.
538	More local restaurants, breweries, stores, anything local.
539	I would love to see more integration between our latin population and our white population. I would also like to see the walking path connected and more sidewalks on older residential streets, particularly around schools. Elgin by Northside and Harvard by Southside both have large sections without sidewalks and they're relatively busy.
540	Be more firm, and especially fair, when dealing with crime, traffic violations, juvenile delinquency, code and animal violations, and other things that detract from the safety, beauty, peace, and stability.
541	Wider sidewalks and slimmer roads
542	Stop the development
543	More education about the horrible roadside trash problem

544	Increase the number of parks that are inclusive for all abilities, an improved water park/pool, increase city limits to include the growing subdivisions outside of the city limits, the ability to recycle glass,
545	More clothing stores. More entertainment for our youth.
546	Better zoning, especially for the older neighborhoods. Specifically, areas where single family homes and multi-unit rentals (duplexes and homes that have been divided into multiple units) are interspersed.
547	I'd like to see more connection between the Latino community businesses and the rest of downtown. I'd also like to see one or two more good restaurants downtown. I'd like for people in NWA to see Siloam Springs as a place they want to visit on the weekends.
548	I would like to see an expansion of the Farmer's Market as well as follow through with the plan for the park overlooking the creek just northeast of downtown. I would also like to see Sager Creek cleaned up - often a lot of trash in the creek.
549	I'd like to see the culture shift away from being so car-centric in thinking, with elimination of minimum parking requirements, sidewalks replaced in old areas and required in new development, and street diets in places where roads are so wide that it encourages speeding. I'd love to see infill in the downtown lots where buildings are missing. I'd love to see zoning that encourages urban density in appropriate downtown areas. I'd love to see code enforcement against "demolition by neglect".
550	The fact that Siloam isn't a "christian" town. There are several other under-represented religions that are ignored in order to keep your christian stereotype.
551	More affordable housing, particularly apartments, duplexes, and condominiums. More internet providers. And some infrastructure improvements on the east side of town, particularly storm drainage on Hwy 16 towards 412.
552	Better traffic flow on 412
553	I would like to see more collaborative projects and planning for supporting the "least of these": those with disabilities, those trying to overcome life challenges and people who are new in town.
554	Please consider researching/providing in the future: strategic, easy access, free charging stations for (vehicles), e
Please describe how you would like to see Siloam Springs in 2040.	
1	More businesses, larger community, more opportunities, GROWTH!
2	I want Siloam to continue to grow and kind of be like a smaller and more affordable version of Bentonville. Bentonville obviously has a lot more things to do which I think Siloam could benefit from but I want Siloam to retain its small community feel and to be more family oriented and affordable for the types of lower-income careers that are available in Siloam. I would love to see all the historic homes restored. A slightly bigger historic downtown would be great for us.
3	Lively and prosperous, with a vibrant downtown that attracts tourists to visit and people to move here. Creating a melting pot of diversity while maintaining our strong sense of community!

4	More bike and Walker friendly. Use natural landscaping and local plants. Support small businesses and encourage tourism.
5	Clean and safe with plenty of jobs, restaurants, shopping and outdoor activities. More sidewalks for walkers.
6	A safe and beautiful place to raise a family and continue to help the world be a kinder and better place with community and nature.
7	Larger population, increased traffic, be prepared
8	In 2040 I hope Siloam Springs still feels like a loving small town where people can feel comfortable raising a family and taking care of their extended family.
9	Vibrant, diverse, home
10	Successful businesses, eventful town, safe and able to continue having that small town feel
11	More connected, invest in public spaces, parks, trails. Highlight downtown and creek and springs.
12	Growing more and more options for families to get out and do things as well as for kids.
13	I would like to see Siloam Springs bigger and BETTER. We should come up with unique ideas for what that needs to look like. The education here should be the gold standard, all of them. The workforce should be supported and dedicated. Businesses, even competitors, should continue working together on behalf of the community.
14	I would like to see Siloam Springs continue to grow and attract more business. I would also like to see Siloam Springs develop a tourism base.
15	Thriving
16	A place people would want to visit. Quaint, known for our sense of community.
17	green-sustainable lower utility costs
18	In 2040 I hope Siloam Springs will be a place people want to settle, and a place that
19	I hope Siloam will be a growing and diverse community. Clean up some of the areas of town that are not so nice. Have the best school systems for special needs children's. I hope it to be the go-to place for innovative learning, new business startups and community growth.
20	Safe, small town, pretty. LESS CEMENT
21	In 2040, I hope that Siloam Springs will be a small town, similar to what it is now. I would like that we are NOT another downtown Bentonville or Rogers.
22	In 2040 I would like to see Siloam Springs host a profitable infrastructure with a small town vibe. We have some wonderful new additions in town for business and gathering places, but I would love to see more regularly scheduled community events. Above all, I want to see progress without pricing families out of town. The affordability of Siloam Springs is quickly becoming equivalent to the horrors of cities like Fayetteville and Bentonville when you consider utilities and general cost of living.

23	More places like the kayak part and redneck yacht club. We should have land for recreation not population. We should have places to go "muddin" that are just for that. We should have less illegal immigrants. We should not allow landlords only to rent to hispanic people. I don't want to be discriminated because I'm not brown and it has happened a lot in this town. The Barrios Properties owners are completely renting to hispanics and despise white people.
24	Britches that fit. We do NOT need any bigger!
25	In 2040 I would like to see a city that is continuing to grow
26	Traffic not so jammed up on 412 next to Walmart
27	Just the way it's always been. People move here for the community and small town feel. We don't want a Fayetteville or Rogers, if we wanted that we'd move there! I think people want growth and to see more out of this town without giving up what Siloam really is. This town was built on families and small business owners, if anything could change I would want to see more support for the little guys.
28	A family friendly place that people love not only to visit, but also want to live and put roots down. Not following big town developments, but creating something unique where families thrive and people want to raise their families.
29	A medium size city that is a stand-alone city unlike the cities in the I-49 corridor that'll all be one big metropolis. Siloam will be an economic hub for western Benton and Washington counties and eastern OK. We should have better streets, lots more walking and biking opportunities, housing opportunities for all, more jobs, more recreational amenities, a full service recreational facility, maybe a hamburger tax to pay for it, a local bus service that ties to the regional bus service.
30	More growth in residents and business and activities.
31	In 2040 I would like to see Siloam restored to its former grandeur; specifically the springs. I would hope it can maintain the small town feel and warmth while keeping up with the growth changes that are inevitably to come.
32	Vibrant
33	Police friendly, remove the aggressive police look from the town, lose the tactical look. The way the police vehicles and officers present themselves says a lot about how the town feels about its citizens. Put lights back on top of cars, white cars with black lettering, officers should dress in non-threatening form. Let's ease tensions in the town. Pay police officers for "volunteer" work cleaning up the town, literally picking up trash. More of the serve than the protect.
34	a growing town with a small town vibe with vibrant social/night life
35	I hope Siloam Springs will be a place for growth of young, developing families. I hope that there are more job opportunities and that crime can be reduced with a new focus being put on safety and community.

36	Something where if I were to move away for a bit and came back that I'd still see the siloam I know and love today. Where it's still beautiful, and old buildings that still have a purpose. A grown community that loves their town.
37	More of the same. And a chick-fil-a! :)
38	I honestly wish Siloam would stay the same. I don't want it to get bigger
39	I hope that it is a place that is more diverse than it currently is; is friendly to small, local businesses; is known for its hospitality, quality of life and low cost of living. Also, it would be great to see more recreational opportunities to keep people in town but also give reason for people to come visit.
40	Very much the same, with appropriate growth accounted for.
41	I hope Siloam will be financially responsible and take care of roads and other important safety issues in the town before adding on unnecessary new buildings and street improvement plans (Main St). We also need more housing. The city is growing and there needs to be more housing.
42	I hope the town will still be growing and there will be more businesses but yet keep the small town feel.
43	Thriving with small businesses and not overrun by big market industries. A place where everyone still comes out to support the Panthers whether you have a kid who is participating or not. A safe community of people who care for one another.
44	In 2040 I would like to see the churches not dictating our town's future and progress as it should be, we have a lack of separation of church and state.
45	Still have that small town feel, but still be growing
46	still have the small town feel.
47	More things to do so we don't have to travel to Bentonville, Rogers, or Fayetteville. I love a town with a small town feel but still offers plenty of amenities.
48	The same home town feel with some of the downtown buildings revitalized and used not sitting vacant. Use the space we have and stop building more.
49	In 2040, I hope that my kids will still feel good about raising their kids here.
50	I hope to see Siloam continue to grow and thrive
51	In 2040 I would like to see Siloam Springs grow to be an attractive town to all people regardless of background, abilities, age, or any other characteristics that can divide a community. I would like to see a diversity in restaurants, businesses, and entertainment. It should be a place where those who visit can find respite and be inspired by the creativity and beauty in Siloam.
52	I would like to see Siloam balanced. We continue to grow towards the east because that's where the land is. But we must not turn into one of those towns that's abandoned the old parts. Be creative and open minded in growth opportunities.

53	A leader in environmentally sustainable living/business and focused on community.
54	I would like to see SiloamSprings more environmentally conscious. Recycling should be encouraged more along with planting more trees.
55	I would like to see the city making sustainable budgets to insure all city entities have the ability to sustain northwest Arkansas growth. That we continue to bring our community together through wonderfully planned events that engage the whole community at all ages. I would also like to see green spaces maintained and more accessibility for all to encourage healthy movement and outdoor recreation for all residents.
56	Larger, having grown without having lost its small town feel and charm. More local options for shopping and eating. A less narrow minded and more accepting community for those who look different.
57	In 2049, I would like to see Siloam as a family oriented, resident first town.
58	In 2040 I would like to see more multiuse trails and family friendly greenspaces. I would like to see a continued small business oriented outreach with no more factory or large corporation facilities than is already here. I would like to see residential areas with yards for each home rather than multifamily complexes.
59	Better paved roads. Not all roads in the city limits are nicely paved
60	Small town with the best school District which make it lovely place to live and raise children. Surrounded by nature and being an ecological / natural option for tourism and adventure.
61	A viable, growing, diverse community
62	Safer, cleaner, less congestion, more outdoor food options.
63	Restored and user friendly
64	A vibrant small town
65	I hope the downtown will still be preserved and have a nice atmosphere. I hope Cafe on Broadway is still there.
66	Still thriving. I would like to see the homes around downtown refurbished where possible.
67	Less difficult to drive around.
68	Hopefully Siloam will have things to do because it sucks when we want to go do something fun we have to drive to Fayetteville, Rogers or if we want something that isn't fast food or Mexican food we have to go out of town
69	More connected to the rest of Northwest Arkansas. I think by 2040 we shouldn't feel like an outsider in Northwest Arkansas. It should be Springdale, Fayetteville, Bentonville, Rogers, and Siloam Springs.
70	More community events
71	I hope that in 2040 we have grown quite a bit, but I also hope no matter how big Siloam gets it's always that small town feeling
72	Idk

73	I'd like to see more progressive community outreach programs especially since we have so many businesses that benefit from our people being held to low wages. It would also be nice if Simmons could move spend a few million to get the plant that literally makes our entire town reek out of our downtown and into the country. Perhaps by the one they just built in Gravette?
74	Will not be much bigger. Affordable housing for those who work in the local industries, less crime/drugs.
75	Continuing to grow and prosper while continuing to keep the citizens, residents, and small businesses at the center of its plans.
76	More like Fayetteville.
77	Conservative values with equal treatment for all, not just a select few.
78	A place my kids would be proud to call home to their families.
79	We hope that in 20 years Siloam will be a place families will want to raise their children. A safe and thriving environment. BUT still with the small town feel!!
80	I would like to see a greater variety of price points and options for shopping and restaurants for a wider variety of economic standings. I would like to see even greater support of our community assistance programs and more visibility for them. There is a lot of poverty in our community and I hope our city and community can continue to support those who need us most.
81	A modern, small town full acceptance and thriving local business.
82	more factories for people to work instead of having to drive out of town to work
83	In 2040 I hope siloam springs is as amazing as it is today!!
84	Neutral. No politically correct flags and structures to separate us. We can't be United with visible signs of separation. We are the US, that's all.
85	Will be a place I still enjoy calling home
86	A progress community that uses it's resources for sustainability.
87	I hope to see the same loving community we have today
88	A diverse community that embraces the past with a face to the future and legs to take it there.
89	A nice place to live and work like it is now.
90	A leader in growth but still conserving the natural beauty that it has to offer.
91	I hope that Siloam Springs will be more diverse in 2040. Diverse as a community, in its attractions/recreational aspect, and technologically. I would like for there to be leniency/ more awareness towards different lifestyles and viewpoints, because everything is so black and white as of right now. I WANT MY RECREATIONAL FACILITY PLEASE!!!!!! As a teenager who has lived in Siloam all her life, I can speak on everybody's behalf when I say that there is not much to do in Siloam!
92	More than a bedroom community for the 49 corridor. That the city will be a thriving place and it's own destination in nwa.

93	I may not be alive or living her in 2040, no telling what will happen in the next 20 years.
94	No more useless spending on parks and bike paths
95	Welcoming, vibrant community where you can work,rest and play!
96	A safe and vibrant community for my children andgrandchildren to thrive
97	I want Siloam to be welcoming, active, and a destination. I want people to come to Siloam rather than passing through.
98	I would like to see Siloam in 2040 as a twin that has the family friendly environment and the small town feel. While being able to accommodate new businesses and innovation.
99	More items for family participation
100	Family oriented, safe place to raise a family, strong support for first responders.
101	A community that encompasses success for everybusiness and every citizen. A safe community that allows my children and grandchildren to benefit everything the community has to offer without being in danger.
102	Still with the small town feel, everyone helpingtheir neighbor, love to see more family or teen friendly activities or venues. Mini-Golf, Skating Rink, etc. Also AFFORDABLE housing. A duplex or apartment renting for \$1,000 plus a month is not affordable. The prices in the bigger areas around us are much cheaper. Fayetteville has apartments for\$550 and up.
103	I hope Siloam Springs always has the small townfeel but at the same time stay with the time.
104	Having a thriving private school option, and businesses that provide a higher quality of life.
105	Safe, friendly, downhome kindness
106	Safe, generous, kind, beautiful, prosperous, healthy
107	Safe, modern. I think we need a strong push to update and renovate so many of our aging and dilapidated neighborhoods. Particularly around downtown. I would like to drive into Siloam, particularly from the East and see a town that appears to have a master plan moving forward. Would be nice to see commercial buildings appear to have building codes that encourage being aesthetically pleasing and adhering to those codes moving forward. Our growth looks so disjointed currently.
108	I hope and pray Siloam will not abandon its hometown roots where families are safe! Families are the foundation of our town. Most people are drawn to Siloam by who we are. Most move to our city to embrace it but the few who move here to change it based on their insecurities try to "fix" it! They are small but loud and the city board has beenlistening to them in an effort to not "get left behind"! Siloam is history strong for a reason! Conservative values are valued by its people!
109	Safe, friendly and not destroyed by whose movinghere Respecting our police, firedept and elderly

110	412 more attractive. It is what most people see when they pass through town.
111	A small town clean and safe to be on the street
112	Much the same
113	A wonderful place to live with many shopping anddining options comparable to a medium sized town in the USA. A place with a high quality of life, aplace that people of all ages wants to live, work and play.
114	I'd like to see our entire towns infrastructure streets, drainage ect as much of a priority as the down town district currently is,
115	Still family-friendly, just growing in a sustainable way.
116	I would like to see Siloam Springs as that really cool smaller alternative to living in NWA that is known for its entrepreneurial spirit.
117	Welcoming community to all people from various cultural backgrounds.
118	I hope we are better at planning. Zoning provides entitlements and we zone without knowing exactly what is planned. We annex property and then provide development rights with development being proposed. We need a holding zone and a way to tie zoning and proposed development together so that what is proposed is what gets built
119	Preserved.
120	I would like to see more family things brought to Siloam. More police patrolling down town city parks. And less expensive to go see a movie with the family. Burn outs like Jay OK and Westville OK. draw really good crowds. Parking lot movies, dancing in the streets, something different, something new and family friendly.
121	Continue to be a family friendly town with a small town feel, beautiful downtown area
122	A thriving community
123	Have a better traffic plan. More outdoor spaces.Feel as safe as it did 10 years ago.
124	Thriving with events downtown and easier pedestrian mobility.
125	Strong commitment to family/community; Vibrant businesses and esp. dining; more outdoor activities; diverse schooling options; decreased utility costs
126	A town with character that retains its guiding principles with becoming a larger, disconnected population mass.
127	I hope we will be a progressive community that has brought in industry, jobs, housing and local business for all. I would like to see pocket communities and smaller schools, so that an elementary school of K-4 would be located within walking distance of a few neighborhoods. Continue to expand our parks and help downtown and local businesses thrive. Bring in commerce from 412 to other parts of town.
128	In 2040, I hope Siloam Springs will have thriving local businesses that invest in creation and culture care. That there is a vibrant private schoolooption. That there is a diverse community and church presence.

129	A community that has truly integrated the diverse populations that live here. That has a vibrant, attractive downtown.
130	Thriving Community pride, intentional place to live, work and play.
131	More owner oriented too many renters that do nothave investment into our town
132	In 2020, I'd like to see Siloam Springs be the neighborhood of NWA where people want to raise their families and retire.
133	More diversity in the city board, community leaders, and businesses. More green spaces. More opportunity for locally sourced goods and small business growth. More connected community.
134	Able to maintain it's small-town character while handling the growth that seems to be inevitable.
135	Will still have the Siloam spirit and the smalltown feel
136	The exact same way it is now
137	Wish the park would get a bigger skate park ora bowl would bring more adult/teens out maybe not rent out all the pavilions and tables out so others can sit and enjoy without getting kicked to grass(happen twice) more family events four youngerkids
138	I would love to see our city grow, like we have seen in the greater NWA area. But I would like to see that home town charm kept in the design of the future city. Not simply growth unchecked, but purposeful planning with the long term community in mind. Sustainable green space should be common throughout. Because who doesn't love a tree lined neighborhood street?
139	A bedroom community of the I49 corridor metroplex. Make Siloam Springs a home, not a show pony!
140	Sustainable growth in both population, as well as businesses. A walking community centered around the downtown environment.
141	A tighter knit community. People always make excuses of why they don't go downtown but always say they "support local" while crying for a chili's restaurant. I would like to see more involvement into getting people to support local places.
142	I hope it will still feel like a small town. I hope that a variety of business are thriving and there is plenty of things to do with your family.
143	I hope Siloam will be very child-friendly and family oriented.
144	I hope Siloam continues to grow into a family friendly small town with vibrant community and events, but I hope that doesn't lose its charm like Fayetteville has over the last ~10 years.
145	A safe, secure welcoming community to God loving, patriotic citizens.
146	A place where families can have a variety of activities to do without going to bigger towns.
147	Safe, kind, family oriented , parks and educational opportunities for you and old alike. Affordable housing with safe parks and programs for residents.
148	The number one place to settle and raise a family. A place that has safe family friendly things to do. Plenty of shops. But still maintains the "hometown" feel.

149	Not like Fayetteville.
150	If I could change anything about Siloam Springs,I would like to better traffic flow in school areas.
151	A continues growing town as the core door will for sure be connected by 2040, where we still can rely on safety and respect for each other A truly vibrant downtown where operates at least 12 hrs a day with a fully pedestrian Main Street
152	Outdoor destination town
153	In 2040, I hope Siloam would be a continuation of the boom/expansion that NWA (Bentonville/Rogers) is experiencing.A place people can experience some of the fun and vibrant activities but with a more small town feel. Big on local businesses, like the downtown currently is. Maybe even having more festivals/events that bring more small businesses around.
154	Never happen but, the same as today
155	Green spaces, affordable green housing, quaint sidewalk cafes and pop up shops, plenty of outdoor activities for families and kids.
156	more family friendly with more activitiesfor families and youth.
157	I would like for Siloam to be a healthy vibrantcommunity that has grown responsibly.
158	much the same as today
159	In 2040 I hope that Siloam Springs will still feel like the place i grew up.
160	safe, more diverse
161	A small town
162	Green. It's citizens should enjoy clean, pure air and water. Native flora and fauna should thrive. Endangered birds and butterflies should reemerge.
163	Maintaining friendly small town feel with the progression to come.
164	I am sure Siloam will be a bigger town but I would hope that it would still be a Christian oriented community.
165	small town feel with many improvements to trailsand resturants
166	Controlled growth with sensitivity to interaction of the business community with the residential areas.
167	Safe.
168	A community where people can raise their family,enjoy life, start and grow thriving businesses, and a place where folks come to visit from surrounding areas and wonder why they don't live in Siloam Springs too!
169	A town that takes care of the natural resources in ate area, has worked hard to have a system of streets and highways that more than fit the need and are not just asphalt and concrete but also are attractive with what follows alongside the streets.
170	A place families will want to raise their children

171	well i hope to see more things to do and programs to help low income family and other race and not to disown them or treat them means and that all roads are fix . and more business to bring to.
172	One way for the city to prepare for what's on its way is to hire much more police officers, ems staff, Spanish translators, graffiti removing cityworkers, homeless shelters, halfway houses for offenders, and a GIANT new budget to pay for all of the "need" that is coming. Come by my house in 10 years and I will tell you that I told you so...
173	I hope Siloam Springs will still be safe, family oriented
174	just as quaint and vibrant as we are today. Continue to have that small town feel not far from the bigger towns.
175	An educational center, free of violence & drugs(who says you can't dream?!) thriving hospital with adequate up to date equipment & specialists. I personally would like to see a Christian Community looking & preparing for the Lord' soon return!
176	vibrant and family friendly with a well funded and professional police department.
177	I would hope Siloam would continue to be a great place to raise a family with a good school district, great employers and a place that provides opportunities for engagement.
178	Thriving and dynamic.
179	Just as naturally beautiful as it is today. I would like to see a more vibrant downtown.
180	A safe and beautiful as it is today.
181	I hope to see Siloam Springs in 2040 as a tourist city like Fayetteville. It should get put on the map! I hope to see a lot more businesses that serve to everyone's needs so we won't have to travel to other cities to get what we need. Also a lot more restaurants like Whataburger!
182	A community where Christian values are evident. Continue to grow in the regional NWA area and support local business.
183	Clean, well maintained streets and sidewalks. Full employment. Highly achieving schools. Many locally owned businesses, and fewer box stores and chains. Thriving and authentic local culture, free from appropriation by opportunistic developers or "visionaries". Low taxes. Traditional, family oriented values.
184	SS will be the first community in Arkansas with 100% utilities powered by renewable energy (wind and solar), zero land-fill, and the rest of Arkansas will look to SS for "how to"!
185	In 2040 I hope Siloam Springs will be a thriving city with a fun and full downtown area and enough open space left for outdoor activities for everyone to enjoy.
186	I hope SS will be the 1st 100% renewable energy (wind and solar) community in Arkansas with zero land-fill. To be the place that builds for a sustainable future.
187	A safe place to live and grow with the same hometown feel!
188	The same small town feel without a lot of big business.

189	In 2040 I hope Siloam Springs will still be family friendly with great options for outdoor activities, great schools, many church activities, kids' sports... I want there to be the small town atmosphere. With John Brown University nearby and so many churches, I want there to be a Christian feel where Jesus can be proclaimed and His message lived out in love. I hope there will be competition in internet providers, a thriving downtown and people will still be known on a first name basis.
190	A jewel, gateway to NWA
191	Expanded to the east and south with more family homes as opposed to more apartments and duplexes.
192	By 2040 I hope Siloam will have expanded to maybe 30,000 people and have a better tourism scene
193	More racially/ethnically diverse, more
194	More safe More bike friendly
195	A regional model for an environmentally conscious, yet economically robust small city.
196	* Free people/community * Safe Community- safe to walk around town (not referring to virus - but rather safe from crime) Connected community - more music in the park nights, etc - like there used to be
197	Hometown friendly, progressive fiscally stable
198	I would like to see a growing city with much attractions and a mall. I would also love to have all the roads in great conditions.
199	I would like Siloam Springs to have a reputation as a safe and family friendly town. It would be lovely to see Siloam maintain its beauty and charm, and keep the small town image.
200	Prospering as a cohesive, respectful and Constitutionally free community.
201	I would like to see more diversity in the major areas
202	Vibrant downtown...full occupancy businesses, restaurants, outdoor eating spaces, historic preservation (homes, neighborhoods & businesses), JBU strong, neighborhood schools + local school leadership, Arts Center (theater, art gallery, greater diversity in community committees, strong parks & rec options
203	Sustainable, environmentally friendly,
204	A place where Christianity is still a bedrock foundation of the city. That philanthropy is private and the city government avoids leveraging special interest groups. A city that taxes us as little as we can and supports private activities to improve the city.
205	I would want it to be about the same. The last thing I want is to become more like Fayetteville.
206	In 2040 I would hope that SS would still have a vibrant downtown, a good business base for good jobs, and still be considered a bedroom community to the corridor.

207	In 2040 I hope Siloam Springs will still have a small town feel and be a safe place to live and raise children. I hope trying to be "cool" or "relevant" doesn't cause Siloam to lose the wholesome charm it has now.
208	No slum-lord rentals. Lots of privately owned homes even in the lower priced neighborhoods. Easy vehicle access to the entire town without having to navigate with the semi trucks and through town traffic on 412. More support for youth baseball and other possible youth activities.
209	a vibrant, diverse city with a small town feel that also welcomes small business & entrepreneurs, with affordable housing options & safe community. Family-focused invested in the quality of life of all citizens. Interested in growth but not just to compete with larger NWA suburbs, investing in infrastructure to allow for comfortable population growth ie build roads before we outgrow current ones. More inclusive of minority population, we have reputation of being a typical racist small town.
210	I hope it is similar to how it is today! Minimal growth/expansion would be great. I would like to see the City cultivate the good things that are already going for our town, rather than seek out new and expensive ventures that redirect the current culture.
211	I hope Siloam Springs will still be a great place to raise a family. I hope it will be a pleasant place to retire as well!
212	I would like to see a welcoming and culturally diverse town that has many opportunities for young professionals to the active retirees. Could the Franklin building be a community center - rec center, indoor pool, climbing walls, etc.
213	I hope that, unlike many small town that try too hard to make themselves like the cities most of the people left to come here, Siloam keeps it's down-to-earth, no-nonsense vibe where community is built on trust, not regulations.
214	I would like to see Siloam springs as a quaint, conservative, friendly alternative to the other NWA cities. No frills or fuss, not trying to make a big impression or attract tourists but I like a nice place to live and grow a family.
215	In 2040 I hope Siloam will be...a city that is different than the highly commercialized cities of the corridor. We still need places for families, cities that are safe and built upon the lasting values that made America great to begin with. Specifically, faith - family - community - history - service - and where we are more concerned with who we are than with keeping up with some other entities. It should be a place where our children can expect to raise their children in a similar environment.
216	More diverse more shopping, better bike paths, and streets
217	Great schools, small-town feel but with job opportunities to keep people here.
218	Stay family oriented, remain fiscally sound, Maintain a small town environment.

219	A place where visitors stop and look around. A town that people in NWA drive to for afternoon or evening. Clean, family friendly, and food safe community.
220	...a place where families are raised with opportunity for cultural engagement and various educational opportunities, where young people can move to find a supportive community as they begin their careers, where churches are involved in the support structure along with civic organizations...a place to be proud to call home!
221	A model community that has a living, vibrant downtown area as well as personal pride in all residents. Everyone should contribute not just a few. It should be a destination that is easy to enjoy with cheap, available parking, activities, and industry to fuel improvements
222	still a small town feel, but with the most up to date infrastructure, schools and healthcare
223	In 2040 I hope Siloam springs is less about Christianity and more environmentally conscious
224	Not that much bigger than it is now! Progress is good, up to a point. I think it's good that we are NOT like those towns/cities along the I49 corridor.
225	Less crime. Less development.
226	Safe place to live with vibrant downtown and more trails to enjoy.
227	i dont know if i will be here
228	I want Siloam to retain, maintain, return to Christian values. Do not take away Christian rights in favor of other rights. Right or wrong we all have the right to believe. This is what I want to say
229	I would like for the city to be more inclusive, and represent minorities, women and LGBTQ citizens. As a minority, I don't feel like there is much representation or focus on minority members of the community.
230	Safe parks, safe sidewalks, safe town in general.
231	More inclusive of all peoples and religions. Thriving local businesses.
232	A improved version of what Siloam is today - healthy growth, financially sound, good schools, good public services, family city.
233	I hope Siloam will still have the small town feel and character.
234	Full of trails and family oriented activity
235	In 2040 I hope that Siloam Springs will still have that small-town feel. I hope they DO NOT bring in a bunch of chains restaurants/shops. That would put a strain on local business owners.
236	I hope it will still be a family friendly town with great outdoor spaces.
237	Best place to live and raise children, with the best district school and lowest crime rate.
238	Thriving with a high quality of life. I hope to see a destination business like an Ikea or Trader Joes anchoring our shopping areas and attracting money from neighboring communities. A well maintained historic downtown that also doubles as an entertainment district. I'd like our parks and green areas well cared for and our events and festivals to be admired and attended by the surrounding region. I hope we use the surrounding areas growth as a model while we improve on some of their mistakes.

239	Same small town feel.
240	more open to immediate change, with focus on arts and small business promotion.
241	I'll likely not be around...but open kind and friendly.
242	Safe. Transparent with the community.
243	Be the same small town that I love.
244	I would like to see Siloam Springs in 2040 as a friendly town and still have the family feelings throughout the town.
245	I can't even imagine! I don't expect I'll be around! ;o)
246	Larger with more local businesses thriving
247	I hope it'll have stopped trying to be like Fayetteville
248	I'd like Siloam to have its own botanical gardens, be growing in families and culture, and have a diverse range of relevant businesses
249	Safe and healthy with a beautiful small town community feel. Still affordable to live with a small town community vibe. I do love the businesses in downtown and them being open a little later, my family enjoys walking downtown in the summer evenings. It's nice to have a safe community vibrant nightlife down there that is community oriented. Not bars!
250	A place I can retire and become more active in the community.
251	I hope Siloam will have more kid friendly places or things to do. They're off to a great start with the splash pad
252	I see Siloam Springs as a destination city. I would view it as one of the main 3 in NWA (Fayetteville, Bentonville, and Siloam) close community, booming local businesses, thriving nightlife, unique restaurants, city wide activities and support. Solids city revenue streams.
253	Still thriving to be a family friendly small town.
254	A bible based community.
255	safe (no crime, no druggies, no car accidents)
256	I hope Siloam has shopping equal to other big cities of NWA: TJMax, Macys Outlet, Mens Warehouse, HomeGoods, Holister... Dining such as IHOP, ChickFaLa, Joe's Italian, hope that the ones I love remain... 28Springs, Matador, Fatillas Pizza, City Parks are nice but there needs to be better traffic control for biking, esp on Dawn Hill Rd. Its very dangerous on Hico/CountryClub/Dawn Hill Rds w bikers going to/from CityPark & Bike Trails. More\$ on improving/widening roads and utility upgrades.
257	as financially stable as those cities on the corridor
258	I would like to see a city that reflects a considerate community that values dialogue and others views. I would like to see a community that respects all and cherishes everyone.

259	Not just a passing through area between Rogers/Bentonville/Fayetteville to Tulsa, but an actual location that people are coming to, to visit and experience.
260	I hope it's similar in size.
261	Well planned growth, small town feel, still allowing for individual rights.
262	A sustainable city that is not afraid to set trends or think outside the box to be environmentally responsible. Protects bike riders by creating intentional bike paths.
263	the same. family friendly small town feel with lots of small unique businesses.
264	I hope Siloam Springs will have more industrial and commercial business to provide for the large influx of population and jobs for the graduating class.
265	In 2040, I hope Siloam Springs will continue to grow with efforts put into our young people today that will encourage them to remain and continue the efforts of growth
266	Flourishing with Siloam's charm still in tact
267	In 2040 it would be nice to still see the town as small town, community friendly, a place that people like to visit and go back home.
268	I hope Siloam Springs will still have that small town feel with businesses and community working together for the people.
269	strong, stable, growing and vibrant.
270	I like the direction that we are going, but I would like to see more family oriented direction. I would like to see the playgrounds expanded a bit. And I would love to see a more interactive splash pad and water park.
271	I'd like to see more restaurants and more affordable single family living as well as apartment complexes.
272	I would like to see that Siloam continued to grow responsible and that we are still a vibrant small town in Arkansas.
273	a thriving community that is a tourist spot. a more diverse (racially, religiously, etc.) city
274	No unkept neighborhoods Roads and pathways in good condition
275	A diverse, inclusive, caring, safe community that has everything a family could need.
276	More beautified city with trees, with planters, clean roadways, updated buildings downtown, help for dilapidated houses Many events and places to bring the community together
277	Family friendly and vibrant in the opportunities experiencing the outdoors. A vibrant parks department. No community left behind by growth and development reinvestment into the central neighborhoods by insensitive to preserve and maintain all parts of Siloam an example would be Franklin TN
278	I would like to see a town that has lots of things for families to do together in a safe place.

279	I would like to see our town as more of a leader in the county as far as businesses, average household income, etc.
280	A place that people can call home. A place where the pace is different and families work and play together. A place where healing and restoration can take place among friends. A place that doesn't forget that helping your neighbor is important. A place that cares more about people than outcomes. A place for deep friendships and transparent conversations. A place where I can be fully known and loved. A place that sees the importance of Godly values being lived out.
281	In 2040, I hope to see Siloam Springs as it is now but maybe the guard rail around the pond on HWY 412 where a couple of accidents have happened. More restaurants would be cool as well. Our City has grown so much and I know there will be so much more to see in 2040.
282	Safe but industrious
283	A lot cleaner and eye catching along 412. Expansion to the East. Annexation of Dawn Hill. More incentive to bring in larger industries. Hopefully a well staffed fire department that doesn't have to place fire trucks out of service in order to respond to medical calls and a well staffed police department capable of better community interaction and policing.
284	I hope Siloam Springs will continue to be a small town. A place that isn't filled with big city problems. I want Siloam to be a place that families want to raise their kids in.
285	It's hard to say. I want it to feel the same yet I know growth is important. I hope the growth doesn't make it into something uncomfortable
286	I hope Siloam Springs will be just as connected to nature, but also has a variety of things to do for the people living here. Rather than having to go elsewhere to get their shopping.
287	...as family friendly and environmentally conscious as possible.
288	Less regulation. Better public safety. Less emphasis on planning/zoning issues and move toward better community engagement.
289	A growing city wrapped around its history and charm.
290	More diverse community. Have great retail stores, have a bypass, have an appropriate mix of residential neighborhoods, have sewer extended to all city residents, more sidewalks and bike lanes/paths, Make improvements to Main Street and Sager Creek in downtown.
291	about the same small town feel.
292	Beauty and safety maintained with strong infrastructure, community oriented with events to build relationships with our neighbors, recreation and entertainment that is family oriented.
293	Safe and thriving. Continue to grow but to stay behind the full blown growth as the rest of the region, but that our growth be sustainable. Continue to provide outdoor activities for the community. Continue to provide excellent public utilities that continue to be affordable.
294	I hope Siloam springs will keep its connected community !

295	More restaurants, a Sam's Club, improved traffic flow, limited/controlled growth to keep small town feel and family friendly. Police properly funded and paid.
296	A leader in the area for environmental health. Everything can be recycled (and actually be taken care of properly), minimal waste.
297	Keep its current character. Cleaner and neater.
298	Much like it is today
299	Still a good place to raise a family.
300	By 2040 I hope Siloam Springs will be a vibrant community that maintains that wonderful small town feel. I want the downtown to be hopping with shoppers and restaurants. I would love to see plays in the park (or in a building set up for that), lots of music (in the park - on the streets - music playing over speakers downtown), local art, crafts, sculptures either being displayed and/or sold in a store. I would love to see a bookstore/coffee place here in town (even used books).
301	I would like to see retail and business growth, especially to the east and north of town. I would hope to see a strong economy with many small and local businesses. I would like to see more cultural diversity and inclusion. I would also like to see many opportunities for time spent outdoors.
302	Keep the same small-town feel while welcoming newcomers to the area. Maintain safety. Cease putting commercial businesses around subdivisions.
303	I hope Siloam will be focused on neighbors helping neighbors, creating a healthy, diverse, and safe community that raises the next generation to be grounded in similar values and beliefs.
304	A place where community can come together from all walks of life and find a place that feels like they belong. A place that feels safe and unique.
305	As new, creatively different, cool advancements, privileged. I want many people to come and visit siloam and think it is just as great as surrounding areas.
306	still a nice place to live
307	In 2040, I hope Siloam Springs will be more diverse and more accessible for families with young children.
308	More restaurants and family activity
309	I hope that it will still have natural aspects along with more food options.
310	In 2040, I hope Siloam Springs will be not too different from how it is now. Siloam Springs is a great small town now, and I want it to stay that way.
311	I would like to see it have more tourism and people coming to the town regularly. I also hope that a lot of the roads that are full of pot holes can be fixed in a more timely manner, as people often don't want to come here because of the roads.
312	Still maintain the friendly, warm family-oriented feeling that we have today. Be fiscally sound and a model for communities our size. Attract

	some new industries and provide more shopping and restaurant options than we presently have today.
313	Vibrant, social
314	Continue to showcase the beauty of our city. While respecting individual rights, do not change our city so that the majority of people have to submit to minority ideals.
315	In 2040 I hope Siloam Springs will continue to be a safe community that values faith, traditional family, education, and constitutional rights. A thriving economy that values small businesses.
316	Still maintaining its high Christian values. Progressive without being compromising
317	Cleaner and more updated looking.
318	In 2040, Siloam Springs will be a desirable place to live and work with first-class educational opportunities, thriving large and small businesses, vibrant community events and engagement, and God-fearing people taking care of each other. The City government will still be small, nimble, and in-tune with citizens' needs and desires. By 2040, there may be a by-pass around the City to relieve the increased traffic on Hwy. 412. There might be a light rail system that would connect to Little Rock.
319	I wish to see vibrant districts and options for daily activities.
320	I would love to see Siloam to still be the great, friendly, God loving community that it is now.
321	semi free and safer.
322	I hope that in 2040, we are just as wonderful of a town as we are now! Still family friendly and above all, a committed community to helping one another.
323	I would like to see many of the houses in poor repair better maintained. Especially around the downtown area.
324	I would love to see Siloam's small, locally-owned businesses continue to flourish. They deserve any and all tax benefits because they are part of the reason Siloam Springs is so charming and special, which brings visitors and new residents. I would like for the sidewalk system in town to be updated and completed, linking with the existing trails so that it would be safe to walk anywhere around town. Hico street comes to mind, as well as Main Street from Pour Jon's up to Lincoln.
325	more economically viable with a wider variety of higher paying jobs.
326	I hope Siloam will be green, inclusive, safe for all, and retain its charm.
327	I would like it to be a growing community with more restaurants
328	I would love to see Siloam Springs as a wonderfully diverse area that is accepting and welcoming of all people. I would love to see community involvement in our schools and I would love to see plenty of opportunities for the youth of this community to grow and be challenged.
329	Known for small town feel, safety, beauty, and downtown have parking garage available. Think about where new businesses are placed.

	Weird that a carwash is in front of Hampton Inn instead of a breakfast place. Median signs removed. 412 less busy.
330	I would like to see a variety of food and shopping options, more community building options and a new high school baseball/ softball complex.
331	a small town, that is welcoming and friendly and conservative.
332	Still have a small town feel and small town community spirit...even with managed growth.
333	A great community that we can raise our kids and grow old in.
334	I hope Siloam Springs will be a thriving community that still has the small town feel.
335	A safe place live and raise a family.
336	In 2040, I would like to see Siloam competing with the bigger cities around us for new businesses and restaurants. I would love to see us at the point of growth where we can diversify the restaurant options more, and bring in new selections.
337	In 2040 I would like to see Siloam Springs have the same vibe and vision that it is building now, responsive to the needs of the community and responsive and inclusive of ALL individuals who choose to make Siloam their home.
338	I hope that by 2040 Siloam Springs will be a town that has shifted toward being more resilient and locally-focused. Further growth of the sprawling suburban development (big-box stores, huge parking lots, housing far from workplaces, etc.) is a scheme doomed to fail in the next century. The future of Siloam Springs should focus on localizing supply chains, expanding downtown, encouraging locals to start and keep businesses here, and making it a welcome place for families to put down roots.
339	I want Siloam Springs to be an incredibly diverse and welcoming place.
340	I would like to see Siloam keep a sense of common values and that be what's sets us apart from other communities. I would like to see us be a connected community where people still speak to each other and are active. I am truly concerned about the lack of values and respect among people.
341	Growing new industries, shopping, eating establishments and better use of surrounding land with housing that is not cookie cutter.
342	Growing community with the same hometown feel.
343	More focused on small businesses and community with more nature preservation and outdoor recreation.
344	The restoration of Downtown continue up Main Street towards Walmart. I would like to see complete side walks throughout downtown and connecting to all the public schools. Additionally, a biking path that connects the City Lake area to the rest of the recreational paths in town. Lastly, a biking/walking path connecting Siloam Springs to the Greenway.

345	I hope that the town will still retain the ability to have quiet peaceful parks and a quiet downtown area, while still being able to grow in population and size. I want the business/commercial parts of the town to be separate from the downtown area, so that downtown and the parks can still be peaceful for playing, relaxing, walking, jogging, biking, etc. without the noise of a lot of traffic.
346	a wonderful place for families to live and work.
347	In 2040 I hope the city will be up to date on par with current standards. I hope it holds on to the God given standards set forth in his word. I would love to see it as a safe place for my grandkids to grow and enjoy the fun I got to have as a kid here
348	I like the current trend we are on, in 2040 I hope to see continued growth in our downtown that attracts residences from all over NWA..added restaurants, etc. I hope to see continued growth along 412 as the business' brings a economical boost and options for all who visit. And I would like to see Siloam continue to grow some standards so that our daily residence's reflect this evolution.
349	More things for kids and teenagers to do. Less crime. More Businesses to compete with Wal-Mart.
350	Not too different than it is today. I want it to continue to reflect character and family values. I don't think Siloam should bend to those that move in but that those that move in should be aware of what the community values are and only come here if that is what they agree with. Don't come here to change something you know nothing about.
351	I hope Siloam will be a place that I want to retire. I hope we still have that small town charm and aren't too big.
352	By 2040, we need to have built newer school buildings. The Middle School, Northside, and Southside have been added on to, and expanded to the point that teachers are spread out so much that teaming is nearly impossible. Grades are separated and even though there may be at least two grades per building, there is little to know interaction between grades. Neighborhood schools are a MUST! The high school should not be the only school building the town should be proud of.
353	I think it would be really cool if Siloam Springs became the place that I live, and not just the place that I work.
354	In 2040, Siloam Springs I would love to see outdoor classrooms at the high school (that the city donated on it's "marsh" area)....I'd love to see that. It's so much easier to teach ecology and biology when you're surrounded by it. We've wanted to add structures near the wetlands, but my understanding is that it is city-owned.
355	In 2040 I hope that Siloam Springs will have grown in its ability to provide services for the community, but I would like it to have the same feel. Siloam Springs has a beautiful, small town feel while having many conveniences. This feeling is important to preserve while providing more for people to do.
356	I hope Siloam Springs will be a safe, family friendly, and economically prosperous community. I hope we will invite new industries that will

	provide jobs for our residents. I would also like to see a high quality assisted living facility for our elderly residents.
357	I would like to see a vibrant downtown area that is family and business friendly. I would like to see the parks preserved and a lot of options for families to spend time together. I also hope that some of the small businesses that are downtown are still thriving. I would hope that Siloam will still have the small town feel that it always has.
358	I would love to see Siloam become the fun, young, family-based suburbs of our bigger city sisters to the east.
359	In 2040 I hope Siloam will be very much like it is today. Main Street has been instrumental in listening to the public and building infrastructure with a view to the future. We graduated from JBU and stayed here by choice as opposed to moving to Rogers when offered a job because of the overwhelming number of educated families also choosing to stay. Siloam should continue to support culture, education, healthy living, and safety.
360	No bigger
361	Clean, still small town feel and still family oriented.
362	the same friendly town, carefully maintaining the infrastructure to match the growth, and limiting the number of apartment buildings.
363	I think I've already stated that in Siloam Springs Today, but again, that SS will stay the course of continuing to be a family-oriented community. Continuing to restore old structures and take pride in where we live. I would also like to see more non-profits focused on helping the homeless and needy.
364	Growing because of its unique true small town values of order, safety, cleanliness
365	A place that is family oriented and business friendly. A place that is growing, but, still recognizable.
366	oh dang....I'm not that creative. However, I'll be ready to retire and it would be nice to feel like this is where I want to stay. We moved to Rogers in 1998. We moved here in 2018. I really don't want Siloam Springs to turn into the suburban like community we left in Rogers. Some growth is necessary, revitalization....but I want to live in a small community. I live 3 mi from town. I don't want to wake up in the middle of town one day. Please respect and preserve the green spaces!
367	Siloam Springs be the hub of Northwest Arkansas for tourism and natural beauty as well as health/wellness and safe faith based community.
368	A thriving community in the arts that others out of town want to visit.
369	By 2040 I hope Siloam Springs continues to promote business and industry by not getting too strict with environmental crazy ideas. Widen major roads in growth areas ahead of the growth. Have a Hwy 412 bypass south of town.
370	It would be nice if kids seeing pictures of Siloam Springs from the 2020s could say they know the places they see in the pictures. We

	can do that today with photos taken over 100 years ago. Connected with the past, while moving to the future.
371	Totally modernized except for the old up town which would be an historical landmark.
372	In 2040, I hope Siloam Springs will be a place where my children will want to stay and be a part of the community. It will be a place they have loved and long to raise their families. It will be relevant, flourishing, and provide what my family needs while still maintaining its small hometown feel.
373	A town that welcomes environmentally friendly business that contribute to reducing global warming and develop new technologies that reduce our dependence on fossil or nuclear fuels.
374	Like it is today...thriving and growing but nothing changing values
375	What it is today but stronger
376	A unique community that is fun for families and young professionals that caters to a varied and diverse population, where people come to infuse their money and time into unique popular events and rating the living conditions and tourism as top notch
377	In 2040, I hope Siloam is still a great small community, caring for each other and open to businesses producing economic prosperity but maintaining community involvement.
378	A place that has grown significantly. The trail connections to be in place in connection to the rest of Northwest Arkansas. A place that has grown significantly with much alliance to that of the rest of the big 4 areas around here. Increase daycare services to support the growing community of people.
379	Still working to include all
380	I hope people don't come in and try to change our sweet town. I love it just the way it is.
381	I would like to see Siloam Springs keep the family atmosphere and be able to walk around and see people outside utilizing the parks and amenities.
382	In 2040 I hope that Siloam Springs will still be a place that conservative families feel safe to raise their children. I hope there will be even more school choices and activities for all ages to enjoy. I also hope that it will be a place where community is encouraged.
383	Will be a beautiful city.
384	In 2040, I hope Siloam will be increasingly connected with sustainable infrastructure that leads to vibrant business as well as safe and healthy community for a diverse cross section of family size and income. We need to plan for affordable housing. We need to keep, maintain, and repurpose our old and historic buildings. We need to prevent sprawl and support thoughtful growth.

385	environmentally friendly town with little waste, great variety of business and a friendly atmosphere
386	I place where there are police to protect us, good police who get paid enough to keep them in Siloam and not moving away because Siloam pay is to low!
387	That we will still be a community that cares about faith apart from what more liberal communities are doing and that our schools will continue to improve their facilities. I hope we will still have a community feel.
388	In 2040 I hope Siloam Springs has remained committed to doing what is right for the people that live here with a focus on limited government, limited/smart spending.
389	Still a safe charming place to raise a family. Beautiful downtown and a safe corridor to travel through it.
390	Thriving, yet still a small town...I hope it will still be my home.
391	I hope that it continues to grow, while respecting the natural history of the area and the heritage of the land where it is located.
392	A safe location to raise children of good character and morals.
393	I would love to keep the small town feel but I would also like for there to be more places for teens to hangout in town.
394	More job opportunities/old factories repurposed for economic growth. More local restaurants, coffee shops, bakeries, etc
395	environmentally responsible as well as ethnically diverse and equitable for all families. Strong partnerships between the community and schools.
396	Have many more restaurants and places to shop as well as more fun places to take your family to.
397	Connected diverse Community
398	A town that has welcomed and embraced economic viability that the Illinois River has to offer. A town that focuses on the health of our waterways, and plants trees, and is worried about the quality of our drinking water that is brought from the Illinois River.
399	Serving each other in new ways and connected because of this. Providing, planting and protecting lovely parks, gardens, and opportunities to gather for conversation, play, exercise, enrichment and learning.
400	retain its small town feel. Have housing for all, but
401	Balanced housing for all, retain small town feel, more retail shopping opportunities
402	larger in population to draw & support more unique businesses (don't need more big box stores or chain restaurants). Hopefully downtown will be more easily navigated by vehicle; parking is too close and trucks stick out making driving hazardous
403	A place that maintains conservative principles while offering a diverse selection of businesses
404	Safe and moral place to raise a family!

405	a place that puts people first, values children,families, individuals a place that has cultivated quality over quantity a place that that prioritizes environmental and and financial sustainability a place that treasures and expanded its green spaces a place that seeks to be financially healthy and stewards well a place that honors cultural diversity and seeks understanding a place that cares well for those less economically well off a place that balances innovation with preservation
406	Still a small town feel, based on the intentional layout and precedent placed on in-person connections. Small business friendly, not a bedroom community, home to the family oriented and outdoor enthusiast alike.
407	Not cram in new crowded subdivisions next to single family homes.
408	HOPEFULLY MUCH THE SAME AS NOW, WITH BETTER INTERIOR ROAD QUALITY
409	In 2040 I hope Siloam Springs will still maintain a small-town feel, even if the population grows. Highlighting local heroes (teachers, fire/police,community volunteers); all-community gatherings (like at the amphitheater); encouraging our youth in their achievements; supporting non-profits and local businesses.
410	NOT over-developed...planning is key.
411	a small town still.
412	I would like Siloam to stretch all the way to Tontitown and be filled with businesses, restaurants, etc. I hope the town succeeds. I want us to grow into a larger city. I would love to see more parks and a second aquatic center. We need something to attract people from other cities. Like a museum, aquarium, safari.
413	In 2040 I hope Siloam springs will continue to be a clean and safe place to live.
414	Vibrant and still growing, but with a solution in place to keep all the new neighborhoods from having cars parked on both sides of the street.
415	a place that people visit from all over for outdoor adventure.
416	Still the small town feel,
417	As beautiful as current, with diverse housing, better health care facilities for aged population
418	A small town with a small town atmosphere
419	Free from debt, good leadership that follows through and keeps their word, honest people in charge, saving more money than they are spending
420	A clean very safe place to raise a family. With a few more manufacturing companies and a growing retail sector taking advantage of our strategic location
421	Improved housing to rival outlying communities. A food emporium featuring ethnically diverse foods-there is a good

	example in Easton, Pennsylvania. A high end market or co-op similar to Fayetteville
422	Exactly the same. Keep businesses on or near 412 and keep the residential area just that.
423	Focused on thriving and growing just as they are now.
424	I'd like to see Siloam to become more diverse and welcoming to all
425	I would like Siloam Springs to become more of a place where people come to eat great food and visit some amazing local breweries. When I travel to a new town, I want to check out the food scene and the local breweries. If we are able to attract more people from out of town, that will increase the tax revenues spent in the town, which will drive the investment in the infrastructure.
426	A lot like today
427	That all this innovation don't destroyed our peaceful hometown
428	A business diverse town with a strong diverse local economy that incorporates and promotes culture identity, not shames culture identity as micro aggressions.
429	still small town feel
430	The same as it is today without a ton of growth
431	Environmentally responsible
432	a sought after place to live, especially for seniors
433	a place that is appealing to the eye and looks as if there was some planning as to where businesses are located... a place where one can find healthy food to eat without having to drive to Fayetteville, Springdale or Rogers...a place that doesn't smell like chicken houses a lot of the time
434	A place that honors our Creator by keeping family values and a place to help citizens and visitors know that goodness can still rule in this world.
435	I hope the downtown continues to grow & thrive, but by people that live in our community, not outside investors that profit, spend & live elsewhere. I hope our parks continue to encourage people to live & work here. I originally applied to teach in this town 12 years ago because of the parks, trails & downtown. Only after teaching here, buying a home, etc did I realize the other wonderful things about Siloam. We would love to open a business in downtown, but need retail space to stay affordable.
436	A key location for NWA, biking, and exploring the outdoors.
437	I hope Siloam Springs will be a special town that everyone is still involved in and taking care of the treasure we have here.
438	BETTER WITH TAX PAYER MONEY
439	The same hometown built for families
440	No more than twice its current population with ample quality housing available and a true bypass that goes around the city.

441	I hope Siloam will be a place with more activities (not parks) for families to enjoy. We need something indoors we can do together when the weather is not nice.
442	Thriving community for my family but still a smaller area compared to the surrounding larger cities. I want to keep the feeling of feeling safe in my home and neighborhood.
443	I hope Siloam Springs will be realistic and open to the realization that not everyone can afford \$1000/month to rent a small apartment in Siloam. I hope we have more entertainment indoors, not parks, for our kids so they don't have to go to Bentonville, Rogers, Fayetteville, etc.
444	I am hoping it will be what the community wants it to be, and not what the board of directors wants it to be. It is a growing community and new generations are emerging and Siloam needs to be welcome to new ideas, new views. I am hoping that it will still carry the small-town feel and keep the safety it has right now.
445	I want Siloam to be a "destination" for visitors to enjoy.
446	Still a small town.
447	In 2040, I hope Siloam Springs will be seen as a valuable and connected part of the greater Northwest Arkansas area, both as a viable place to live and do business as well as a place to visit.
448	When I am 33 years old, I hope Siloam Springs will be even better than it is today.
449	In 2040, I will be 30 years old and I hope Siloam Springs will have a lot more crosswalks.
450	A thriving city of around 35,000 people from all walks of life. diversity in business too and types of businesses here
451	Safe and low on crime rates. Over the years the crime has gone up dramatically.
452	I would like to see Siloam maintain its unique community and spirit and works for and with local residents. The focus on locally owned and locally made is important and I would hope we can maintain that as Siloam grows. I would love to see expansion on green initiatives as well. Encouraging people towards alternate forms of transport, walking places and eating locally and healthily.
453	Inclusive and equitable
454	A safe place to live without a lot of crime
455	In 2040 I hope Siloam will still feel like home, welcoming and inviting, but continue to grow and evolve in a healthy way.

456	A bigger city with more to do. There's nothing for kids except to get into trouble And nothing is open Sunday or after 9 pm
457	A more diverse and inclusive town, maybe depicting this through murals, pride flags, anything that creates a sense that it's not only white people running the downtown.
458	In 2040 I hope Siloam Springs will be safe, prosperous, beautiful, healthy, and friendly.
459	More side walks and trails for pedestrian and cyclists oriented development. Also a trolley from downtown to city lake to key destinations on highway 412 to John Brown University.
460	Not like Springdale Rogers Bentonville
461	Less inward focused. Be a place people coming from "the outside" feel welcomed
462	Safe, offers youthful entertainment and economical growth.
463	Thriving, forward-thinking, welcoming. A place that respects the environment and takes care of its citizens.
464	In 2040 I hope Siloam Springs will be a place that welcomes all people and where all people can find a sense of belonging. I also want Siloam Springs to be a place where creativity and beauty flourish.
465	In 2040, I would love to see Siloam Springs be an active outdoor community that fully enjoys our lovely climate and the natural beauty that surrounds us.
466	In 2040, Siloam Springs will be a diverse, welcoming place to live, where a thriving small business community continues to attract new residents and additional businesses, and where most people walk and bike because it's the nicest way to get places. Our economy is not dependent on tourists, but tourists come because we just that cool. Our diverse community will be represented in all aspects of the city, from our Board of Directors to our police and fire departments and schools.
467	Less aggressive towards minority religions and more accepting of everybody's personal beliefs and values.
468	Full of life and kindness. A safe place for all who live here, regardless of where they've come from. A place that supports those who live here to be their best.

Is there anything else you'd like to share?	
1	I grew up in Siloam Springs and returned after college. I am so happy to be back and hope that other young professionals are eventually drawn to live here as well.
2	Thank you all for making our town a better place!!! I have enjoyed the changes made over the last few years and think the leadership in the town is doing a great job.
3	I hate that I am missing the meeting. I plan to catch the next one! Thanks for making it so easy to be involved!
4	More ways for teens to get around independently without a car, including public transportation or more biking trails, specifically ones that reach the entire community, not just the downtown
5	Siloam Springs has grown and changed a lot and so many amazing projects have been completed, like City Lake, the bike trails, and the new library and amphitheater.
6	No
7	N/A
8	I would love to see a local newspaper or flyer with public information and special stories of the people and businesses of our city. If a newspaper is not an option due to operating costs, perhaps a weekly reader of some kind would be possible. Also, the school district website (mobile and desktop) are absolutely horrid. They are rarely updated and not at all user friendly. Facebook is generally more informative which isn't helpful for new implants in our town.
9	I was so upset to see KREIN realty put an apartment building right beside a factory where the people living there the factory cuts off their backyard. There is a lack of housing for anyone who cannot pass a credit check in this town. Please bring in more lenient people that do not rent to illegal immigrants. The Barrios property owners Tina and Richard Barrios have lots of rentals here and my mother has been harassed by them because she is white. This should not fly with illegals pushing others
10	I like the small town Siloam. Quit trying to think bigger bigger bigger. And we don't need to have entrances into Siloam. That was a ridiculous question. Just like the water fountain between 412 and main st. It has no purpose, was a waste of taxpayer \$ and has resulted in a drowning. Fountains belong in a park, not in the highway. Focus on how to service the citizens with the city limits. The city needs to step out of the kayak park and stay out of county projects.
11	I would like to see some great options for teens and preteens to get involved with.
12	This town is so important to so many people, I'm excited to see what the next 20 years here will bring!
13	I'm so pleased that this Comp Plan is being addressed. I hope my family can continue to live here and love it as much as I do.
14	Please contact me about the role that Siloam should take in community building.

15	All I want to say is that I don't think Siloam should try to make the city bigger or smarter. I seen an article about a charging area for smartcars is planned for Siloam and I don't like that. I feel like the City Board is trying to make Siloam big as Rogers and that's not for everyone. I've been living here since 2013 and I like the quiet and quaint town that it has been
16	I try to walk or bike everywhere in Siloam Springs. Mainly for health reasons. I find it very dangerous though. Most people run the pedestrian crossings even if the lights are flashing. We try to plan our routes around crossing streets and going through stop lights because it is so dangerous. I know this isn't really a city problem because you guys have done a great job with our cross walks. I just wish there was something else we could do.
17	I can see a lot of people being nervous about change or the town losing it's "small-town charm," but community either moves forward or backward, it cannot stay the same. Progress is better than deterioration.
18	We could use a safe and secure ride share area or carpool options, we could use dial a ride options and more disabled access. Borrow a bike for those who can not afford a bicycle like Rogers has and possibly a couple electric ones that can be reserved for use.
19	Stop adding bike specific things like chicanes and greenways. If you want to add stuff for bikes build new lanes don't take up automobile lanes for bikes. Maintain the streets better. There are several streets that are well past needing updates (repair and pave streets)! The city needs maintenance you want to focus on downtown but the rest of the streets need attention also! Stop wasting tax dollars on pet projects. And please don't put an electric car charge station at the library, such a waste
20	Share our traffic information with Chuck-fil-a. No reason not to have one on the west side of town. Would get Oklahoma, JBU, and our townspeople support.
21	Siloam Springs needs a taxi service
22	We live just outside of Siloam springs and use city water and electric. We are also in the school district and shop in Siloam Springs. I would like to start seeing the ability to vote on some items that are in relation to city utilities.
23	Need public transportation
24	I love our outdoor amphitheater and would like to see more events there. Open up the opportunities and allow those who are healthy and feel safe to enjoy these facilities and programs again. The shutdown has only hurt our economy and I would love to see our city take measures toward rectifying that.
25	Would love to see the farmers market improved and a variety of vendors added. Especially food truck vendors. Would love to see more bike paths and sidewalks
26	We need to curtail building. The first town in NWA to stop issuing building permits will have the highest quality of life in 2040. Siloam with 10,000 more people will have a declining standard of living.

27	More wheelchair accessible options!
28	I spend a lot of time in Siloam Springs, especially the downtown area. I love the atmosphere.
29	I appreciate the questionnaire but it seems to be leading for a predetermined Purpose in mind.
30	If I have to go shopping, for practically anything, I have to leave town.
31	Moved here from Bentonville 6 years ago crime seems to have risen within the last couple of years that is something concerning as a homeowner in our community
32	The water sucks, used to be able to drink tapwater but lately it's tasted like dirt or chlorine.
33	YES JUST PLEASE CLEAN UP AN BEAUTIFY THE EASTSIDE OF TOWN PLUS ENTERING ON 412 THE FIRST CORNER THAT BUILDING AT 412/59 That old car lot needs alot of attention,,
34	Again, Siloam Springs needs adequate tornado shelters!!!! I live in West Siloam Springs, OK. My whole family lives in Siloam Springs, AR.
35	We need our roads fixed! This shouldn't be such a problem here. It's embarrassing. Also, we need to grow economically and get more major businesses to come and create jobs. The dog park is very disappointing as well. :(
36	RECREATIONAL FACILITY!!!!!!
37	I would like to see city planners require community parks on 1-2 lots in all housing developments to provide a public Park/area for the families to utilize.
38	Siloam Springs is awesome
39	We need to focus on supporting all business in Siloam Springs, not just those on Hwy. 412 and downtown. We fail at this miserably.
40	Stop placating downtown businesses, or any business, that demands funding from the City in order to operate, or keep their personal property kept in good order. It's not the City's responsibility to do that.
41	Please stand up for what has made Siloam safe and family friendly! Do not listen to the loudest voices for radical change! That is not who Siloam is and not who we need to strive to be!!
42	Clean up trash in people yards stop parking in yards look at back yards piled with rodent trash its going downhill. People letting pets go wild running on roads getting hit! Most are new people moving here. Animal abuse please fine them
43	Please keep the family friendly small town feel. We aren't Springdale or Fayetteville. Let's not try turning ourselves into them. Let's stay smaller and conservative

44	Siloam is a good community. However, we have fallen behind the corridor in many areas. Future growth needs to feel less random and we need to determine what we really want Siloam to be moving forward. Currently we are just a mix of many parts that do not always feel they belong together. I believe we are in need of employment opportunities in white collar areas and must continue improving our schools by attracting the best candidates and having the best opportunities for our kids.
45	I do not like the atmosphere downtown. Some of the shop owners are snooty and rude (pure joy).
46	Our comp plan land use categories are too broad. They need to be more specific. Medium density is not 10 units per acre. Our zoning code needs a complete overhaul. It is archaic and out of date. Zoning needs to follow the comp plan.
47	We do have a lot of drainage issues around town and streets that need widened or resurfaced.
48	A big gap I see is the lack of established private schooling options.
49	I would like us to be a tourism destination, for shopping, biking, restaurants etc. Our downtown is so beautiful and we need to use it to attract business and commerce. Would like to see a boutique/artsy hotel downtown, maybe a spa/retreat place near kayak parks.
50	It needs to be easier to start and run small businesses in Siloam and the city needs to take an active roll in helping businesses to succeed.
51	I just wanted to say thank you for putting this together. Active community involvement is important in building sustainable growth. I'm a 5th generation Siloam resident and seeing a proactive approach to our future makes me proud.
52	Families are the future of Siloam Springs. The focus should be on creating a very family friendly city.
53	I love the direction we are headed! My main hope is that we can encourage beautification of more of the city--things like helping people invest in the older homes downtown or encouraging businesses to move closer to the city center.
54	I like & enjoy living in Siloam Springs.
55	I would like for the city to remember that neighborhoods and families matter. There needs to be multi family homes, but not slum lords guiding those choices. Downtown needs to maintain its character and appeal
56	You guys are going to be ran out by California just like what happened to Colorado but go ahead keep on Buliding those homes and selling those farms next thing you will be paying to go hiking
57	I am a Real Estate agent, I'd love to see a huge boom here because of the potential there is. Siloam is a far drive from Fayetteville, Springdale, and NWA, so why not make the (30-40 minute) drive here worth while?

58	We need to do a better job of getting good, reliable internet access to those outside of city limits. We have hundreds of kids suffering because they don't have good access. I live 3.8 miles outside of town and I have to spend entirely too much money for mediocre satellite internet. Our city and our schools should put this at the forefront and make sure there is equal access to all students in the district. Students in Cincinnati (Wash. Co) have high speed internet, but Benton Co kids do not.
59	Thank you to all involved in this process!
60	Would like to see city planning continue to make sure neighborhoods are maintaining their property values as we progress and grow.
61	I have lived in siloam for over 25 years. I love this town and want to see it grow and develop yet still feel like a small town.
62	Thanks for asking for our input
63	I appreciate the garbage and recycling service that Siloam provides. Somehow we need to offset the effect that 412 has on coming thru parts of Siloam.
64	All that I have written above has nothing to do with any persons culture or skin pigmentation. I have lived through this before and I know it's coming. Look at how many we already have. I don't care if they're from El Salvador or England. Illegal immigration is illegal immigration and it is wrong! And now we will suffer for it more...
65	I think that the city of siloam springs should start a bus system for people who cant afford car. will hel a lot f people.
66	I do live outside city limits, with a Siloam address. I'm also a small business owner in Siloam (and have a couple local jobs). I (we, my family) love being in the Siloam community. I love this town and want to see it be a success! I'm afraid Siloam is growing WAY too fast and it's going to lose it's sweet small town feel. Sorry I couldn't come by tonight, but hope to come to some meetings. Allison Bellomy -832-978-2748
67	I don't think we need to be trendy like other cities and put in things like bike greenways or electric charging stations that are no cost to the people charging them.
68	I live in stonecrest subdiv..... in general, I see Siloam as a pretty little town & where most people care about their yards & home appearance
69	Need to organize and update services like Utilities and Trash / Recycling collection. There should be taxi services available for any city of this size.
70	Get a better GRDA solar deal.
71	What about a music/ theater center for the kids? Also many of us would love Chick Fil A in town.
72	We need to keep local government involvement low in the private citizen's life. The role should be to protect the rights of the citizen's life but not to declare how one shall live. Government is a position of service to the people. It is not to be viewed as a position of power to

	rule the people. If that becomes the case, the guilty parties must be released from their duties. A person in leadership should serve with humility and discernment. That is what makes a great leader.
73	no
74	I noticed the questions are carefully crafted to limit and this justify a pre conceived idea. If you really want to know what citizens think, don't limit their answers to pre-determined responses. Request an open, essay style response.
75	We need to low the cost of doing business, more green spaces, welcome the Latino community, eliminate the smell of dog treats. but its Simmons & they always get special treatment. too many signs, improve the environment, more and bigger sidewalks, make our quality of life and place better. how many Asians or persons of color are on this and other committee? too many city vehicles just driving around wasting tax dollars.
76	I'm excited the city is taking on this initiative.
77	I'd love to see a kid's play park installed on the airport grounds! There are no parks on the east side.
78	Be progressive and welcoming to a diverse population
79	I really do not want Siloam so lose its quiet, quaint culture. I would like it to stay as a great place to live not just a good place to visit.
80	I pondered the cycle of development. We have more people and need more services. More resources are required to provide services. More businesses are attracted to get more resources. More businesses means more people come to either work or through economical attraction. More people require more services...and the cycle continues. In the meantime, we eat up all the natural land for wildlife. We build more infrastructure which requires more maintenance. At some point we need to say, enough!
81	Thank you for the opportunity to share concerns about our beautiful city.
82	SS probably needs to have a plan for more illegals/homeless that may be brought or pass through to help them have a safe place to be temporarily. Just in case.
83	I think a good job has been done on the downtown area so far, but think about what a person thinks of Siloam as they travel through our town on hwy 412, why would you want to go to the downtown area based on this impression? Maybe we need another area on 412 which gives an impression of what else our town has to offer and leads to the downtown area?
84	Graduated from SSHS. I used to be a student at JBU and I used to work in SS. Retired now.
85	I would like to see better internet service providers in Siloam Springs. The one real option now available has a total lock up on the market.
86	Sidewalks for easy walking from one neighborhood to another

87	I would like to see the police department getsome proper training on child abuse and child sexual abuse. I've met families from both kinds and they've turned everything into the police department, nothing is being done. We need to get better therapist and counseling in here, we are failing these children? Nothing gets done so these kids feellike the police think they're lying and the parents just get so consumed with it because they want some justice but it's turning their lives upside down.
88	Stop trying to please just a handful. Siloam is more than just downtown. It's more than just a couple bike riders. We aren't Fayetteville (yet) and that's a good thing.
89	Thanks for asking! I'm also married and thinking about starting a family here!
90	I enjoy Siloam Springs and like seeing it growand develop but I do not want to see small businesses get pushed out by large chains and corporations.
91	My attitude towards projects of this type is that this will favor a small group of the population who also happen to be the loudest and least representative of the larger population. The firm that is carrying this out doesn't know the town culture and nuances. It is the responsibility of the firm/oversight committee to address this concern. My hope is that this doesn't lead to more big-city copycatting. Leave what's not broken alone.
92	Thank you to all involved in making Siloam Springs a city for the future
93	1. Taxi services 2. Music Theatre 3. Ball Room Dancing Lessons
94	Please limit the growth.
95	I hope the City can maintain it's small town home feeling. Too much growth would overrun the area.
96	Thank you for the Spring and Fall cleanup days. Wish people with loud car music would realize some of us enjoy a quiet town. I am not interested in Siloam becoming part of the large surrounding towns and I fear we will. I often hear good things about our schools. I fear we will become
97	Thanks for all you do to help Siloam. I trulyappreciate you all making Siloam a better place to live and raise a family.
98	Again, I am very happy and grateful to be a resident of Siloam Springs and as well happy to work for the City.
99	Would like to see more competition within thecable tv industry and we need to be attracting new industries to provide good paying jobs so there is no need to commute two hours a day.

100	I am very Siloam proud and generally like the direction the city is moving. I think we will be successful if we continue to attract businesses andif we develop and enforce beautification standards for businesses and residents. I would also liketo see more accountability on rental property owners to ensure they're held to a standard that makes them upkeep properties that is both livable for the tenant and appealing to the eye.
101	I am handicapped so walking is not an option for me
102	Some of these questions do not allow the respondent the opportunity to explain information. Many questions are too all-encompassing. For example,you ask about the appearance and welcoming nature of city hall, but you only ask if public safety services are meeting your needs, again without the ability to further explain.
103	I am blessed to be a part of this beautiful community.
104	I work at McKee Foods, and plan to retire in Siloam Springs. Moved here from Prairie Grove a year ago, and I generally love Siloam Springs.
105	We need to do a much better job in getting poorly maintained properties to fix up and clean up. Things are a little better than last year, but not much. East Main Street could be cleaned up with some effort. Sweep the road regularly. Thereis gravel along side from the City Garage to the top of the hill to the west on both sides of the street.
106	I love the beauty of Siloam Springs. Not so much for 412.
107	I would like to see more rural internet access.
108	I LOVE my town! I'm excited to see how Siloam grows while creating a strong central community to sustain our own residents through the years tocome.
109	I have lived outside of Siloam Springs for 20years. I have appreciated the developments the town has made thru retail stores, the parks & walkingtrails, and opportunities for the kids. I just hope it doesn't become the congested and overwhelming city like Bentonville, Rogers & Fayetteville has become.
110	I love the new dog park i think with more advancements like that siloam will be glowing with more people. We need more clothing places as well.
111	have you ever noticed that anytime the chamberor the city promotes Siloam Springs, it only shows the downtown area or the parks. What about therest of us? My business is on the highway.
112	I think the roads really need to be worked onand in a more timely manor.
113	Thank you for doing this.
114	I'd like to repeat how horrible the parkingsituation is now in downtown. Please look at fixing it - it is hazardous!!

115	I was born and raised here. I love that people are attracted to our town and want to live here. My pet peeve is the people that move here but then want to change who we are.
116	We need more industry, fewer semi's and more sit down restaurants.
117	No
118	There are a lot of opportunities for 20something people right out of college but I fear that there isn't really a whole lot in this community to keep those people here. While Siloam is a family community, there is a wide variety of people who do not have children that would love a reason to move here and stay here.
119	I love Siloam Springs and have lived here nearly all my life. I have enjoyed watching Siloam grow over the years and I think the City Admin has done a great job of growing the right way. I look at Siloam as two separate cities. There is the 412 city which is honestly pretty unappealing with some ugly motels, fast food restaurants, vape shops, and rusted out vehicles from Oklahoma. but there is the rest of Siloam which is family friendly and very beautiful. Continue to make the later true.
120	I would like to see more celebration of diversity.
121	More downtown SIDEWALKS and SPEED HUMPS
122	In a world of chaos, Thank you for being an awesome town. i am proud to call Siloam springs home
123	I am a christian and like the idea that my community is founded on christian beliefs. I'm not interested in caving to "man's desires" simply for self-serving purposes. I'd like that to continue.
124	Nothing at this time.
125	Walkability is a safety issue that needs to be addressed. Also, please make it easier for small businesses concerning the sidewalk and landscaperequirements. It is unfair for the city to not require the same of existing businesses.
126	I would like to see more options for kids activities in Siloam. There is no where to have a birthday party or get together. Something for kids would be wonderful.
127	Thank you for asking for our input. The last few question on the previous page made me think about further input. The library needs some updating for newer books and movies, as well as protected outdoor meeting spaces. I have heard local criticism of our PD because of slow response time or lack of concern. We need another venue available locally for meetings/weddings/gatherings. A local rent-a-bike or scooter program would be helpful.
128	Thank you for this opportunity

129	I have lived in Siloam Springs in the past. I live just outside of Siloam Springs and have worked here for the past 10 years. I like the direction Siloam Springs is going. I would like to see this turn into the hub of tourism, very family oriented and the faith based community of Northwest Arkansas.
130	No
131	Riding a bike is good exercise and environmentally friendly BUT if our roadways are going to be used by bicycles more then we should plan appropriately for how we will fund road repairs
132	No
133	We moved here from a small town (actually same population) in Oklahoma and fell in love instantly! The town we came from didn't take care of its community, businesses, or land. Coming to Siloam was like a breath of fresh air seeing how the whole community cared for the well being of their town in all aspects. I hope it continues to put its citizens first and takes pride in being a place for all to enjoy.
134	Nice survey
135	The housing market is critical. I moved to SS2 years ago. It took me 2 months to find a rental. I began looking to buy a home after renting for a year. Homes sold within 2-3 days of being listed. I bought a home last August. If the community is growing we need affordable rentals and livable move-in ready homes for median income families.
136	Sending this flyer about a week before the survey is due shows a lack of planning and anticipation on the part of the Board; or at least a lack of truly wanting citizen input. You don't get to be frustrated with the lack of involvement with your current behavior regarding this survey.
137	In case I haven't said it enough, I am tired of trying to be Bentonville or Fayetteville. People are coming in and trying to change us. I don't like it. We have lived here 30 years.
138	I understand the need for more housing. But please consider the neighborhood type that already exist when approving it. People buy into already developed neighborhoods because of how they are when they bought their houses. Like I said I understand the need for more but please make sure what you are approving is cohesive with what's already and not random feeling
139	There really needs to be a walking/biking path from the Stonecrest neighborhood around the airport. A light at Airport road and 412 is also needed.
140	I would like to see the recycling program expand to recycle a lot more materials. Only excepting type 1,2 plastic bottles and cardboard is not enough!
141	NA
142	Need expansion of recreation facilities - particularly pickleball! (Thanks for the lines on the tennis courts - but need dedicated courts.)

143	Our family would like to see more support in youth sports. Many athletes end up playing youth sports in other towns and this is unfortunate. We need to make sure fields and gyms are available to Siloam Springs youth sports teams.
144	There is really only one thing that's holding Siloam back and that's all the huge restaurants and food places in Rogers and Fayetteville not being close enough and if you want to go somewhere fun such as games, go carts, arcades, trampoline parks ect.. you have to go again to Rogers or Fayetteville.. Siloam has the population and location to create an amazing town to enjoy time with friends, family, and children. We need more things to keep us here rather than us leaving to enjoy ourselves...
145	needbetter landuse planning. Too many duplexes
146	Thank you for so actively seeking community input!
147	We can't have everything, and I assume many residents will continue to regularly commute to the corridor for work, entertainment, etc. Rather than try to grow like those communities, I'd rather encourage better, innovative community design (especially with all new developments) - not just spread another piece of soulless suburbia.
148	I live in the historical district and have to endure the stench of Simmons processing plant to the extent I cannot sit out on my porch many days! It smells like puke! The city ordinance's are not enforced, junk on lawns and porches! Clean up our neighborhood and enforce the laws on the books!
149	I strongly would like a community rec center or something of the like, that is family friendly, clean, and up to date. I also recommend a climbing wall within said facility or outdoors within the parks in town. The climbing community generally reflects Siloam community because it is usually an inclusive activity and works well with the outdoorsy vibe we are already cultivating.
150	Too many duplexes that are not maintained in a positive manner.
151	NO
152	I appreciate that the City is reaching out to get feedback from the community!
153	Growth is fine, but it needs to be thoughtful. Ugly, high-density multi-housing units do not promote the dignity of the people that live there. Promote transportation like Uber & Lyft & bike sharing.
154	I would like to express my concerns about the fenced in yard comment but I'm not sure who to talk to about it
155	STOP LETTING BUILDING CREATE NEW CHURCHES. We have enough. Need more restaurants. We need an assisted living facility.
156	Whoever is responsible for Hwy 412 going through town needs to address the situation on the eastern part that is not divided. With all the new businesses, the traffic is crazy sometimes.
157	More outdoor public spaces to complement the kayak park and the planned white water park. Camping areas, trails and trail access
158	Need a category "retiree"

159	Siloam is a very well run community and is a friendly place. I like it better than Bentonville. To rival Fayetteville more business and better housing are needed
160	What can Siloam springs do to fix Robinson RD road, I know is outside of Siloam city limits. But we are a few miles of downtown. We don't have pickup trash service. I feel forgotten. Thanks
161	Live in Dawn Hill, would love to be annexed
162	Good job!
163	Good job!
164	Thank you for making the survey available to get input from the community.
165	Thank you for making this survey available to receive input from the community.
166	AFFORDABILITY OF HOUSING. I hear a lot about how "affordable" housing is... but it is not. Some people must not have tried renting. Average rent, for a small 2br apt is between 850-1000 (except Spring Valley) - and rent should be 1/4 of your income. For a new Siloam Springs police officer starting at \$16.39/hour - that income is roughly \$2,622 PRE-TAX per month. So that is HALF if not more of the income - NOT AFFORDABLE! Either someone is reporting incorrect info or you all just do not care!
167	I live at Dawn Hill, have a Siloam zip code, own a business in downtown and this is my area shopping space. I have zero representation on the board of directors as a resident. As a business owner, yes. But not as a resident of 33+ years. I'm also not a fan of the method of representation making possible a complete turnover in one election. I don't understand why council members' terms don't overlap in a way that would create a better consistency of decisions made for the community.
168	Fix the roads! Too bumpy!!!
169	I love our city
170	Do more of these outreach surveys.
171	Keep Siloam small
172	Siloam Springs needs its own identity, separate from JBU. The two are not, and should not be, one and the same but that is the impression I hear from many who do not live here. This town has so much more to offer.
173	My wife and I love this town and want to see it (and its residents) grow and flourish!
174	Thank you for the opportunity to have input. Any complex system has ways it can improve, but I'm so glad to call Siloam Springs home, and the hardworking and thoughtful people who work for the city are a big part of that. Thank you again, and keep up the good work.

175

Your transportation and mobility plan has no mention at all of handicapped accessibility or support for people with mobility issues. Ensuring sidewalks, parking, public spaces, etc, are safe and accessible should be included in your planning. ADA compliant is NOT the same as accessible. Perhaps you could each be confined to a wheelchair one day and limited in the number of steps you're allowed to walk while completing errands another day.
