- pp. 14 Selected Projects and Early-stage start-ups
- pp. 18 Our partners
In order to give more visibility to FemTech and to accelerate innovation, Groupe Mutuel, one of the leaders in health insurance in Switzerland, has joined forces with the best innovation park in Switzerland, the EPFL Innovation Park.

Together, we want to attract and promote the best solutions in FemTech and give them an opportunity to test their market, finance themselves, or better, co-create together.

More than any other healthcare domain, FemTech innovations must be supported to foster more effective prevention and treatments for women’s health.

It is a cause, and we would like you to join us.

A word from the founding partners

Lan Zuo Gillet  
EPFL Innovation Park

Nicolas Loeillot  
Groupe Mutuel
The FemTech Bridge to Asia, Europe, USA and UK

Tech4Eva is on a mission to create an innovation platform in Switzerland, where disruptive start-ups and projects in FemTech from around the globe develop innovative solutions for improving or advancing technologies relating to women’s health and achieving respective growth.

What is the goal of this program?

To create long-term impact for FemTech start-ups and create a global FemTech Community.

The 9-month start-up acceleration program, will help selected startup companies to refine their business models and go-to-market process strategy, to meet investors and potential customers and connect them with leading FemTech hubs around the globe.
Only a small percentage of global start-ups are led by female founders. Our application process counts more than 65% of start-ups and early-stage projects founded or co-founded by women.

We encourage women to launch their ideas.

Country: Switzerland
Sector: Fertility & Pregnancy
Solution: Medical Devices

A medical device for non-invasive analysis of embryos in assisted reproduction cycles. It will help doctors choose the most viable embryo to obtain a pregnancy.

Andrea Albornoz
Head of Global Marketing & Sales

Country: Switzerland
Sector: Fertility & Pregnancy
Solution: Medical Devices

At ASPIVIX, we innovate women’s care as we believe it’s about hefty time for gentler and more modern gynaecology! We create a new generation of medical instruments, eliminating pain and bleeding, for millions of women every year. CAREVIX is a single-use medical instrument designed to replace the traumatic tenaculum which is nowadays a standard of care in millions of gynaecological procedures. CAREVIX allows gentle handling of cervix for all procedures requiring an access to the uterus in gynaecology.

Lisa Krapinger
CMO

Country: Austria
Sector: Fertility & Pregnancy
Solution: Monitoring Equipment

Carbomed Medical Solutions is an Austrian female empowerment tech start-up on a mission to break the taboo which surrounds speaking out about trying to conceive and cycle tracking. breathe ilo is the world’s first fertility tracker that uses breath analysis to identify a woman’s ovulation pattern and fertile window in a way that is easy, comfortable and within one minute. It is a small handheld device synced to an app that reads the breath’s CO2 saturation to determine where a woman is in her cycle with incredible accuracy and can be done at any time of the day.
Fizimed develops connected medical devices for women. 1 woman in 10 is suffering of urinary leaks. Recommended by health professionals, Emy is a connected device to strengthen pelvic floor. Emy allows any woman to do Kegel exercises at home.

EmbrLabs has harnessed the body’s response to temperature via a wrist-worn bracelet to dramatically affect the impact of menopause symptoms.

Gals Bio is leveraging the monthly menstrual secretions to monitor and screen women health from the comfort of home with the accuracy of a lab.

GynTools’ revolutionary 5 minute vaginitis diagnostics is replacing current long turnarounds & misdiagnosis. Our solution is disrupting a multi $B market. GYNI allows for correct (>90%) diagnosis within minutes, from a single swab. The system has 4 elements- a smart sample collector, a scanner, web based user interface and a cloud, deep learning based algorithm that analyze the data from the scanner and send back results within seconds.
Selected Growth-Stage Start-ups

**Implí**

*Country:* United Kingdom  
*Sector:* Fertility & Pregnancy  
*Solution:* IoT / Wearables

Anna Luisa Schaffgotsch  
CEO / Founder

Implí improves healthcare and makes patients lives easier with implantable technologies.

**Metabolomic Diagnostics**

*Country:* Ireland  
*Sector:* Fertility & Pregnancy  
*Solution:* Diagnostics

Robin Tuytten  
CEO

Metabolomic Diagnostics is a deep-tech company specialized in the development of novel biomarker-based diagnostic solutions for complex diseases. Metabolomic Diagnostics current focus is on pregnancy health, including laboratory test for screening for Preeclampsia risk early in pregnancy.

**MOMM Diagnostics**

*Country:* Switzerland  
*Sector:* Fertility & Pregnancy  
*Solution:* Diagnostics

Mathias Wipf  
CEO / Co-founder

MOMM Diagnostics is developing a fast and precise point of care test for preeclampsia - a dangerous pregnancy condition. Our technology will assist doctors on-site to save the lives of mothers and babies. MOMM Diagnostics’ novel patented point of care technology allows the quantification of low-abundant biomarkers from a single drop of the mother’s blood. MOMM’s rapid preeclampsia test aims at reliable and early-stage molecular diagnosis of PE during doctors’ visits, using low-cost single-use cartridges and a hand-held reader.

**Muvon Therapeutics**

*Country:* Switzerland  
*Sector:* Wellness  
*Solution:* Therapeutics

Deana Mohr  
CEO

Muvon is a biotech spin-off from UZH with the mission to advance cell therapies for skeletal muscle regeneration, with female stress urinary incontinence as first indication.

Founding Partners

EPFL Innovation Park

The EPFL Innovation Park supports disruptive innovations and the transfer of technologies of the EPFL and other regional academic partners. It provides flexible office space, training, acceleration and coaching services to 250 high-tech companies: start-ups, SMEs and R&D centres of large companies. Together with its partners and a dynamic community of venture capital firms experts and service providers, the Innovation Park is positioned as the main pole of entrepreneurship in Western Switzerland.

Groupe Mutuel is one of the leading personal and health insurance companies in Switzerland: more than 1.3 million private customers and close to 24’000 companies rely on the insurer every day. In addition to compulsory health insurance (LAMal/KVG) and supplemental insurance (LCA/VVG), customers can choose from an extensive range of life insurance plans to cover risks and provide for their individual retirement benefits, as well as from a range of patrimony insurance solutions. Moreover, Groupe Mutuel insurers provide daily allowance insurance to companies, pursuant to LAMal/KVG and LCA/VVG, as well as compulsory accident insurance (LAA/UVG). Groupe Mutuel also manages Groupe Mutuel Prévoyance-GMP pension fund.

Network Partners

The Embassy’s Swissnex team is part of the Swiss global network connecting Switzerland and the world in education, research and innovation. Our mission is to support the outreach and active engagement of our partners in the international exchange of knowledge, ideas and talent. Swissnex is the launchpad for Swiss startups going global. Our equity-free startup programs are customized to the needs of entrepreneurs exploring or entering the UK market, and we co-create programs and provide services to other Swiss innovation partners.

Fermata accelerates the development of the FemTech ecosystem and a community that celebrates diversity in society. Create a place for women to share their concerns and issues related to their bodies. Curate FemTech products from around the world and provide solutions in Asia.
Ferring Pharmaceuticals is a research-driven, specialty biopharmaceutical group committed to helping people around the world build families and live better lives. Ferring is a leader in reproductive medicine and maternal health, and in specialty areas within gastroenterology and urology.

Joyance Partners is the first venture fund focused on finding and growing new companies that deliver Delightful Moments derived from science. Delightful Moments are part of all human experience: the small, but powerful, separations from the daily humdrum when we feel stronger, calmer, more joyful, more in control, more distant from pain and anxiety.

Swissnex is the Swiss global network connecting Switzerland and the world in science, education, and innovation. Our five locations and outposts established in the world’s most innovative hubs support the outreach and active engagement of our partners in the international exchange of knowledge, ideas and talent.

Women of Wearables (WoW) is a leading global organisation aiming to inspire, connect, and support women and allies in emerging technologies such as wearable tech, IoT, health tech, and everything in between.
