## Eagle Commences Production of Omni Innovation's Pre-Meal Shake

EVE Investments (ASX:EVE), an ASX-listed technology investment company, is pleased to provide an update on its ~40% portfolio company, Omni Innovation, the medical technology company focused on medical nutrition.

### Update on Distribution Agreement with Eagle Health

Omni Innovation is pleased to announce that its Chinese distribution partner, Eagle Health (ASX: EHH) has placed its first order for the Australian product component that acts as the core of its patented pre-meal shake for type 2 diabetes.

Eagle Health announced today that the upcoming product launch is a key part of its strategy to leverage efficacious, clean green Australian ingredients and brands into the China market.

Eagle Health will exclusively manufacture, market and distribute Omni's clinically proven pre-meal shake product for Type 2 diabetes and Pre-diabetes throughout mainland China through the Company's extensive network of pharmacies and other retail outlets.

Eagle Health will begin its national roll-out in Xiamen, the Company's home city, in December 2017. Xiamen recently became the ninth city in the world to launch the Change Diabetes Project ("Project"). The Project will study current incidence of diabetes in Xiamen, raise the awareness of the urban residents about diabetes and assist the community to better jointly cope with the challenges of diabetes.

**Yao Guanhua, Director and Party Secretary and Secretary of the Xiamen Municipal Health and Family Planning Commission, said:**

"The Project will provide information, decision support and intellectual support for the comprehensive prevention and treatment of diabetes in Xiamen.

"The Project will promote medical resources to patients and go to the grass-roots level to achieve true medical integration."

It is estimated that in 2018 there will be over 120 million men and women in China suffering from Type 2 diabetes growing to over 160 million by 2030. An aging and growing population and increasing obesity are the main drivers of this alarming trend that is particularly prevalent in urban Chinese locations.

### About Omni Innovation

Omni Innovation creates unique and specialised medical nutrition products that can be used by people with chronic and lifestyle diseases. Omni's products are independently validated and supervised by Omni's expert collaborator network to ensure that customers have safe, effective and clinically tested products that provide benefit with scientific backing.
