QUARTERLY ACTIVITY REPORT FOR THE PERIOD ENDING 30 JUNE 2015

Highlights

- Advanced negotiations on new investment in a medical technology enterprise
- Reviewing several additional technology investment opportunities
- Appointment of Investment Manager – Ben Rohr
- Capital raising completed for A\$400k in early July
- Proposed in specie distribution of Aurora Uranium Project

New Investment Opportunities

Energy Ventures Limited (“EVE” or “the Company”) is currently in advanced negotiations for an investment in a medical technology enterprise. At the present time the negotiations are incomplete and subject to conditions and commercial confidentiality. The Company will keep the market informed of any material development from the negotiations.

The Company is also currently reviewing several technology investment opportunities that cover a broad cross-section of business sectors including human resources, data storage and security, agriculture, health and wellness.

To assist with the Company’s current focus on the technology sector, during the quarter it appointed Mr Ben Rohr to the position of Investment Manager for an initial period of 12 months. Mr Rohr’s responsibilities include both sourcing and appraisal of new investment opportunities for the Company.

Mr Rohr has recently been working in New York where he was co-founder of a technology start-up that developed a genetics based breeding algorithm which became the core technology in a gaming platform. Previously, whilst in the US, he reviewed and implemented IT data capture and reporting systems for private enterprise. In addition to his technology background Mr Rohr is a qualified Chartered Accountant who has experience in banking, property, financial services and consulting in Europe, Asia and Australia.

For personal use only

In early July, the Company completed a placement to sophisticated and professional investors of 80,000,000 shares at 0.5 cents per share raising A\$400,000 before costs. The funds will be used for due diligence on new technology investments and general working capital. Participants in the placement will be entitled to receive one unlisted option, exercisable at 2 cents per share and an exercise period of one year from the date of issue. The options will be issued subject to shareholder approval at a forthcoming general meeting of the Company.

In-specie Distribution

The Company is planning to conduct an in-specie distribution of wholly owned subsidiary, Aurora Uranium Limited. Aurora Uranium is an Australian registered public company which, through its US subsidiary Oregon Energy LLC, holds 100% of the Aurora Uranium Project in southeast Oregon. Aurora Uranium also holds approximately 4.5m shares in African Energy Resources Ltd which, with its joint venture partner First Quantum Minerals Ltd, is progressing feasibility studies on the Sese Power Project in Botswana.

The in-specie distribution is part of a reorganisation of the Company's investments associated with the decision to pursue the new investment in a medical technology. The proposed distribution of the key investment in uranium is designed to allow existing shareholders to retain exposure to this investment with minimal further dilution of equity and very low ongoing holding costs.

Further information about the in-specie will be released at a later stage with full details to be included in a Notice of Meeting that will be distributed to shareholders in due course.

Other Investments

EVE holds a 35% interest in Wayland Copper, which holds the Ballek copper-gold in Northern Sweden. Beowulf Mining Plc, the joint venture partner and manager of the project, is currently developing a work programme for the remainder of 2015 and an associated budget. EVE does not currently plan to contribute funds to the next round of work and its interest in the project will be diluted accordingly.

EVE also holds approximately 30% in UK incorporated Agricola Resources Plc. Agricola is intending to undergo a corporate restructure and is seeking a new project.

Bill Fry
Executive Director

Compliance statement

- 1 This statement has been prepared under accounting policies which comply with accounting standards as defined in the Corporations Act (except to the extent that information is not required because of note 2) or other standards acceptable to ASX.
- 2 This statement does give a true and fair view of the matters disclosed.

Steven Jackson

Company Secretary

30 July 2015

Notes

1. The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position. An entity wanting to disclose additional information is encouraged to do so, in a note or notes attached to this report.
2. The definitions in, and provisions of, AASB 1026: Statement of Cash Flows apply to this report except for the paragraphs of the Standard set out below.
 - 6.2 - reconciliation of cash flows arising from operating activities to operating profit or loss
 - 9.2 - itemised disclosure relating to acquisitions
 - 9.4 - itemised disclosure relating to disposals
 - 12.1(a) - policy for classification of cash items
 - 12.3 - disclosure of restrictions on use of cash
 - 13.1 - comparative information
3. Accounting Standards. ASX will accept, for example, the use of International Accounting Standards for foreign entities. If the standards used do not address a topic, the Australian standard on that topic (if any) must be complied with.
