

Dear National Title Group clients, family, and friends,

Deemed an essential business during the coronavirus (COVID-19) outbreak, National Title Group will remain open at this time. Our employees, agents, and customer's health and well being are of the utmost importance to us. We are dedicated to protecting everyone and remain diligent in creating a smooth closing transaction for all parties.

At this time team members will be working remotely as well as in the office on an appointment-only basis. Please continue to communicate with your direct Escrow Team to ensure you have an appointment as well as all essential documents completed for your closing transactions. We will be utilizing mobile notary services, remote online notary, and DocuSign to ensure anyone unable to be in-person for their signing can complete their transaction remotely.

We will continue to thoroughly sanitize the offices throughout the day and after every closing. Please take the pen used for your signing with you. Additionally, please use the provided hand sanitizer located in the building lobby as well as at our front desks. Please wash your hands before entering our office and before you depart, restrooms are located just past the elevators.

On behalf of the entire National Title Group Team, thank you for trusting us with your real estate transaction.

#WEGOTYOURBACK

Sincerely,
Lathram Pou
President
