-----------------	---

Description or summary of the proposed project	<i>We intend to create a sustained internationalization project characterized by the creation and presentation of shows, by arts and education programs and artistic intervention projects with/towards the community. We are interested in enhancing the experiences and exchanges within this net of partners and, therefore, our proposal is to create three Stations, one for each partner, over the course of three years, each preceded by a period of residency, where the teams of each partner might co-work as creators or observers. These sustained investigation processes will result in an annual program that will gather presentations, conferences and workshops. Apart from that, the project and its results will be closely accompanied and documented by a researcher with relevant work on these subjects, as a way to produce an external evaluation of it. This consultant will be also responsible for the final debate and observations.</i>
